# 3M Packaging Supports Breast Cancer Awareness

3M Packaging is partnering with National Breast Cancer Foundation to help raise awareness of breast cancer.

One in eight women will be diagnosed with breast cancer in their lifetime, and for many treatment options are not available.

To raise awareness we are offering a pink tape dispenser for a limited time.

# 1 in 8 Women will be Diagnosed with Breast Cancer in their Lifetime

## The Mission of NBCF

NBCF's mission is to help women now by providing help and inspiring hope to those affected by breast cancer through early detection, education and support services.

Breast cancer is one of the leading health crises for women in the United States. 1 in 8 women will be diagnosed with breast cancer in their lifetime. There is currently no known cure for breast cancer, and its early diagnosis is critical to survival.

That's why NBCF provides free mammograms to women in all 50 states through our network of hospitals. We are now joining hands with people around the world to provide breast cancer education.

## How NBCF Fulfills Its Mission

NBCF is a stabilizing force in the lives of hundreds of thousands of women who have reached a crossroad in their lives and need a helping hand to get across the bridge. NBCF offers free, innovative programs that other organizations aren't providing to women facing breast cancer. These programs include:

- National Mammography Program
- Beyond The Shock
- Early Detection Plan
- Breast Health Awareness

NBCF is one of the most recognized and respected breast cancer charities in the world. Since 2003, NBCF has received the highest 4-star rating by Charity Navigator, America's premier charity evaluator. In 2015, over 85% of their revenue was directed to life-saving programs.
