Customer-Focused Inventory

- We stock based on our customers needs locally. If you need a product and we don't stock it, request it and we will add it to our inventory for you.
- We adapt to your business processes to ensure that you have what you need to operate safely and efficiently.
- We maintain more than 50 warehouses throughout the United States and Mexico.
- We offer an extensive array of ISO 9002 Qualified Items from top manufacturers and brands.

No Minimum Purchase Necessary

- There is no minimum purchase amount at R.S. Hughes. Order precisely what you want, when you need it, without having to inflate your purchasing costs.
- Stocking what you need is our specialty. If you need a specific product stocked, contact us so that we can stock it for you in one of our 50+ international warehouses.

Many Ways to Order

- Online at rshughes.com
- By phone to speak to your personal sales representatives
- By Email or EDI
- Faxed purchase orders
- In person at any one of our warehouse locations.
- We accept payments via credit card and through instant credit. Quickly and easily set up instant credit with your first purchase.
- Pricing is Subject to Change.

We have strived to put the best, most popular products in this catalog. Unfortunately, everything just won't fit. If you need something that isn't in the catalog, we most likely have it.

If you would like some direction, have special application issues, need on-site training or just have questions, give us a call or send us an email at safety@rshughes.com. We are here to help. Thank you for your business.

Sincerely,

**George
Mallinckrodt**

At R.S. Hughes, we stand behind your right to

BUY WITH CONFIDENCE

Head to Toe Protection

The human body is an amazing machine capable of strength, speed and precision but it is also susceptible to injury. At R.S. Hughes we are fully committed to the safety of every part of your body - from head to toe. We work diligently to ensure every step of your order fulfills this objective. R.S. Hughes is watching your back in your work environment.

Try It Before You Buy It

Nothing beats actually seeing and holding the product in your hands before you buy it. Seeing is believing. Let us show you the actual product before you buy it. We will ship a sample or a specialist will bring it to you. There's confidence in knowing you are getting the right protection for the job!

100% Satisfaction - Guaranteed

If for any reason you are not satisfied with the product you received, we will replace it or credit you. And our nationwide network of safety specialists are available to visit your site and offer solutions.

Trial Order Program

Trial orders are available on a satisfaction-or-no-pay basis. The program lets end-users evaluate our products in their actual application and on-site condition, on a satisfaction-or-don't-pay basis to make sure that the products are right for the job.

Purchasing and Supply Solutions

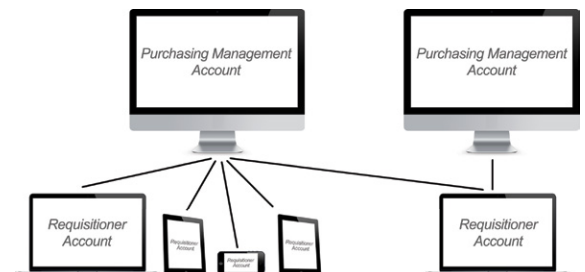

3 Programs that provide solutions to the ever increasing demands of purchasing programs and fit a wide range of company sizes and requirements.

Solutions provided by our industry leading professionals. *It's ALL here!*

PURCHASING MANAGEMENT SOLUTION

Purchasing Management Solution allows you to build a robust internal requisition to approval process through our simple web interface. Streamline purchasing and control costs through a custom designed web experience that puts you in the driver's seat for requisitioner approvals, budget management, order thresholds, and in-depth reporting.

- Lower internal processing costs with increased speed and convenience
- Simple web interface
- Invite & manage requisitioners
- Approve, edit, or reject purchases
- Set automated spend & approval levels
- In-depth reporting with full visibility

INVENTORY MANAGEMENT SOLUTION

Our Inventory Management Solution combines technology with our professional support allowing you to focus on other business issues while we manage your consumable inventory. Dedicated R.S. Hughes professionals monitor and manage your replenishment process. A web based reporting suite provides full visibility, tracking, and transparency.

- Customized on-site consumable inventory management solution
- Internal time & cost savings
- Optimized stocking & consumable inventory levels
- R.S. Hughes monitors consumables & manages your replenishment process
- Flexible reporting suite with full visibility & tracking

INDUSTRIAL VENDING SOLUTION (VEND2SUPPLY)

The R.S. Hughes **Vend2Supply Solution** brings a secure, automated approach to your supply management with the greatest level of control, reporting, security, and cost savings. The Vend2Supply Solution takes Supply Management and Cost Control to the next level.

- Dedicated R.S. Hughes professionals monitor & manage consumable inventory levels
- 20 - 30% consumables cost reduction
- Eliminate hoarding, misuse, & theft
- Tightest security & control
- Direct user supply
- Simple touch screen access
- Employee level reporting and control
- Automated replenishment process
- Reduced downtime & improved productivity

Bump Caps

282-AEM130 / 282-AES150 Aerolite Micro Brim Bump Cap

Weighing less than 5 oz. this cap can be worn all day. HDPE liner is removable, so the outer cap is fully washable. Increased ventilation for coolness and comfort. Size adjuster slides easily and is angled downward to fit under nape of neck. Keep comfortable and prevent unwanted odor. Reflective piping adds extra visibility. Water repellent shell prevents staining.

**HOYA SAFETY
RX EYEWEAR
MADE EASY**

High-performance lens coatings

The clear choice for workplace safety

You work hard to provide a safe, productive work environment. And making sure everyone is wearing the appropriate type of safety eyewear while on the job is critical to that effort.

But things can get complicated when it comes to employees who need prescription lenses – particularly when the workforce represents a wide range of job roles and individual eye care needs.

SRx Made Easy is designed to help, by simplifying the ordering process and connecting employees to a national network of independent eye care professionals.

With package pricing that saves you money on a comprehensive range of frame styles and lens treatment options, SRx Made Easy turns a logistical challenge into a tangible benefit for your business.

Both Basic and Enhanced packages include:

- ▶ Choice of either HOYA Anti-Fog Coating or new HOYA Easy Clean Coating
- ▶ Single vision, bifocal, trifocal, occupational, and progressive addition lens designs
- ▶ Polycarbonate lens material
- ▶ Solid or gradient tint
- ▶ Sideshields: integrated, detachable or permanently attached
- ▶ Eye care professional fitting services

**Call 877-774-8443 or
Search “HOYA” on www.rshughes.com**

HOYA Safety Rx Eyewear Made Easy

How it works

Once your SRx Made Easy program is in place, you can place orders and have them filled through a network of HOYA-partnered independent eye care professionals using a streamlined 5-step process:

1

You place an online request through your HOYA distributor's SRx website using your PO and account number.

2

Your distributor provides you with an order form based on the pricing package and options you have selected.

3

The employee locates a nearby independent eye care professional using the search tool on your distributor's SRx website.

4

The employee brings the order form to their chosen eye care provider for product selection and fitting.

5

Once the independent eye care professional has received the completed eyewear product, the employee returns to pick it up.

This process makes things easy on you by letting employees work one-on-one with their own conveniently located eye care providers. And partnering with the same distributor who provides you with a wide range

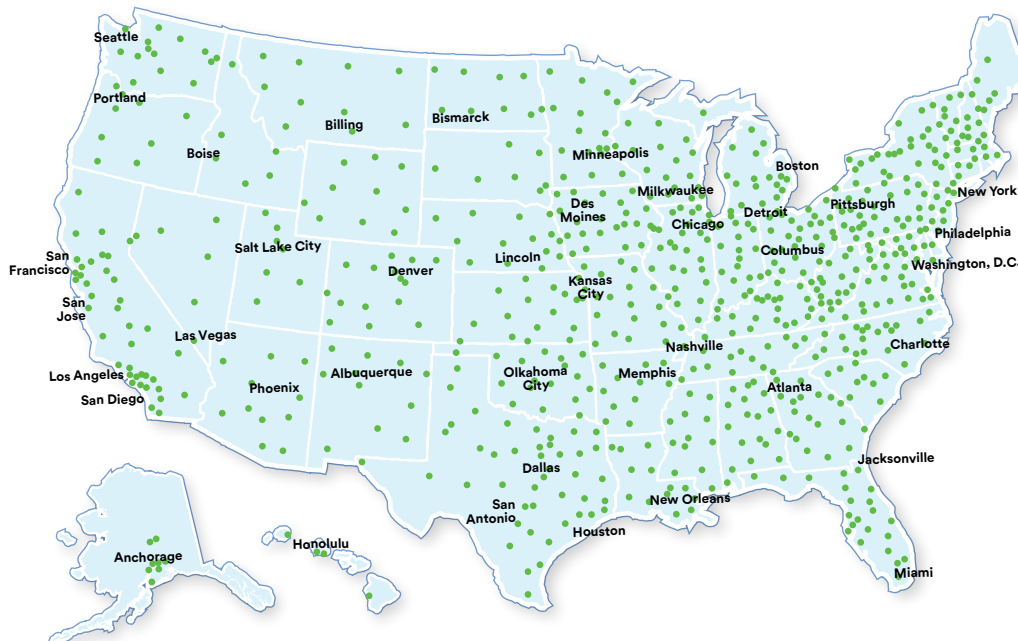

of safety solutions saves money and keeps ordering and invoicing as simple as possible – making sure that providing critical safety prescription eyewear doesn't come with unnecessary logistical or financial costs.

HOYA Safety Rx Eyewear Made Easy

Personal selection & fitting with independent eye care partners

HOYA has partnered with more than 2,000 independent Eye Care Professionals throughout the United States to provide accurate and timely eyewear fitting and order processing.

Using the search tool on your distributor's SRx Made Easy website, you can help connect employees with conveniently located eye care providers to personally address their safety prescription eyewear needs.

Employee-to-Employee Variability

To make sure they are getting the protection they need, you need to know the Personal Attenuation Rating (PAR) of every employee. The highest-NRR earplug or earmuff won't provide the expected protection if it doesn't fit right or isn't used right. Once you know each employee's number, you'll be on the way to yours: 100% confidence in your hearing conservation program.

Every employee is different. Every job is different. Finding each employee's number will help you validate compliance and have assurance that their hearing protection is sufficient.

E-A-Rfit Dual-Ear Validation System

3M™ E-A-Rfit™ Validation System Dual-element, dual-microphone assembly is the key to the system, measuring sound levels inside and outside the hearing protector. Science-based, quantitative testing gives accurate reports of hearing protection. Fast, clear, accurate results are obtained in just seconds and can be printed or saved electronically for future reference. System determines personal attenuation rating (PAR) of individual workers and helps remove measurement, fitting, and spectral uncertainty. (1/case)

Program Documentation

E-A-Rfit Dual-Ear Validation System testing sessions produce a validation document that can be kept in each employee's file, providing documentation of your commitment to training and compliance with OSHA hearing conservation program guidelines.

- Features easy-to-read test results for both ears as well as testing history
- Creates digital and printable reports for both employee and company records
- Provides a direct measurement of noise reduction in decibels
- Provides an estimate of test variability

Authorized Distributor
Industrial Products

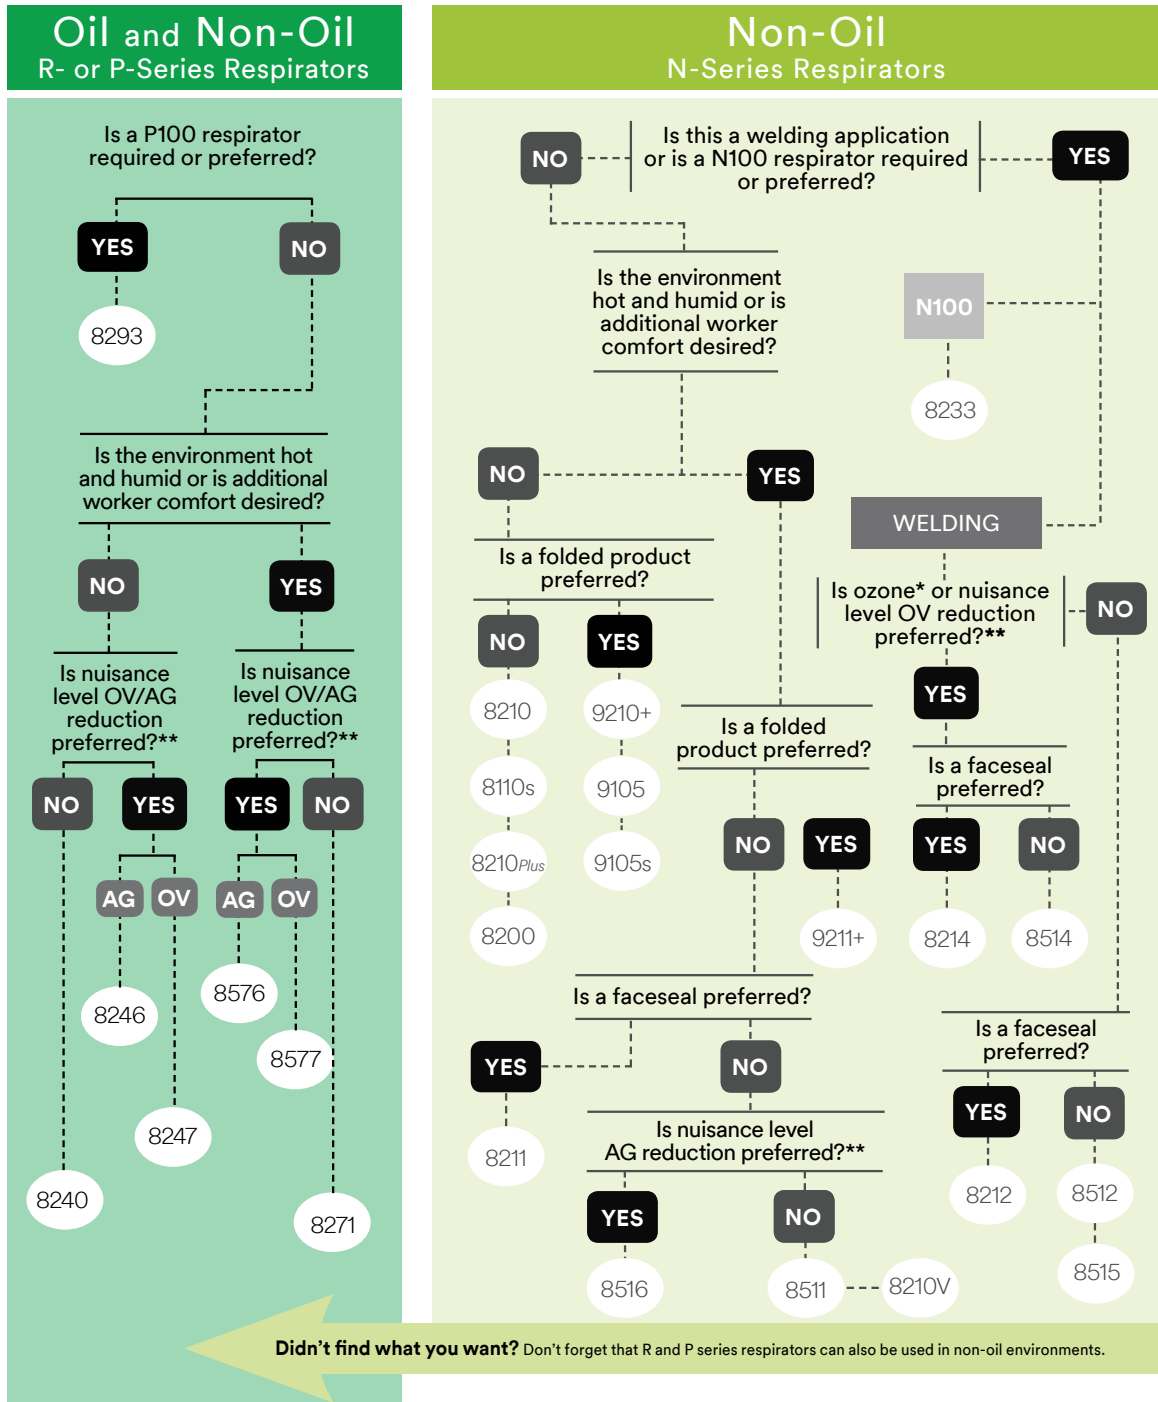

3M™ Disposable Filtering Facepiece Respirators

Product Preference Selector

Use the selector below to identify which respirator may be preferred for increased worker comfort.

What type of particles are in your environment?

*3M recommended for ozone protection up to 10X OSHA PEL. Not NIOSH approved for ozone.

**3M recommended for relief against nuisance level acid gas (AG) or organic vapors (OV).

Nuisance levels are less than OSHA PEL or applicable government occupational exposure limits, whichever is lower.

Disposable Respirators: Dusty Conditions

3M

Particulate Respirator 8210 N95

Designed to help provide comfortable, reliable worker protection against certain non-oil based particles. Its lightweight construction helps promote greater worker acceptance and comfort and increased wear time. (20/box)

3M

Particulate Respirator 8200 N95

This economical disposable N95 particulate respirator is designed to help provide reliable worker respiratory protection against certain nonoil based particles. (20/box)

RESPIRATOR FIT TESTING SERVICES

PROVIDED BY R.S. HUGHES

Checking that a respirator, with a tight fitting facepiece, provides an adequate seal to the wearer's face has long been considered best practice as part of a general Respiratory Protection Program. Respirators with tight fitting facepieces include disposable respirators, half masks and full-face masks, including those that form part of a powered or air-fed respirator.

OSHA 191.134 requires fit testing should be carried out:

- Before the respirator is issued
- On all wearers of respirators with tight fitting facepieces where fit testing as previously not been performed

The 7 Fit Tests

1. Breathe normally

2. Breathe deeply

3. Head side to side

4. Head up and down

5. Bent over at waist

6. Talking

7. Breathe normally

Fit testing should be repeated at appropriate times such as:

- If the wearer significantly loses or gains weight, has major dental work or sustains a major facial injury
- If a different size or model of RPE is specified
- At least annually or when specified by the company policy eg. at time of health surveillance check

Fit testing is in addition to the requirement to perform a fit check prior to each use as a gross determination of suitable fit.

**Contact R.S. Hughes to schedule a
Respirator Fit Test.**

Reusable Cartridge Respirators

3M

Half Facepiece Respirator 7500 Series

Maximized comfort in air purifying respirators means not only easy breathing filters and cartridges, but also a soft comfortable facepiece. Half facepiece respirator users can now experience state-of-the-art features that help provide unsurpassed comfort with 3M™ 7500 Reusable Half Facepiece Respirators. (1/bag)

3M

Half Facepiece Respirator 6000 Series

Lightweight, easy-to-adjust headstraps. Low maintenance, reusable facepiece for economical use. Soft thermoplastic elastomer. Cartridges and filters twist on and off. Low-profile improves balance and visibility.

AlphaTec® with New AquaDri®

New, proprietary AQUADRI® technology delivers the properties of a sponge with an unrivaled moisture absorption capacity: on average 10 times more than traditional cotton flocked linings. Keeps hands drier resulting in significantly improved comfort and performance. Diamond palm grip provides improved dry/wet grip. Foldable cuff gutter prevents dripping on forearm.

Ansell

AlphaTec® Medium Duty – Enhanced Grip and Flexibility

Optimal control when handling oily or wet items. Less force is required on slippery objects, reducing hand and arm fatigue. Improved flexibility and dexterity. Snug, second-skin tailoring that tightens the fit across the palm. Superior snag, puncture and abrasion protection for long-term wear. A foldable gutter cuff helps prevent dripping onto the forearm.

HyFlex® 11-800

For light foam assembly applications, HyFlex® Foam provides your workers with the highest level of comfort and protection. The patented foam coating is resistant to snags and abrasions, and it provides excellent grip in light oil applications by channeling the oil away from the glove surface.

HyFlex® 11-801

Offering the same outstanding light oil grip as HyFlex® Foam 11-800, the new HyFlex® Foam 11-801 provides exceptional comfort using Ansell's patented Knitted Variable Stitch Design. Its foam nitrile coating reduces hand fatigue and promotes maximum dexterity, while its gray colored knit liner stays clean longer, making these gloves more industrial friendly.

HyFlex® 11-818 Multipurpose Ultralight Weight

Ultralight weight, barehand-like comfort with high durability. Seamless 18 gauge nylon spandex liner and ultra thin palm coating for barehand-like feel. FORTIX™ nitrile patent pending foam creates extended glove life and increased breathability. ZONZ® Comfort Fit in selected liner zones improves support, breathability and range of movement. Superior ANSI Level 4 abrasion protection, silicone free.

Hyflex® 11-840

Extreme durability and superior fit. ANSI Level 5 abrasion rating. Sets a new standard for glove life in light duty applications. FORTIX™ nitrile foam coating provides up to three times the abrasion performance of other light weight, knit-dipped gloves. Enhanced dry grip and extended glove life. Form fitting lining matches the natural contours of the hand. Great for assembly of small & medium parts, feeding production lines, raw material reception, screwing parts.

HyFlex® 11-900

Abrasion resistance and oil repellency in this newest line extension. Nitrile coating prevents oil from penetrating through the glove, protecting hands from dermatitis. Excellent dry grip for applications involving small-to-medium-sized parts. Great for dry grip application such as box handling and warehousing applications.

EDGE® 48-128 Palm-Dipped Light Duty Glove

Economical solution for light applications requiring a good level of abrasion resistance & grip, as well as high tactility in dry to slightly oily environments. Now with EN level 4 of abrasion and good tear resistance, good grip, improved productivity. Seamless structure; ensures comfort and encourages safety and glove usage. 13 gauge black polyurethane palm coating.

Cut Resistant Gloves

Cut resistant gloves and sleeves are designed to protect hands from direct contact with sharp objects such as glass and metal. The level of cut resistance provided is a combination of material composition and weight. Performance of a glove can also be affected by coatings applied to the surface which can also offer enhanced grip. Common cut resistant fibers include:

HPPE: High performance polyethylene fibers offer maximum strength with minimum weight. HPPE is 10 times stronger than steel by weight as well as 40% stronger than aramid fibers offering a softer, cooler alternative.

Aramid: The most common brand name is Kevlar®. It is 5 times stronger than steel and provides great tensile strength. Due to its inherently flame resistant nature, it will not melt and offers heat protection up to 320°F based on product design.

Spectra: A polyethylene fiber that is 10 times tougher than steel per unit weight offering high cut resistance even when wet. Its low lint and flexible nature make it ideal for use in food processing.

Taeki5: A blended yarn made of Taeki5®, fiberglass and synthetic fibers that delivers high cut resistance without sacrificing dexterity and tactile sensitivity.

Blended Shells: The introduction of steel and glass to HPPE and aramid help to significantly increase levels of cut protection while helping maintain comfort and fit.

***WARNING: Remember that no product is cut proof.**

There are two different standards to measure cut performance:
The European Standard EN 388 and the ANSI/ISEA 105 Standard for the U.S.

EN 388: EN 388 uses the coup test method based on a circular blade moving back and forth across the sample under a fixed load of 500 grams. In other words, it simulates the number of repetitive cut needed to cut through the fabric using a constant load. The results are then compared to the cut results of a cotton canvas. For example, a cut level of 5 means that it is 5 times more cut resistant than the reference cotton.

Performance Level	Average Cut Index
0	<1.2
1	1.2 - 2.4
2	2.5 - 4.9
3	5.0 - 9.9
4	10.0 - 19.9
5	> 20

PROTECT YOUR ARMS

PIP offers the widest range of Seamless Cut-Resistant gloves and sleeves anywhere in the world. Our products are manufactured using a variety of yarns containing advanced fibers such as DuPont Kevlar® and Dyneema® as well as proprietary engineered yarns. Cut-Resistant products are extensively used in industrial, construction and food processing markets. The use of Cut-Resistant sleeves has increased considerably over the years as we've led with the introductions of new yarns and grips.

Cut Resistant Sleeves: ANSI Level 2

Kut-Guard 14" Kevlar Sleeve 2-Ply

100% cut resistant Kevlar sleeve double ply. Dupont Kevlar fiber. Protective sleeve provides high tensile strength relative to its weight. Kevlar Yarn is Designed to be Cut Resistant. Without thumbhole. Provides excellent protection for the wrists and arms. Heat Protection. ANSI Level 3/EN 388 Level 4 cut resistance. ASTM F1790 cut score 1263.

Cut Resistant Sleeves with Spun Dyneema®

Gloves and sleeves made with Spun Dyneema® offer unparalleled comfort and coolness while providing cut and abrasion resistance. White sleeves are single-ply, 10 gauge and have elastic on both ends for superior fit. PIP® now offers the first gray sleeves made with Dyneema® in the industry, great for hiding dirt. Double-ply with nylon.

BUILT FOR RUGGED WORK

PIP is very diligent about the grades of hides that it specifies and offers for its numerous styles of leather gloves used in multiple general handling applications. Further to this, we pay strict attention to all aspects of the cut and sew confection. There are many providers of leather gloves around the world. PIP has over 60 quality control personnel for on-site inspection. We believe this makes all the difference for peace of mind and a consistent product.

Leather Palm Gloves

80-8800 Heavy Side Split Cowhide Leather Palm Glove

Popular in rugged-duty applications: farming, foundry, forestry, mining and heavy machine operation. Made of heavy side split cowhide, cotton lined palm. Gunn cut pattern delivers excellent durability, wear and comfort. Stitched with Kevlar® adding strength and burn resistance, leather knuckle strap and finger tips for extra protection, elastic closure sewn inside glove.

Original Glove

Despite its imitators, our Original® glove remains in a category all its own. Tried, tested and proven for over 20 years, it provides the perfect blend of flexibility and protection. Durable synthetic leather palm, form-fitting stretch Spandex top, and a flexible TPR wrist closure allow for a secondskin fit. With a gamut of practical uses, it's no surprise that The Original® is the most recognized and most frequently worn glove by anyone with a toolbox.

Fast Fit Glove

Professionals and enthusiasts agree - the Fast Fit® glove is a toolbox must-have. Form-fitting stretch panels between your fingers provide a snug fit and the elastic cuff offers easy on and off flexibility between tasks. Durable synthetic leather is anatomically cut around your palm for better wear when handling tools. Your hands will stay cool, dry and comfortable with moisture-wicking TrekDry® material covering your wrist, thumb and fingers.

New Categorization

The merge of the ANSI/ISEA 107 (roadway) and ANSI/ISEA 207 (public safety) standards created the need for garment type classification based on the work environment and the level of protection needed.

Type O

Off-Road Use (Class 1 only)

Provides added visibility to workers who are not exposed to traffic.

Type R

Roadway Use (Class 2 & Class 3)

Enhanced visibility for workers who are exposed to traffic and working against complex backgrounds.

Type P

Public Safety (Class 2 & Class 3)

Enhanced visibility for emergency and incident responders and law enforcement personnel in both roadway and off-road environments.

Hi-Vis Clothing: Non-ANSI Vests

Materials | The following is a guide that offers a comparison between the materials used in the 3M™

SMS

Spunbound Meltblown Spunbound are robust breathable fabrics, designed to offer a good barrier against hazardous particles and limited liquid splashes.

Protective Coveralls 4515, 4520 & 4530

Microporous PE Laminate

Designed to offer a good barrier against hazardous particles and limited liquid splashes, while the micropores allow for some breathability.

Protective Coveralls 4510 & 4545

Non-microporous PE Laminate

Designed to offer a very good barrier against hazardous particles and certain liquid splashes and sprays.

Protective Coverall 4565

Multi-Layer Non-Microporous PE Laminate

Designed to offer an excellent barrier against hazardous particles and certain liquid splashes, sprays and jets.

Protective Coverall 4570

Disposable Safety Apparel Cont.

ProShield® PB120S Coverall w/ Zipper Front

Spunbond meltblown spunbond (SMS) garments, are made to the high quality standards from DuPont. Optimized for comfort, softness and breathability while enabling you to cut costs for disposable garments. Designed for workers in a range of industries for nonhazardous dry particle and light liquid splash applications.

SELECTING A SEAM

Before choosing a protective garment, a detailed hazard and risk assessment must be performed. Engineering controls are the first step to mitigating any hazard. When exposure to hazards cannot be engineered completely out of normal operations or maintenance work, and when safe work practices and other forms of administrative controls cannot provide sufficient additional protection, a supplementary method of control is the use of protective clothing.

**If your application requires a chemical resistant taped seam, you should ensure that the tape offers appropriate resistance to the chemical involved.*

A SERGED SEAM:

A basic stitched seam that's appropriate for exposure to non-hazardous substances. Overlap stitching provides strength and durability.

A BOUND SEAM:

A serged seam that's reinforced with binding for strength and tear resistance.

A TAPED SEAM:

A serged seam reinforced with a film tape that's resistant to water and many liquid chemicals*

KleenGuard A30

KleenGuard™ A30 Coverall w/ Zipper Front

A30 REFLEX® Patented REFLEX® Design is 7-1/2 times less likely to rip out than ANSI minimums - provides 12% more chest room and 6% longer body length. Ideal for nonstop contact with dirt, grime where light splashes exists. Patented Microforce® barrier SMMMS filters out many water-based liquids and dry particulates. Strong and abrasion resistant. Seamless front.

What is RightCycle by Kimberly-Clark Professional*?

The RightCycle Program is a groundbreaking service that enables you to collect previously hard-to-recycle items, such as Kimberly-Clark Professional* nitrile gloves and single-use apparel items, and have them turned into eco-responsible consumer goods. Through this program, you can:

- 🌱 Reach your organization's sustainability goals
- 🌱 Divert waste from the landfill in support of zero waste to landfill initiatives
- 🌱 Give your used nitrile gloves and apparel a new life by aiding in the creation of eco-responsible consumer goods like flower pots, patio furniture, and plastic shelving
- 🌱 Reduce your waste disposal costs
- 🌱 Protect the planet for future generations

Apparel and gloves are worn in your facility.

Used products are collected and shipped to our recycling centers.

Used products are sorted and processed into plastic pellets or nitrile powder.

Materials are molded into new eco-responsible plastic products and durable goods.

KleenGuard A70

A70 Chemical Spray Protection Apparel

IDEAL FOR USE when workers may come into contact with hazardous chemicals, as in:

- Hazardous waste remediation
- Environmental cleanup
- Petrochemical/oil refining
- Acid/caustic handling
- Biohazard cleanup
- Tank cleaning
- Pharmaceutical manufacturing

Designed to move with you offering protection in environments where contact with hazardous chemicals are present

KleenGuard® A70 Apparel Fabric Liquid Chemical Resistance Test

Chemicals ASTM F1001	Liquid Penetration ASTM F903		Vapor Permeation ASTM F739

KleenGuard A71

A71 Chemical Permeation & Jet Liquid Protection Apparel

Protection against
chemical permeation
and liquid jet spray

KleenGuard* A71 Coveralls

The **KleenGuard* A71** is a single-use protective coverall designed to protect against chemical permeation and liquid jet spray. With sewn and taped seams, the KleenGuard* A71 helps protect workers from a wide range of potentially harmful chemicals.

FEATURES:

- Composed of tear resistant, durable film laminate
- Sewn and taped seams offer a strong liquid-tight barrier
- Elasticized hood, cuffs and waist designed for improved comfort and safety
- Highly visible yellow color for improved worker safety
- Velcro storm flap for improved protection around the zipper
- Storm-flap height and hood designed for easier taping to a respirator

PROTECTS AGAINST:

- Liquid, aerosol and dry chemical splashes, sprays and dusts
- Inorganic acids/bases and a range of organic chemicals
- Aqueous or hazardous chemicals

TYPICAL USES:

- Low pressure industrial cleaning and maintenance
- Hazardous waste remediation
- Environmental and biohazard cleanup
- Tank cleaning

KleenGuard A80

A80 Chemical Permeation & Jet Liquid Protection Apparel

IDEAL FOR USE when workers may come into contact with hazardous chemicals vapors such as:

- Chemical handling, mixing, and cleanup
- Hazardous material handling
- Hazardous waste cleanup
- Industrial Hazmat teams
- Petrochemicals
- Utilities

Designed to move with you offering protection in environments where contact with hazardous chemicals are present

DUPONT

DUPONT

Tychem® 2000 SFR Coverall

Chemical and secondary flame resistance in a lightweight garment. Provides an effective barrier against a range of chemicals, as well as secondary flame resistance. Protect against a multitude of inorganic acids and bases as well as a range of industrial cleaning formulations. In the case of a flash fire, the coveralls won't ignite, and won't contribute additional burn injury if appropriate FR apparel is worn beneath.

DUPONT

Tychem® QC127 Coverall

Tychem® QC is polyethylene coated Tyvek fabric. Provide light liquid splash protection. Tychem® QC is yellow for high visibility.

Floor Matting

ErgoDeck™ Kit Assembly Instructions

A simple, compact solution

- Each kit contains all the components for a complete mat.
- No cutting or tools required!
- Assembled in 5 minutes or less.
- Compact size reduces shipping costs and makes on-site delivery easy.
- Simply snap together and zip apart for a larger size using additional tiles.

Each ErgoDeck™ Tile has 16 secure connections:

- Four (4) female connectors on two adjacent sides
- Four (4) hidden male connectors on two adjacent sides

DIAMOND-PLATE MATTING

	BEST—SPONGECOTE®	BETTER—SELECT	GOOD—SMART®
Products	UltraSoft Diamond-Plate No. 414, Diamond-Plate SpongeCote® No. 415	Diamond-Plate Select No. 495	SMART® Diamond-Plate No. 497
Sponge base	Nitrile®—a premium Nitrile rubber composite sponge formulated for crush-resistance and extended performance.	Dense, closed cell PVC sponge designed with similar performance characteristics to others on the market.	A recycled urethane composite sponge, less durable overall, but truly designed for budget or environmentally conscious operations.
Resilience	Best in its class. It continues to bounce back and provides long-term employee satisfaction.	Good resilience, good recovery.	Good rebound, proven for use in many commercial applications as a flooring system underlayment.
Standing Area	Extends to within 1" of the edge of the mat providing more standing room.	The sponge extends to within 2" - 3" of each edge.	The sponge extends to within 2" - 3" of each edge.
Bevel	Sponge offers built-in trip prevention bevel on standard sizes.	Sponge features rounded corners on stock sizes.	Sponge edges are not beveled.
Warranty	4 years	3 years	1 year
Thicknesses	Available in two thicknesses.  <p>UltraSoft: 15/16"</p> <p>Standard: 9/16"</p> <p>Pre-beveled sponge gives mat its lay flat characteristics.</p>	Available in two thicknesses.  <p>UltraSoft: 15/16"</p> <p>Standard: 9/16"</p> <p>Surface lays over rounded sponge to create the bevel.</p>	Available in two thicknesses.  <p>UltraSoft: 1"</p> <p>Standard: 5/8"</p> <p>Surface lays over square sponge to create the bevel.</p>

24/SEVEN®

- These rubber 3' x 3' inter-connecting anti-fatigue mats keep workers productive and comfortable.
- Drainage mats feature large holes to allow fluids and debris to flow through freely.
- Solid mats feature an easy to clean textured surface for use in mostly dry areas.
- The hidden interlocking system connects on all four sides to quickly cover large areas.
- Ability to replace single tiles saves money and down time.
- Available in 3 different rubber compounds:
 1. Grease-Resistant (GR) for areas with water or dry debris.
 2. Cutting Fluid Resistant (CFR) for areas with mineral oil-based cutting fluids.
 3. 100% Nitrile (NBR) for areas with petroleum-based fluids.

DIAMOND-PLATE

WEARWELL®

Industrial Matting's Hall of Famer

Wearwell made matting history in 1989 with the introduction of the Diamond-Plate surface, the most popular industrial matting design in the world. Diamond-Plate did more than prevent slips and falls – it introduced our revolutionary Nitricell® sponge material for improved comfort and safety beyond anything else in the game.

Perfect solution for High Temperature and High Traffic areas where antifatigue isn't the primary objective. As a high temperature solution, the specially formulated rubber has an extraordinarily high melt point for demanding welding applications. As a high traffic solution the textured rubber surface assures solid footing and can be used for semipermanent installations with common mastics.

WEARWELL™

370- Elevate AFR- Drainage Mat

Designed specifically to perform in the highly regulated food processing and preparation industries. It is made from a flexible animal fat resistant DINP plasticized PVC with Steritouch additives so it is resistant to animal fats and oils. The widely spaced grid design allows fluids and by-products to fall through while elevating employees above. Easy to install, clean, roll up and move.

WEARWELL™

371- Elevate OR- Drainage Mat

Elevate OR was designed specifically to provide traction and drainage in a wide range of manufacturing operations. The widely spaced grid design allows fluids and debris to pass freely while elevating employees above it. Elevate is up to 1/3 the weight of conventional rubber drainage mats so it is easy to install, clean, roll up and move.

WEARWELL™

566- ErgoDeck® General Purpose Solid Kit

Provides a stable, solid, and resilient foundation underfoot. It features a raised textured design that provides sure footing while enhancing workplace aesthetics. Made with a softer compound for greater anti-fatigue benefit. Ideal for heavy foot and light cart traffic. The raised surface design delivers substantial traction and 6" wide borders on 3 sides prevents trips.

The Power of Innovation and Partnership

The Wearwell Site-Survey Process — Providing Optimal Ergonomic Flooring Solutions

You can improve safety, performance and morale with the right surface solution!

What can you gain from a Site-Survey?

No matter if you are a safety or facility manager looking to improve safety and performance, or an operations manager interested in reducing costs and meeting regulations, a Site-Survey can offer opportunities to help meet your goals.

- ◇ Improve Safety Performance
- ◇ Prevent Lost Time
- ◇ Manage Risk and Compliance
- ◇ Reduce Down-Time
- ◇ Heighten Morale & Productivity

Benefits:

The Wearwell Site-Survey is Free of charge

This service is valued at \$2000, but we provide it at no charge with confidence we will earn your business.

Your team, your plan

You can prioritize based on your time-line and budget.

Work with your Current Distributors

With our large network of top notch distributors, purchasing Wearwell flooring and matting is simple and convenient.

Backed by 65 Years of Expertise

You could purchase competitor products, but we are confident you won't find any that can compare to the quality and value of a Wearwell product.

Safety

69%

of occupational injuries are from slips, trips, falls and strains

Costs

\$42,152

Average cost of a single floor related injury

Performance

3.7

The average number of missed work days due to occupational injuries

Where To Start

With shrinking budgets and limited resources, it is getting more difficult than ever to effectively track all of the requirements of your facility.

Let us assist you and your purchasing distributor with a flooring and matting plan to meet your budget and needs. It all starts with a state of the art Wearwell Site-Survey as the first step.

What We Do

Assess the situation based upon your issues, concerns and budget.

How We Do It

A Wearwell expert will perform a complete assessment of your site and record the results using our state of the art mobile application.

What We Do

We provide a detailed report with recommendations for ergonomic flooring and matting to address the needs of your facility.

Diamond-Plate SpongeCote®

Floor Matting Cont.

410- Airug® 3/8"

Airug® showcases an improved embossed top surface that enhances the mat's slip resistance while providing increased worker fatigue relief. The PVC closed cell foam construction relieves leg and back discomfort while providing a barrier to cold floors. Airug® is intended for applications where basic anti-fatigue relief is required at a low cost.

FULL BODY HARNESSSES

CHOOSING YOUR HARNESS

Look for quality in these features when selecting your harness.

1 DORSAL CONNECTION

The fall arrest point must be located on the back, positioned between the shoulder blades. Your harness must always include a dorsal attachment point.

2 WEBBING

Webbing is an important factor in the durability and safety of the harness. Ensure that the webbing is strong enough to endure rough use, exposure to sunlight and other elements without tearing or fraying. Specialty applications such as welding and electrical maintenance require the use of Nomex®/Kevlar® fibers or nylon that offers fire resistance or arc flash protection.

3 ADJUSTING POINTS

Whether you wear a harness 4 hours a day or 14, it needs to fit right for safety and comfort. Harnesses with adjusting points on the legs, waist (belt models), chest and torso allow a better fit.

4 LEG STRAPS

Depending on worker preference, leg strap fasteners may be available in different styles, including:

Tongue Buckle

Pass-Thru Buckle

Quick Connect Buckle

5 PELVIC SUPPORT

A sub-pelvic strap provides additional support, security and comfort for the user. Properly positioned, it better distributes forces during a fall.

EXOFIT™

The Industry's First Comfort Harnesses

ExoFit™ is the design that changed what workers expect from a harness.

It's our original comfort fit harness, with a single piece of material that wraps around you in the shape of an X. It does without tangling and provides comfortable security. ExoFit™ remembers your adjustments. Snap three buckles and you're ready to work. Shoulder, hip and leg padding is built-in so it can't slip. A breathable lining guarantees you'll stay dry and comfortable.

ULTRA-SOFT EDGING
Moves with you.
Doesn't rub or chafe.

TORSO BUCKLES
Hold straps firmly in place, adjust easily and complete the 5-point adjustment system.

CUSHIONED LEG AND HIP STRAPS
Comfortable and offer additional security during a fall.

QUICK CONNECT BUCKLES
Provide one-handed operation for fast, easy donning.

CUSHIONED SHOULDER PADS
Help minimize pressure on shoulders. Designed so they won't slip or slide off your shoulder.

BREATHABLE LINING
Immediately draws moisture away, keeping you dry and comfortable.

**420 LB.
CAPACITY**

EASY-GRIP END TABS
Something secure to hang on to when adjusting the straps.

ANTI-TEAR BALLISTIC NYLON
Abrasion-resistant for rugged strength and durability. Twice the endurance of standard nylon or polyester.

REFLECTIVE PIPING
Enhances visibility in low-light conditions.

BACK D-RING
Keeps you upright every time. 5,000 lb. minimum tensile strength.

EXOFIT NEX™

The Ultimate Full Body Comfort Harnesses

ExoFit NEX™ harnesses are the newest, most advanced harnesses in the industry. They're the culmination of our experience with ExoFit™ and ExoFit™ XP, ongoing research and the incorporation of new materials and innovative features. When you purchase an ExoFit NEX™ harness, you can be certain that you're purchasing the finest harness available today, from DBI-SALA® or anyone else.

COMFORT • True to our NEX mission, we manufacture these harnesses using materials that won't add unnecessary weight.

FUNCTION • When speed and efficiency are project requirements, ExoFit NEX™ will provide the freedom and confidence to function at your maximum potential.

DURABILITY • ExoFit NEX™ harnesses are designed using materials that last.

REVOLVER™ VERTICAL TORSO ADJUSTERS

Simple and fast adjustments that eliminate loose ends and lock into place, preventing slippage.

HYBRID COMFORT PADDING

Lightweight, moisture wicking and breathable padding won't move or slip, always keeping the wearer comfortable.

TECH-LITE™ ALUMINUM D-RINGS

Extremely lightweight alloy commonly used in military and aerospace offers a higher level of security and comfort.

INTEGRATED TRAUMA STRAPS

Provide an adjustable, continuous loop for post fall, minimizing suspension trauma.

DUO-LOK™ QUICK CONNECT BUCKLES

Lightweight one-handed use with memory-fit web-lock ensures fast, non-slipping connections.

ULTRA-SOFT EDGING

Moves with you.
Doesn't rub or chafe.

**420 LB.
CAPACITY**

Model Shown 1113130

PROTECTIVE SHOULDER CAPS

Provide protection and comfort when carrying heavy materials.

MOLDED LANYARD KEEPERS

Easy holstered snap hooks break away to avoid trip hazard.

REFLECTIVE MATERIAL

For greater visibility in dark and dangerous environments, reflective material is integrated on legs, chest, shoulders and back.

BUILT-IN CARRYING POCKET

Conveniently holds and protects a cell phone, camera or other items.

REPEL TECHNOLOGY WEBBING

Water repellent to reduce attraction of mold and dirt—also has up to 5 times more abrasion resistance.

REVOLVER™ VERTICAL TORSO ADJUSTERS

STAND-UP DORSAL D-RING

Patented spring-loaded design automatically stands-up, ensuring fast, easy and safe connections to your fall arrest system.

SUPERIOR X-DESIGN

A single piece of material in the shape of an X wraps around the wearer for the ultimate in comfort, security and no-tangle donning.

3M™ DBI-SALA® ExoFit™ STRATA™ Full-Body Harness

The safety harness that won't weigh you down.

"Lighten up." It's what at-height workers have been trying to do for decades. That's why we created the 3M™ DBI-SALA® ExoFit™ STRATA™ Full-Body Harness. It features a first-of-its-kind load distribution system that literally takes the weight off workers' shoulders, resulting in a harness that is more comfortable, cooler and lighter to wear.

- 1** Tech-Lite™ Aluminum Side & Dorsal D-Rings
Secure your safety

Maximize reliability without adding extra weight.

- 2** EZ-Link™ Quick SRL Adapter
Gets you connected quickly

Simplifies connecting and disconnecting your personal self-retracting line.

- 3** LIFTech™ Load Distribution System
Frees your shoulders

Redistributes the weight of the harness to your center of gravity to dramatically reduce fatigue.

- 4** PolarMesh™ Padding
Keeps your back cool

Allows greater airflow to your back, providing superior breathability to keep you cool.

- 5** Revolver™ Vertical Torso Adjuster
Unleashes your mobility

Easily stores excess webbing, locking it in place and out of your way while maintaining the perfect fit.

- 6** Tri-Lock Revolver Connectors
Lock down loose ends

Store additional excess webbing and provide an extra layer of security around your legs.

**420 lb.
Capacity**

Innovative, full body support for more than two decades.

New, improved Delta™ harnesses combine “industry-first” advancements with popular features that have made Delta™ the workhorse of the industry. Today’s Delta™ represents more than twenty years of design, research, manufacturing know-how and on-the-job performance.

Durable • Convenient • Comfortable

Delta™ harnesses are as tough as those who wear them. They have a shape of their own so you can don them quickly and easily. And Delta™ supports your back and hips while bearing heavy loads.

NO TANGLE DESIGN

Defining the Delta™ name, the patented triangular design creates a frame that allows the harness to fall into place when donned.

DELTA™ COMFORT HIP PAD

Improved ergonomic fit constructed with a soft, breathable, comfortable interior that supports your back and hips.

TECH-LITE™ QUICK CONNECT BUCKLES

Lightweight aluminum alloy buckles for fast and easy connections.

**420 LB.
CAPACITY**

Model Shown 1110575

• REPEL™ WEBBING

Water repellent to reduce attraction of mold and dirt—also has more abrasion resistance.

• LANYARD KEEPERS

Delta™ lanyard keepers hold your unused snap hooks and help reduce trip hazards.

• REVOLVER™ VERTICAL TORSO ADJUSTER

Simple and fast adjustment that eliminates loose ends and locks into place, preventing slippage.

STAND-UP DORSAL D-RING

Patented spring-loaded design automatically stands-up, ensuring fast, easy and safe connections to your fall arrest system.

• IMPACT INDICATOR

Provides visual alert that the harness has been involved in a fall and for safety inspections.

3M™ Inspection & Asset Management System

**Enhance compliance.
Save time.
Be proactive.**

With the 3M™ Inspection & Asset Management System, you're not just streamlining your safety and asset management process — you're giving yourself access to real-time data that can help you enhance worker protection. The advantages of having data at hand versus on file include:

- ▶ **Added compliance confidence**
Know at a glance the status of your workforce and equipment.
- ▶ **Data on demand**
Get a direct line of sight on selected compliance metrics in real time.
- ▶ **Pick your priorities**
Configure your workflow to meet different needs in different parts of your operation.
- ▶ **Account for your assets**
Gain improved traceability of high-value assets.
- ▶ **Sure and secure**
Put your trust in a high-security software platform with powerful encryption and multi-factor user authentication.
- ▶ **People, not paperwork**
Gain efficiency with everything entered and stored online, allowing you more time on the floor.

It's time for connected safety that's more personal.

3M™ Inspection & Asset Management System is the new way to stay compliant, audit-ready and data savvy.

1. Select

Choose the PPE and/or equipment to include in the Inspection & Asset Management System. The system will automatically load up-to-date documentation for most 3M PPE, but you can easily add details for non-3M PPE and equipment.

2. Tag

Attach the RFID tags to the PPE and/or equipment you want to enable. Barcodes or serial numbers can also be used.

3. Setup

Enter the maintenance and inspection checklists you currently do on paper.

4. Enter

Load the employees, PPE and/or equipment you want to include into the database.

5. Go

That's it. You're now ready to manage your PPE and equipment program digitally.

Lanyards

CHOOSING A LANYARD

Look for quality in these features when selecting a lanyard.

1 WEBBING

Webbing must be strong enough to endure rough use and exposure to sunlight and other elements, without tearing or fraying. Nomex®/Kevlar® with fiber webbing should be used for applications such as welding or arc flash hazards. Webbing may also be coated with polyurethane for protection against grease, oil and grime. Cable lanyards offer extra durability and are ideal if you're working in abrasive or high-heat environments.

2 IMPACT INDICATORS

Impact indicators let you see if a shock absorber has been involved in a fall. Once an energy absorber has been deployed, the lanyard must be removed from service immediately and destroyed.

3 CONNECTOR/HOOK

DBI-SALA® patented snap hooks are popular because they allow one-handed use and won't pinch your thumbs or fingers. Lanyards can also be fitted with larger hooks or carabiners, for connection to larger anchorages.

4 LENGTH

The standard lanyard length is 6 ft. (1.8 m), but both shorter and longer length lanyards are available. A lanyard should be long enough to be user-friendly, but kept as short as possible to minimize the free fall distance.

Equipped with

isafe™
Powered by Pervidi™

TYPES OF LANYARDS

PACK STYLE SHOCK ABSORBING LANYARDS

These basic lanyards include a pack style shock absorber and offer a variety of leg types (web, cable, or with Kevlar® fiber). They dissipate energy, limiting the forces on your body during a fall.

TUBULAR STYLE SHOCK ABSORBING LANYARDS

These lanyards feature an internal shock absorber that dissipates the energy of a fall. This style is available in both a traditional fixed length design and a "stretch" style that expands and contracts.

DOUBLE-LEG 100% TIE-OFF LANYARDS

Two lanyards that are connected at one end. This style of lanyard is used to provide 100% tie-off, allowing you to stay protected when moving from one location to another.

POSITIONING LANYARDS

Lanyards without shock absorbers, such as rope or web lanyards and chain rebar assemblies, are designed for positioning or restraint applications.

Fall Protection Product Considerations

Inspection and Product Life

Fall protection products should be inspected prior to each use, and that a "competent Person" should perform a formal inspection at least every 6 months.

Due to OSHA inspection requirements, 3M does not apply a mandatory shelf-life or expiration date on their fall protection products. It is a general recommendation that life expectancy for web goods (harnesses and lanyards) of 5 years from the date of manufacture be considered. This coincides with the recommended shelf life noted in ANSI A10.32-2004 (section 1 paragraph 1.4.4) standards.

OSHA 1910.66 and 1926.502 require no formal inspection period, only inspection by the user before each use. OSHA 1926.502(d)(21) specifically states: "Personal fall arrest systems shall be inspected prior to each use for wear, damage, and other deterioration, and defective components shall be removed from service."

ANSI Z359.1-2007 requires inspection by a "Competent Person", other than the user, at least once every year. While ANSI A10.32-2004 and ANSI A10.14-1991 require formal inspection by a "Competent Person" every 6 months.

NEW DBI-SALA® Trigger X Adjustable Rope Positioning Lanyard - Single or Double Mode

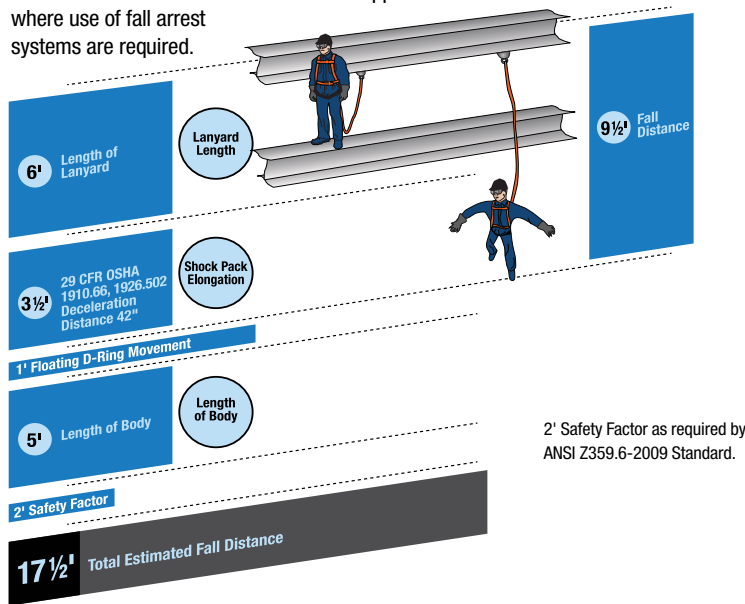

Get the versatility you need with the 3M™ DBI-SALA® Trigger X Adjustable Rope Positioning Lanyard. This ANSI rated positioning lanyard has three work modes and is available in multiple configurations. Single mode, double mode, and rescue options, along with certain models being capable of tie-back reduce the need for additional devices. Smooth and precise adjustments on the abrasion resistant rope put you in a position to succeed.

How to Calculate Fall Distance

Fall distance must be calculated for each application where use of fall arrest systems are required.

Remember

LESS than 17 1/2 ft. of clearance, the use of a self-retracting lanyard is recommended (Figure A)

OVER 17 1/2 ft. of clearance, an energy absorbing lanyard or a self-retracting lanyard can be used (Figure B)

Maintain safe fall distances for improved worker safety

Compact: Nano-Lok is ergonomically designed for ease-of-use and is ideal for direct connection to most harnesses. And at only 725 g, it's virtually unnoticeable on your back, stays out of the way and can be easily used as a lanyard replacement.

Versatile: Whether your application requires single or twin leg configurations, mounting to an overhead anchor or for connection directly to a harness, there are more than 10 models to choose from to suit almost any application.

Safe: Nano-Lok locks quickly - stopping a fall within inches - providing more protection at low heights. In addition, tension is always kept on the lifeline, which reduces dragging, snagging and trip falls. Both features are key safety improvements.

Single Leg Connector

Twin Leg Connector

3M™ DBI-SALA® Nano-Lok™ Web Self-Retracting Lifelines

FEATURES

Compatible with a Shoulder or Foot Connection

Improve safety by allowing a shoulder and foot level connection for 141 kg capacity.

Extremely Compact and Lightweight

At just 725 g this SRL is extremely lightweight and along with its compact size, it is virtually unnoticeable on your back.

141 kg Weight Capacity

Higher capacity for operator & tools.

Wide Variety of Configurations

Provides complete jobsite versatility and flexibility.

Single Leg Anchorage Connector

- Attaches directly to back of most harnesses - no separate carabiner required.
- Installs to web, leaving dorsal D-ring open for other equipment or rescue.
- Design provides snug fit to worker's back eliminates nuisance "flopping".

Swivelling Anchorage Loop

Limits lifeline twisting for smoother operation.

Impact-Resistant Housing

High-strength housing provides maximum durability.

Automatic Quick-Activating Arrestor

- Stops falling worker within inches - reduces fall distances and average arresting forces to 6 kN or less.
- Advanced webbing (thickness 1.5 mm, width 20 mm).

Impact Indicator

- Integrated shock absorber provides visual indication of a fall.
- Very short shock absorber deployment length: 50 cm requires small clearance.

Retractable Lifeline

Stays locked on rigid and non-rigid (horizontal lifeline) anchors.

1630 kg Gate

Reduces chances of accidental disengagement (roll-out) for added safety.

Meets or Exceeds
Industry Standards

Fall Protection

Rescue & Descent

3M

DBI-SALA® Self-Rescue Training Device

30 ft (9.1m) self-rescue system in a self-contained nylon pack with molded padding. Self-rescue training device allows up to 20 descents. Universal harness attachment with EZ-Link™ D-ring for fast connections and 30ft of 5.5 mm rope. Assisted-rescue ring for incapacitated user. Molded padding provides durability and comfort in a lightweight, low profile design.

3M

DBI-SALA® Self-Rescue System

A flexible device that attaches to your current safety harness and allows you to lower yourself to safety in the event of a fall from height. This simple, fast and effective rescue plan minimizes risk for you, your coworkers and emergency response personnel. With DBI-SALA® Self-Rescue, you can work at height without worrying about being left suspended after an arrested fall event. Instead of wondering how long it will take to alert others or rescuers of your fall, you can simply avoid all that and free yourself.

FALL PROTECTION FOR TOOLS

Everything
you need to

stop the drop.

Fall Protection
for Tools

Tool Tethers

DBI-SALA® Fall Protection for Tools Quick Wrap Tape, 1" Wide

Made from a self-fusing silicone rubber, Quick Wrap Tape is capable of creating instant connection points for nearly any tool in a matter of seconds when used with a D-Ring or Tool Cinch Attachment Point. Quick Wrap Tape conforms to the shape of whatever it is applied to, making it ideal for even the most irregular shaped tools. Quick Wrap Tape has a temperature range of -65°F to 500°F (-54°C to 260°C).

DBI-SALA® Fall Protection for Tools D-Ring Attachment

Used with Quick Wrap Tape to create instant attachment points on tools. The D-Ring Attachment 0.5" x 2.25" can be used to create an attachment point on virtually any tool under 2 lb. (0.9 kg). (10/Pack)

3M

DBI-SALA® Fall Protection for Tools Trigger2Trigger Coil Tether

Tool lanyard, coil tether, 5 lb. capacity. Lightweight vinyl is easy to clean/decontaminate. User-friendly thumb triggers.

3100- Single Carabiner Lanyard

Tethers tools to worker to help prevent injury and lost productivity from dropped tools. Stretchable cord surrounded by tubular nylon webbing with silver mylar reflective thread. Lock stitching at both ends for extra security. Cord stretches for full range of motion (Standard: 35" to 42") (Extended: 42" to 54"). Aluminum carabiner. Adjustable barrel lock for tool attachment. Maximum safe working capacity: 10 lbs.

720476-19003	9.00	EA	35 to 42 in	Carabiner	10 lb	Aluminum

3001- Retractable Single Carabiner With Loop End

Retractable tool lanyard with stainless steel carabiner attachment and choking loop end. Locks into place at desired length preventing tangles and work under tension while securing tools.

Order #	Price	Per	Length	Anchor Hook	Weight Cap	Material
720476-19301	31.15	EA	48 in	Carabiner	2 lb	

Tool Holsters

DBI-SALA® Fall Protection for Tools Single Holster, Harness

Put your hand tools in a compact, user-friendly design that is loaded with innovative product features like Beacon™ Hi-Vis Reflectors and a water drainage vent.

Order #	Price	Per	Weight Cap	Material
852684-93141	57.00	EA	5 lb	Neoprene

DBI-SALA® Fall Protection for Tools Tape Retractor Holster

Tape measure holster with rear-feed retractor and Beacon™ High Visibility Reflectors. Fits most tape measure tools.

Order #	Price	Per	Weight Cap	Material
852684-93194	42.86	EA	1.5 lb	Canvas

DBI-SALA® Fall Protection for Tools Battery Holster/Sleeve

Allows cordless drills to be safely tethered when used at height. A neoprene sleeve with an adjustable strap conforms to the shape and size of virtually any drill battery, which can then be secured using the included cinch. 10 lb. capacity.

Order #	Price	Per	Weight Cap	Material
852684-93171	27.43	EA	10 lb	Neoprene

DBI-SALA® Fall Protection for Tools Dual Holster, 2 Retractors, Harness

Premium heavy duty ballistic denier fabric and high-density webbing. Engineered for punishing environments. Heavy-duty 1" D-Rings are built into both sides of the holster and are load-rated for 5lbs. Neoprene pockets on the front and back of the holster each accommodate Steel Cable Retractors (2 retractors included).

Order #	Price	Per	Weight Cap	Material
852684-93162	78.00	EA	5 lb	Neoprene

DBI-SALA® Fall Protection for Tools Scaffold Wrench Holder with Retractor, Belt

Belt scaffold wrench holder with rear-feed retractor. Hook and Loop closure strap keeps tools secure. Rear-feed retractor system with 1.5 lb. capacity is perfect for tape measures and other small hand tools.

Order #	Price	Per	Weight Cap	Material
852684-93190	42.86	EA	1.5 lb	Canvas

Tool Pouches

DBI-SALA® Fall Protection for Tools Small Parts Canvas Pouch

Small parts pouch, innovative self-closure system, canvas, black. 18oz duck canvas.

Order #	Price	Per	Weight Cap	Material
852684-93224	52.29	EA	5 lb	Duck Canvas

Tool Spill Control Buckets

DBI-SALA® Fall Protection for Tools Safe Bucket Hook and Loop

Vinyl bucket with hook and loop closure system, 250 lb. capacity.

Order #	Price	Per	Weight Cap	Material
840779-11232	96.00	EA	250 lb	Vinyl

GFG Instrumentation

Micro IV Single-gas Detector

GfG Instrumentation

Gases

CH₃SH, Cl₂, ClO₂, CO, COCl₂, ETO, H₂, HCl, HCN, HF, H₂S, NH₃, NO, NO₂, O₂, O₃, PH₃, SiH₄, SO₂, THT

The Micro IV is compact, robust and very easy to use. It is designed to be used in the harshest environments. The Micro IV includes a set of rubber boots to withstand hard knocks and drops.

The Micro IV keeps gas detection simple. Most day-to-day functions are controlled with a single button, and calibration is fully automatic. The Micro IV delivers up to 3,000 hours of continuous operation from a single off the shelf AA alkaline battery.

The Micro IV carries a lifetime warranty on non-consumable components and two or more years of warranty on most sensors. Select sensors such as O₂, H₂S and CO carry a full three year warranty.

Standard Accessories:

- Micro IV detector
- Specified sensor
- Alkaline battery
- Rubber boot
- Manual

Value Kit Configuration:

- All standard accessories
- Calibration adapter
- Calibration gas
- Fixed flow regulator
- ABS carrying case

Features:

- Highly configurable smart sensor design
- Full 3-year warranty on O₂, CO and H₂S sensors
- Event / Datalogging standard
- Programmable ceiling (3), STEL & TWA alarms
- AutoCal® automatic calibration

GfG Instrumentation

Micro IV Single-gas Detector

Highly configurable smart sensor design with a wide range of sensors. Optional sample draw pump. Large display with real-time readout. Event / Datalogging standard Programmable ceiling (3), STEL & TWA alarms. Vibrating Alarm standard AutoCal® automatic calibration. Full 3-year warranty on O₂, CO and H₂S sensors.

GfG Instrumentation

GfG DI220 Micro IV Docking Station

The DI220 docking station for the Micro IV is an automatic system for calibrating and bump testing a Micro IV single gas detector through a data interface.

GfG Gas Detectors Cont.

G450

Multi-gas Detector

The G450 Gas Detector offers exceptional performance for an extremely affordable price. The G450 four sensor multi-gas detector is compact, durable and very easy to use. The H₂S sensor offers 0.1 ppm resolution to comply with the latest TLV requirements. The G450 sensors are warranted for three full years, ensuring that the G450 has the lowest cost-of-ownership of any confined space gas detector on the market today. Replacement sensors carry the same three year warranty as the original sensors.

The G450 offers completely automatic calibration, one-button operation, top mounted display and interchangeable battery packs for up to 25 hours of continuous operation.

The optional motorized pump operates in diffusion and sample-draw modes, and can be easily attached or removed from the instrument when sampling needs change.

Standard Accessories:

- G450 detector
- Specified sensors
- Charger (if specified)
- Pump with 10 ft of tubing and probe (if specified)
- Calibration adapter
- Manual
- CD

Value Kit Configuration:

- All standard accessories
- Calibration gas
- Fixed flow regulator
- ABS carrying case
- Hand aspirated pump or motorized smart pump (if specified)

Features:

- MSHA Approved G450 and Smart Pump are available in all 3 configurations (alkaline, rechargeable and flashlight rechargeable)
- Compact and robust 1 to 4 sensor design
- Interchangeable battery packs for up to 25 hours of continuous operation
- Three color back light for easy identification of alarm conditions
- Standard event and datalogging
- Bright, flashing LED alarm lights visible from 360°
- Optional built-in "flash light" LEDs
- Full 3-year warranty on all sensors*
- Highly water resistant (IP 67)

G460 Multi-gas Detector

The G460 is a rugged, compact instrument for simultaneous detection of up to six gases. The concussion proof housing, along with the highly dust and water resistant housing protects the instrument in the harshest environments. The G460 features completely automatic calibration, one-button operation, top mounted display and interchangeable battery packs for up to 24 hours of continuous operation. The rechargeable NiMH battery pack can even be equipped with optional "flash light" LEDs.

The G460 has a highly configurable smart sensor design and data logging / event logging are standard. There are a wide range of additional sensors available.

Options include a detachable, self-powered pump for sampling confined spaces prior to entry. It allows operation of the instrument in diffusion or sample-draw mode.

A full 3-year warranty is provided on most commonly used sensors (O₂, combustible, CO, H₂S and CO₂), which reduces the cost of ownership over the lifetime of the instrument. There is an optional 6-year warranty available at the time of purchase.

Features:

- Exceptional HAZMAT and Confined Space performance
- Up to 6 channels of detection, including...
- PID sensor for direct reading of toxic VOCs
- Infrared (NDIR) sensors for CO₂ and combustible gas (0% LEL - 100% volume)

Standard Accessories:

- G460 detector
- Specified sensors
- Charger (if specified)
- Pump with 10 ft of tubing and probe (if specified)
- Calibration adapter
- Manual

Value Kit Configuration:

- All standard accessories

RAE Systems Gas Detectors

AreaRAE Pro Gas Detector

The RAE Systems by Honeywell AreaRAE Pro is a wireless, transportable area monitor that can simultaneously detect toxic and combustible gases, volatile organic compounds, radiation and meteorological factors that affect speed, direction and behavior of gas - for enhanced situational awareness. It works with Honeywell's remote monitoring software, so you can see the real time threat readings, alarm status, location of each AreaRAE Pro and much more - and make faster, more informed safety decisions.

AreaRAE Plus Gas Detector

The AreaRAE Plus Systems by Honeywell is a transportable area monitor that can simultaneously detect toxic and combustible gases, volatile organic compounds, and meteorological factors that affect the speed and direction of the gas. Protect your community by monitoring a fence line, protect your employees during a maintenance turnaround, or protect your fire and hazmat teams during emergency response, the AreaRAE Plus alerts you to threats with local audible and visual alarms. Plus it works with Honeywell's remote monitoring software to give you a real time view of threat readings from a safe location.

AreaRAE Pro RDK Detector Kit

The Rapid Deployment Kit (RDK) Detector Package includes 4 versatile GPS-enabled AreaRAE Pro monitors, each with up to 7 sensors and RAEMets. With The RDK, you have everything you need to create a perimeter and set up a command station up to two miles from the site. It all fits into a militarygrade protective case, which charges all the batteries during storage. The wireless network can scale up to 64 monitors, and the host controller can push the data in real time to any location via an Internet connection, for situational awareness in minutes.

MultiRAE Lite/Pro Pumped Portable Multi-gas Monitors

This multi-gas monitor provides versatile, customizable detection and monitoring of up to six gases, available in both pumped and diffused air models. With more than 25 sensors to choose from - the broadest selection in its class - it can test for VOCs, combustibles, and a range of toxic threats, as well as monitor sufficient oxygen levels, making it an excellent choice for personal protection and leak detection in a range of industries and applications. The wireless connection sends threat and alarm data in real time to a central command, providing superior awareness for fast incident response. And its replaceable sensors, alarm, and battery, large screen, and automated bump testing and calibration make it easy to use and maintain.

RAE Systems Gas Monitors

MicroRAE Wireless Multi-gas Monitors

The MicroRAE is a handheld wireless diffusion instrument that simultaneously monitors up to four gases, including Hydrogen Sulfide (H₂S), Carbon Monoxide (CO), Oxygen (O₂) and Combustibles (LEL). With its wireless connectivity options, the MicroRAE can deliver real-time instrument readings and alarm status to the Honeywell ConneXt Safety Ecosystem. This enables continuous, instant visibility of safety threats for faster, more informed decisions, to protect workers, facilities, and the environment, and to optimize operations.

RAE Systems ConneXt Pack Wireless Confined Space Entry Kit

Preconfigured wireless gas monitors report hazardous gas information and man down alarms to a remote host controller. Delivers lifesaving value to plant, industrial and first response operations. Data retrieved from wireless gas monitors can alert attendants and incident commanders instantly of toxic gas situations, allowing them to respond more quickly in emergency situations. Pelican case with precut foam insert (can contain up to 4 gas monitors, 1 EchoView Host and accessories). Gas monitor calibration adapters. QRAE 3 and EchoView Host Quick Start Guide.

Order #	Price	Per	Sensor Configuration	Wireless	Kit	Description

MiniRAE 3000 Handheld VOC Monitors

The rugged MiniRAE 3000 is the most advanced pumped handheld volatile organic compound (VOC) monitor on the market. Its Photoionization Detector's (PID) extended range of 0 to 15,000 ppm makes it an ideal instrument for applications from industrial to HazMat / Homeland Security.

Order #	Price	Per	Sensor Configuration	Wireless	Std Range	Kit
059-B110-000	4253.00	EA	PID	Non-Wireless	0-15000 ppm	No
059-B110-100	4812.00	EA	PID	Non-Wireless	0-15000 ppm	No
059-B111-100	5143.00	EA	PID	Wireless	0-15000 ppm	No

QRAE3 Versatile Compact Personal Monitors

QRAE 3 is a versatile, rugged, one- to four-sensor pumped or diffusion gas monitor that provides continuous exposure monitoring of oxygen (O₂), combustibles, and toxic gases, including hydrogen sulfide (H₂S), carbon monoxide (CO), sulfur dioxide (SO₂) and hydrogen cyanide (HCN) for workers and responders in hazardous environments. The QRAE 3's wireless communications capability enables access to real-time instrument readings and alarm status (including man-down alarm) from any location for better visibility and faster response.

Order #	Price	Per	Sensor Configuration	Wireless	Kit	Description
M020-11111-11	1046.00	EA	LEL / H ₂ S / O ₂ / CO	Non-Wireless	Yes	Pumped

ppbRAE 3000 Wireless Handheld VOC Monitors

Trusted by many of the world's leaders in CBRNE, HazMat Response, Civil Defense, Oil & Gas, and other hazardous environments. Using a 3rd gen photoionization detector (PID) and built-in correction factors for more than 200 compounds. It measures the presence of VOCs from 1ppb-10,000ppm with a three-second response time. Optional built-in Mesh Radio enables real-time monitoring of instrument readings wirelessly. And a rugged housing, large display, and large keys that can be operated with three layers of gloves all make for a unit that's easy to use and maintain.

Order #	Price	Per	Sensor Configuration	Wireless	Confined Kit
059-C110-000	7024.00	EA	PID: 10.6 eV lamp	Non-Wireless	No
059-C110-100	7583.00	EA	PID: 10.6 eV lamp	Non-Wireless	Yes

UltraRAE 3000 Portable VOC Monitors

The UltraRAE 3000 is the most advanced compound-specific monitor on the market and one of the few monitors that deliver accurate measurement of benzene from 50 ppb to 200 ppm and other VOCs up to 10,000 ppm. A 60-second response for a benzene measurement snapshot and a unique 15-minute benzene STEL measurement provide excellent versatility for entry pre-screening, marine spill response, and refinery downstream monitoring.

GAS DETECTION

RAE Systems Gas Monitors & Gas Detection Tubes

SINCE 1954

RAE Systems Gas Monitors Cont.

RAE Systems ToxiRAE Pro PID Personal Monitors For Volatile Organic Compounds (PGM-1800)

The world's smallest volatile organic compound (VOC) monitor. Featuring next-generation PID sensor, the ToxiRAE Pro PID can quickly detect and accurately monitor over 300 VOCs. Provides safety professionals wireless remote access to real-time instrument readings and alarm status for better visibility and faster incident response. With an onboard library of 190 correction factors, the ToxiRAE Pro PID can be programmed to automatically read in equivalent units of the specified compound. Calibration and test certificate. Warranty/registration card.

RAE Systems Gas Detection Tubes

RAE Systems Hand Pump LP-1200

Easily, manually measure the presence of toxic and combustible gases. This hand-powered pump works essentially with RAE Systems colorimetric tubes. Features a spring-less piston design and solid metal construction, and can be used with gloves. A built-in counter keeps track of the number of strokes, providing a reliable way to draw accurate readings.

Order #	Price	Per
010-0901-000	208.00	EA

RAE Systems Gas Detection Tubes Cont.

RAE Systems Colorimetric Gas Detection Tubes

RAE Systems colorimetric gas detection tubes enable quick, on-the-spot measurement of a wide range of toxic and combustible gases and vapors. RAE Systems tubes are easy to read, and provide a sharp, clear color change directly corresponding to the concentration of gas present. RAE Systems tubes are compatible with the RAE Systems piston hand pump, a reliable way to draw samples of an exact volume required for the most accurate measurements. (10/pack)

How to Select Your Blackline Safety Program

CHOOSE YOUR DEVICE

G7^c

Cellular-connected Monitoring

- ③ G7c uses 3G cellular networks to wirelessly connect teams to live monitoring personnel
- ③ Industry-first two-way speakerphone
- ③ Graphical display with user-friendly menu
- ③ Two-way text messaging
- ③ Intrinsically safe

G7^x

Satellite-connected Monitoring

- ③ G7x leverages G7 Bridge portable base station to connect with 3G and satellite networks
- ③ Seamless transition to satellite when cellular unavailable
- ③ Graphical display with user-friendly menu
- ③ Two-way text messaging
- ③ Intrinsically safe

CHOOSE YOUR CARTRIDGE

G7c Standard

- ③ Lone worker monitoring (No added gas detection)

G7c Single-gas

- ③ Choice of one gas sensor
- ③ H₂S, O₂, CO, NH₃, SO₂, Cl₂

G7c Quad-gas

- ③ Choice of two, three or four gas sensors
- ③ H₂S, LEL-IR, O₂, CO, NH₃, SO₂, Cl₂, LEL-Pellistor

CHOOSE YOUR SERVICE PLAN

Self-monitored

- ③ Your control room, supervisors or admin personnel monitor your team via Blackline Live web-based software (no installation)

Blackline-monitored

- ③ Full safety monitoring by Blackline's 24/7 Safety Operations Center
- ③ Blackline manages emergency response according to your custom response protocol

Two-way voice (G7c only)

- ③ When in alert, monitoring personnel can speak directly with the G7c user via industrial-strength speakerphone

ADD ACCESSORIES

Location Beacon

- ③ GPS signals alone are insufficient to accurately locate employees inside facilities
- ③ Beacons transmit positioning signals to ensure responders arrive at the correct location
- ③ Works with custom floor and site plans, loaded into Blackline Live software
- ③ Intrinsically safe

G7 Dock

- ③ Simple solution to calibrating, bump testing and charging G7 devices
- ③ Works with cloud-hosted Blackline Live web portal for device management and test data compliance tracking

Blackline Gas Detectors Cont.

Blackline Connected Safety Scenario

CUSTOMER SCENARIO — WASTEWATER

An American utility company is looking for a wireless gas detection system for their personnel working at a wastewater treatment plan. Their facility includes 27 employees with team supervisors but no centralized control room. The company has a dedicated training team who provide all internal employee training.

Customer requirements

④ Four-gas detection with H2S, LEL-IR, CO and O2, voice communications, Blackline 24/7 monitoring

blacklinesafety

Blackline Safety G7C / G7X Gas Detector

G7c with a standard cartridge functions as a connected personal safety and lone worker monitoring device, connecting workers to live monitoring personnel using 3G cellular networks. Connectivity is complemented by an industrial two-way speakerphone, text messaging and location tracking. Devices automatically watch over workers and call for help, even when the employee can't. G7c provides critical insights and situational awareness for optimized emergency responses. Should a fall be detected or a no-motion incident sensed, assisted-GPS capability guides responders directly to the effected worker's location. All safety incidents are communicated to Blackline's live monitoring teams who can mobilize responders to an employee's exact location or trigger scalable evacuations in real-time when required.

blacklinesafety

NEW Blackline Safety G7X Gas Detector Bridge

Lone worker monitoring device that connects workers to real monitoring personnel using cellular and the Iridium satellite networks. Complemented by two-way text messaging, providing critical insights on G7x's brilliant LCD screen. Devices automatically watch over workers and call for help. Provides situational awareness enabling teams to respond with all the information necessary for optimized rescues in hazardous environments. Should a fall be detected or a no-motion incident sensed, assisted-GPS capability guides responders. All safety incidents are communicated to Blackline's live monitoring teams who can mobilize responders to an employee's exact location. G7x communicates with G7 Bridge via an industrial-quality 900 MHz radio link from up to 2 km away.

AED's

ZOLL AED Plus • Features & Benefits

The ZOLL AED Plus is the only AED in the market today that:

- Helps rescuers through the entire resuscitation process with voice, visual, and text messages.
- Uses a unified electrode pad that guarantees accurate pad placement
- Supports CPR effectiveness by measuring compression and depth rate and prompts rescuer to push harder if necessary.
- Lowest total cost of ownership because CPR-D-Padz and batteries last 5 years, if not used.
- Rugged design that resists dust and direct water spray (IP55 Rating).
- Powered by 10 lithium batteries available from retail stores everywhere.

Pedi-Padz® II Infant/Child Electrodes

Pedi-padz® II - Pediatric Multi-Function Electrodes - Designed for use with the AED Plus. The AED recognizes when pedi-padz II are connected and automatically proceeds with a pediatric ECG and adjusts energy to pediatric levels. Designed for patients under the age of 8 or under 55 pounds. Twenty four month shelf-life. One pair.

SmartCompliance[®]

BY  **FIRST AID ONLY**

SmartCompliance is the Smart Choice

SmartCompliance

The innovative SmartCompliance Program redefines business first aid. These powerful components work together to create the most comprehensive solution available today:

Innovative Cabinet Design

This unique cabinet design eliminates disorganized and missing supplies. Clearly labeled compartments create a cabinet that is easy to use and restock. With the expansion pocket, you can customize your cabinet to meet your specific needs.

SmartTab ezRefill System

This simple but effective system for reordering and restocking revolutionizes replenishment. It is quick, easy, and cost effective. As supplies are used, SmartTab ezRefill reminder tabs notify you when it is time to reorder supplies and puts reorder information at your fingertips.

ANSI 2015 Compliant

Smart Compliance RetroFit Grid, ANSI B

91123

Smart Compliance RetroFit Grid, ANSI B

Make the smart move away from overstuffed First Aid Cabinets with our organized and easy to manage grid inserts. These grid inserts with individual refill boxes are easy to install into existing cabinets that are 15" wide, helping to eliminate cluttering. SmartTab re-order reminders make it easier to stay ANSI B compliant. Free SafetyHub phone App makes supply requisitions easy and allows you to control your costs. This product consists of 3 fully-stocked grids and extra supplies to make a cabinet ANSI B compliant, reducing First Aid costs by up to 50% over traditional van services.

OSHA Requirements for Workplace First Aid Kits

OSHA standards do not require specific first-aid-kit contents. This includes the Medical Services and First Aid standards in both general industry and construction, 1910.151 and 1926.50. However, since some employers may find it useful to refer to a list of basic first aid supplies, federal OSHA provided a reference for this type of information by adding non-mandatory Appendix A to the latter two standards. Appendix A references ANSI Z308.1, Minimum Requirements for Workplace First Aid Kits and Supplies. First-aid kits in compliance with this standard will provide a basic range of products to deal with most types of injuries encountered in the workplace and may be adequate for a small worksite. Since Appendix A was added, ANSI has updated Z308.1 many times. The most recent edition (ANSI/ISEA Z308.1-2015) was approved on June 17, 2015, with an effective date one year from that date.

The 2015 edition introduces two classes of first aid kits, based on the assortment and quantity of first aid supplies.

Class A kits are designed to deal with the most common workplace injuries, such as minor cuts, abrasions and sprains.

CLASS B

Class B kits include a broader range and quantity of supplies to deal with injuries in more complex or high-risk environments.

Employers should evaluate their own workplaces to determine whether additional supplies or kits are needed, based on the size and specific hazards of their workplaces.

Antiseptics

Sting Relief Wipes

Wipes provide fast relief from insect bites & stings. Also use for the temporary pain & itching associated with minor burns & scrapes. Hydrocortisone provides anti-itch relief from insect bites & skin irritation. Active ingredient: Benzocaine 6%.

Alcohol Wipes

Alcohol Wipes helps with preventing infection on all types of cuts, wounds, scrapes and abrasions. Alcohol prep pad is individually sealed and is saturated with 70 percent isopropyl alcohol.

QRP 7C	20.67	BG	SM-XL	Pink	Latex

Order #	Price	Per	Size	Color	Material
QRP 7J	18.13	BG	SM-2XL	Pink	Latex

8C Static Dissipative Latex Finger Cots ISO 5 (Class 100)

Packaged for ISO 5 (Class 100) applications. Compliant with ASTM and IEST-RPCC 005.3 standards. Average surface resistance of 10⁷ ohms per square surface unit. For use with Class I and Class II static sensitive devices. Unique, Stand-Up pouch - easy product identification. (5 Gross / 720 each per pack).

9C Nitrile Latex-Free Finger Cots ISO 5 (Class 100)

Packaged for ISO 5 (Class 100) applications. Average surface resistance of 5x10⁹ ohms per square unit. For use with Class II static sensitive devices (thresholds above 1000V). Unique, Stand-Up pouch - easy product identification. (5 Gross / 720 each per pack).

Stirrers & Swabs

PurSwab® Small Foam Tip Applicator (Non-Sterile)

Produced with reticulated 100ppi Medical Grade foam. Thermally bonded to a rigid rectangular polypropylene shaft to reduce contamination. Rectangular head ideal for applying solutions and solvents. Great for coating rechargeable copier cartridges, general cleaning. Made in the USA. (50 swabs per bag)

Order #	Price	Per	Size
1605-PSF RECT	11.37	BG	5.188 in x 0.531 in

PurSwab® 1806-WF Foam Tipped Applicator (Non-Sterile)

PurSwab® Cleaning Applicator is ideal for cleaning sensors and components. Features a foam tip and wooden shaft. (50 swabs per bag)

Order #	Price	Per	Size
1806-WF 6IN	6.89	BG	5.812 in x 0.188 in

PurSwab® 1130 Foam Tipped Applicator (Non-Sterile)

Used for precision cleaning, heat-staked pointed foam tip fits in small tight areas. Can be used with IPA and DI water, lint and residue free. Non-sterile, pointed foam tip, with polypropylene handle. (100 per bag)

Order #	Price	Per	Size
PURITAN 1130	14.40	BG	2.736 in x 0.138 in

PurSwab® 1806-PF Foam Tipped Applicator (Non-Sterile)

PurSwab® Cleaning Applicator is ideal for cleaning sensors and components. Features a foam tip and polypropylene shaft. (50 swabs per bag)

Order #	Price	Per	Size
1806-PF	6.89	BG	6 in x 0.188 in

PurSwab® 1803-PFB Foam Tip Applicator, Bulk (Non-Sterile)

Produced with 100PPI reticulated medical grade foam. Soft non-abrasive tip is bonded securely to the handle with thermo plastic adhesive. Use with IPA and DI water or dry, lint and residue free. Great for removing epoxy residue from connectors, flux removal, general cleaning. Made in the USA. (500 per bag)

Order #	Price	Per	Size
1803-PFB	47.78	CA	2.813 in x 0.156 in

4545 Self-Saturating Applicator (Non-Sterile)

Popule® Self-saturating swab filled with 91% Isopropyl alcohol and distilled water. (50 swabs per bag)

Order #	Price	Per	Size
4545-FOAM SWAB	15.36	BG	4.125 in

PurSwab® 1805-PF RECT Foam Tipped Applicator (Non-Sterile)

Used in Critical Environment Cleanroom and Industrial settings. Tip is thermally bonded to handle so there is no contaminating adhesives used. Tip is lint and residue free. 1805-PF RECT can be used with IPA and DI water or dry. Rectangular foam tip on rectangular polypropylene handle. (50 swabs per bag)

Order #	Price	Per	Size
1805-PF RECT	11.43	BG	5.172 in x 0.687 in

803-WC

General-purpose applicator in medical field for wound care including the application of topical dressings and first aid. Industrial applications include general cleaning, cleaning sensors and components. Made in the USA (100 swabs per bag)

Order #	Price	Per	Size
803-WC	12.43	BX	3.032 in x 0.188 in

Stirrers & Swabs Cont.

806-WC

Puritan's most popular general-purpose applicator. Used in patient care for wound care for the application of topical dressings. An all-purpose swab for industrial uses such as: Cleaning weapons, removing excess from injection molding, applying solder paste, cleaning sensors, removing oil, paint, and dirt. Regular cotton head on a rigid wood handle. Made in the USA. (100 swabs per bag)

Order #	Price	Per	Size
806-WC	12.67	BX	6 in x 0.188 in

826-WC

General purpose swab: Tapered mini cotton tip on wood handle. Industrial uses include removing epoxy residue from connectors, cleaning tubes and scopes in medical device manufacturing. Tapered end suitable for precision application of medicines and accessing hard-to-reach areas. CE marked. (100 swabs per bag)

Order #	Price	Per	Size
826-WC DBL	18.63	BX	6 in x 0.12 in

806-WCL, Large Extra-Absorbent Tip (Non-Sterile)

Puritan's most popular general-purpose applicator. Used in patient care for wound care for the application of topical dressings and for cleaning instrumentation. Allpurpose swab for: Cleaning weapons, removing excess from injection molding, applying solder paste, cleaning sensors and components, removing oil, paint, and dirt from machine parts. Made in the USA. (100 swabs per box)

Order #	Price	Per	Size
806-WCL	8.02	BX	5.937 in x 0.234 in

850-WCB POLY

Industrial grade cleaning swab used for cleaning instrumentation, weapons, machinery, or electronics. Sturdy 1/10 handle holds up to rigorous use. Cotton tip on a wood handle. (100 swabs per bag)

Order #	Price	Per	Size
850-WC POLY	11.40	BX	6 in x 0.188 in

823-WC

A general cleaning swab, ideal for hard-to-reach areas. (100 swabs per bag)

Order #	Price	Per	Size
823-WC	15.32	BX	2.969 in x 0.05 in

850-WCB POLY

Industrial grade cleaning swab used for cleaning instrumentation, weapons, machinery, or electronics. Sturdy 1/10 handle holds up to rigorous use. Cotton tip on a wood handle. (100 swabs per bag)

Order #	Price	Per	Size
850-WCB POLY	1.07	BG	6 in x 0.188 in

826-WC

General purpose swab: Tapered mini cotton tip on wood handle. Industrial uses include removing epoxy residue from connectors, cleaning tubes and scopes in medical device manufacturing. Tapered end suitable for precision application of medicines and accessing hard-to-reach areas. CE marked. (100 swabs per bag)

Order #	Price	Per	Size
826-WC	14.84	BX	5.875 in x 0.05 in

861-WC DBL

General all purpose swab for use in rework and repair, such as removing excess solder and fluxes from circuit boards, or cleaning metal finishes. Sturdy wooden handle with cotton tip at each end. (100 swabs per bag)

Order #	Price	Per	Size
861-WC DBL	10.60	BX	6.062 in x 0.188 in

Stirrers & Swabs Cont.

868-WCS

General purpose swab used for cleaning medical devices, removing oil or dirt from machine parts, or cleaning sensors & components. Minimal cotton tip for small spaces and a sturdy wood handle. (100 swabs per bag)

Order #	Price	Per	Size
868-WCS	13.43	BX	5.875 in x 0.141 in

PurSwab 896-WC 6" Cotton Swab (Non Sterile)

Lint-Controlled Cotton Tip with Wooden Handle. Uses: Cleans sensitive components requiring low lint, Cleaning disk drives, optics, PC board assembly and other critical components. Easy disposal, Lint-less and residue free, Highly absorbent cotton does not swell in solvents, Low in NVR, Burnable, Environmental friendly. (1250 per Box)

Order #	Price	Per	Size
896-WC	3.87	BG	6 in x 0.185 in

PurSwab 3" Lint Free Cotton Swab (Non-Sterile)

An excellent choice when you are looking for an applicator/swab for cleaning sensitive components. These swabs are both lint and residue free. (25 Swabs Per Sleeve)

Order #	Price	Per	Sleeves	Size
870-PC DBL	137.46	CA	100	2.992 in x 0.087 in

876-WC Cotton Tipped Applicator (Non-Sterile)

General cleaning swab for cleaning situations requiring tear resistance. Lint free, regular cotton tip, naturally biodegradable wood handle. (100 swabs per bag)

Order #	Price	Per	Bags	Size
876-WC	15.86	BX	10	5.937 in x 0.188 in

PurSwab 3" Lint Free Cotton Swab (Non-Sterile)

Order #	Price	Per	Sleeves	Size
892-PC DBL	101.90	CA	100	2.972 in x 0.126 in

872-PC DBL Cotton Tipped Applicator (Non-Sterile)

This cone shaped cotton double-tipped applicator is made with High Quality USP grade cotton. Bonded securely to a paper shaft by an aqueous based adhesive. Lint-less and residue free with high-absorbent cotton that does not swell in solvents. Great for cleaning sensitive components such as disk drives, optics, PC boards and other critical industrial components. (25 swabs per pack)

Order #	Price	Per	Packs	Size
872-PC DBL	55.56	CA	50	3.23 in x 0.185 in

PurSwab 893-PC DBL 3" Smooth Cotton Swab (Non Sterile)

This absorbent cotton double-tipped applicator is produced with pharmaceutical grade cotton. It is bonded securely to a paper shaft by an aqueous based adhesive. Dimensions: Tip 4.4mm diameter 15mm length Shaft 78mm length 2.46mm diameter. Qualities: Easy disposal, Lint-less and residue free, Highly absorbent cotton does not swell in solvents, Low in NVR's, Burnable, Environmentally friendly. (1250 swabs per box)

Order #	Price	Per	Size
893-PC DBL	53.02	BX	3 in x 0.173 in

Stirrers & Swabs Cont.

Mini Alpha® Swab Alpha Series

An excellent swab for cleaning small areas. Its laundered, knitted Alpha® polyester head is extremely clean. Compact handle and rigid internal head core provide support and control. Small tip is ideal for cleaning small surfaces and recesses. Thermally sealed base provides additional contamination control. (500 swabs per bag)

Order #	Price	Per	Size
TX754B	64.86	BG	2.736 in

Absorbond® Swab J with Long Handle

Excellent general-purpose swab for cleaning surfaces and hard-to-reach areas. Hydroentangled, continuous-filament polyester head is extremely low in nonvolatile residue. Long handle and flexible internal head paddle provide good support. For applications requiring superior cleanliness. Softer head also makes it a good choice for sensitive surfaces, including coated optics. The TX762 swab is another option for surface sampling and cleaning validation. (100 swabs per bag)

Order #	Price	Per	Size
TX762	23.06	BG	6.39 in

Micro Alpha® Swab Series

Excellent swab for cleaning very small grooved, slotted and recessed areas. Laundered, knitted Alpha® polyester head is extremely clean. Compact handle and flexible internal head paddle provide support and control. (500 swabs per bag)

Order #	Price	Per	Size
TX758B	64.17	BG	2.756 in

Circular Head Swab Foam Series

The Circular Head Swab is a large, general-purpose swab for cleaning curved surfaces. Its closed-cell polyurethane foam head possesses excellent durability and cushioning. A rigid internal paddle provides firm support. The large polypropylene handle enables good control and ease of use. (100 swabs per bag)

Order #	Price	Per	Size
TX708A	26.99	BG	5.205 in

Large Flexible Head Swab Foam Series

The Large Flexible Head Swab is a flexible, general purpose swab for cleaning surfaces and recessed areas. Its closed-cell polyurethane foam head possesses excellent durability and cushioning. An internal nylon paddle provides flexible support. The round polypropylene handle enables good control and ease of use. (100 swabs per bag)

Order #	Price	Per	Size
TX710A	30.54	BG	4.488 in

Small Compressed CleanFoam® Swab

Excellent swab for cleaning small slotted and grooved areas. Compressed, laundered CleanFoam® head possesses good firmness and a pointed tip. Compact, rigid handle and tapered internal head core provide excellent support. Precision tip is especially useful for magnified or microscopic work. (500 swabs per bag)

Order #	Price	Per	Size
TX751B	62.71	BG	2.638 in

Mini Compressed CleanFoam® ESD Series

Excellent dissipative swab for cleaning small slotted and grooved areas. Compressed, laundered CleanFoam® head possesses good firmness and a pointed tip. Compact, rigid handle and tapered internal core provide good support. Handle is made from a Stat-Rite® polymer alloy using a patented Inherently Dissipative Polymer (IDP) to provide clean, permanent ESD protection without contributing particulate contaminants to the cleanroom. (500 swabs per bag)

Order #	Price	Per	Size
TX750E	65.83	BG	3.504 in

Wipers Cont.

BetaWipe™ Wipers

BetaWipe™ is a thick polypropylene and cellulose wiper thermally bonded in a unique composite construction. The cellulose contributes to the product's high sorption, while the polypropylene provides the wiper with resistance to strong acids. With its very soft surface texture, BetaWipe™ is ideal for cleaning sensitive surfaces. (100 wipes per bag)

TechniCloth® II Wipers

Fabricated from a hydroentangled, nonwoven blend of 55% cellulose and 45% polyester. This fabric blend combines the highly absorbent properties of a natural fiber with the cleanliness and strength of a synthetic wiper. TechniCloth® II features ITW Texwipe's proprietary ULP (ultralow particulate) treatment, giving it significantly lower particle generation than its predecessor, TechniCloth®. (300 wipes per bag)

Order #	Price	Per	Size	Color
TX2009	25.06	BG	9 in x 9 in	White

Order #	Price	Per	Size	Color
TX1109	27.37	BG	9 in x 9 in	White

VersaWipe® Wipers

Fabricated from a hydroentangled, nonwoven blend of 55% cellulose and 45% polyester. This fabric blend combines the highly absorbent properties of a natural fiber with the cleanliness and strength of a synthetic wiper. With its low particle counts, low extractable levels and solvent compatibility, VersaWipe® is ideal for general wiping and spill control in controlled environments. (300 wipes per bag)

Texwipe® Wipers

TexWipe® is a strong, double-sided twill pattern cotton wiper woven in a cross section of 118 x 60 threads per square inch. The product is manufactured with long staple cotton yarn to eliminate free-floating fibers on fabric surface. (300 wipes per bag)

Order #	Price	Per	Size	Color
TX629	16.91	BG	9 in x 9 in	White

Order #	Price	Per	Size	Color

Mop Covers

AlphaWipe® Wipers Synthetic Mop Covers

Constructed from 100% continuous-filament polyester in a double-knit, no-run interlock pattern. Cleanroom laundered and packaged. Ultraclean and highly sorbent wiper ideal for critical environments. Laundered cut edge. It exhibits lower particle and fiber levels than competitive hot-cut or laser-cut products. 100% synthetic fiber (continuous filament, double-knit polyester). Cleanroom laundered and packaged. Solvent-safe Bag-Within-A-Bag® cleanroom packaging. (25 wipers per bag)

Vertiklean® Max™ Microfiber Mop Head

For unmatched absorbency, mop head features a single layer of hydrophilic polyurethane foam laminated to polyester fabric backed by a semi-rigid thermoformed plate that easily snaps onto a VertiKlean mop head frame. VertiKlean MAX has a slimmer profile for cleaning in tighter spaces. VertiKlean MAX also offers increased sorbency. The lightweight disposable VertiKlean MAX is ideal for general cleaning of ceilings, walls, and floors. (4 wipes per bag)

Textured Edgeless® Mop, Polyester Tube Mop, White Tail Band

Patent-pending design. 100% polyester textured tube looped to form tubular mop strands, ribbed tubes provide sorbent capacity, textured headband provides additional scrubbing power for the removal of overspray, ISO Class 4 Cleanroom laundered, use with most common industrial mop handles, Contec offers a variety of stainless steel, anodized aluminum, and fiberglass handles.

Vertiklean® Lightweight Polyester Disposable Mop Head

Developed for applying disinfectants and wet cleaning ceilings and walls in controlled environments. Designed for one-time use. Measures 12.75" x 4.25" x 1" (32.4 x 10.8 x 2.5cm). Comprised of polyester fabric laminated to clean ester foam which provides excellent abrasion resistance. Textured polyester face for those applications that require additional abrasion to improve particle removal from surface. Compatible with a wide range of chemicals and disinfectants. Lightweight, easy-to-maneuver swivel frame slips inside the mop head allowing a full range of motion. Ideal for reaching awkward corners and ceilings. (4 pieces per bag)

Stationary

100-95-501 Clean Room Paper

Cleanroom Paper, 8.5" x 11", 22#. Paper's antistatic properties reduce attraction of airborne particles and enhance its performance in photocopiers and converting processes; Chemical and moisture resistant; Available in white, light blue, yellow, green and pink. Recommended for all controlled environments. (250 sheets per pack)

TexWrite® 22 TX

TexWrite® cleanroom bond papers reduce the risk of particle generation associated with standard papers. They feature good strength and excellent heat resistance, making them ideal for use in standard-duty and high-speed printers and photocopiers. (250 sheets per pack)

Tacky Mats

Clean Room Mats

The multi-layered mat removes dirt and dust from foot traffic and equipment wheels prior to their entry into a clean or controlled environment. Each numbered layer is fully coated with a particle grabbing adhesive. Once the top layer is saturated, a quick and easy removal of that layer exposes the next layer and returns the mat to maximum efficiency.

Contamination Control Mats

Superior Quality, recommended for all controlled environments. Numbered tabs, adhesive coating, multi-layered construction (0.05mm per layer).

Cans

General Industry Codes & Typical Industry Convention

OSHA 29 CFR 1910.106 (a)(29):

Safety can shall mean an *approved container*, of not more than 5 gallons capacity, having a spring-closing lid and spout cover and so designed that it will safely relieve internal pressure when subjected to fire exposure.

OSHA 29 CFR 1923.152:

Only approved containers and portable tanks shall be used for storage and handling of flammable and combustible liquids. Approved metal safety cans shall be used for handling and use of flammable liquids in quantities greater than one gallon. For quantities of one gallon or less, only the original container or approved metal safety cans shall be used for storage, use and handling of flammable liquids.

RED FOR GASOLINE

BLUE FOR KEROSENE

YELLOW FOR DIESEL

GREEN FOR OIL

*OSHA requires flammables with a flash point below 80°F be in a red can with a yellow band.

Type I Safety Can

Type I Safety Cans meet OSHA and NFPA Code 30 requirements and are UL listed and FM approved for safe handling and storage of gasoline and other flammable liquids. They are lead free and constructed with 24-gauge hot dipped galvanized steel not lead coated terne steel like other manufacturers.

Type I Safety Can W/F-15 Funnel

Cans are constructed of 24-gauge hot dipped galvanized steel, are deep drawn seamless, have a double interlock no-weld bottom seam, a baked on powder coat finish with a trilingual label, have a spring closing lid with neoprene gasket that vents at 5 psi internal pressure, have a nonsparking flame arrestor and pour spout.

048441-00468	54.43	EA	11 1/4 in x 10 in	Blue	2.5 gal

Type II Safety Can - Flex Spout

Cans are constructed of 24-gauge hot dipped galvanized steel, are the only deep drawn seamless can made, have a double interlock no-weld bottom seam, a baked on powder coat finish with a trilingual label and 100 percent made in the USA. Red for safe handling and storage of gasoline and other flammable liquids (U211S).

Type II Safety Can

Type II Galvanized Steel Safety Cans feature two openings. One with a pressure-relief spring closing lid for filling and one with an actuated pour valve with a flexible metal spout for safer controlled dispensing. These cans meet OSHA and NFPA Code 30 requirements and are UL listed and FM approved.

Poly Waste Can

Poly Oily Waste Cans offer fire safe temporary storage of solvent, waste rags, shavings and other materials subject to spontaneous combustion. Won't rust or dent and are resistant to most chemical compounds. 's cans feature self closing lid with foot lever.

Plunger Can

FM Approved safety plunger cans are ideal for cleaning with flammable or volatile fluids. Brass flame arrestor dasher screens and pump assemblies comply with OSHA standards. When dasher plate is pushed down the safety can dispenses a small amount of liquid to easily moisten sponges or rags without spills.

Cans Cont.

Type 1 Steel Safety Can

Designed with a single spout for filling and pouring, the sealed lid features automatic positive-pressure relief that vents between 3 and 5 psig to guard against rupture/explosion. Made from high-grade coated steel. Each safety can is equipped with a stainless steel flame arrester which dissipates heat to stop flashback ignition.

Type 2 AccuFlow Steel Safety Can

Patented manifold and proportional flow-control Safe-Squeeze® trigger provides you the means to regulate the flow rate when handling flammable liquids. Fill port with ergonomic lift lever makes filling easy. Flexible 9" (229-mm) long metal hose spout helps control the pour into small openings.

Type 1 Steel Safety Cans with Funnel

High performance, chemical resistant stainless steel flame arrester that stops flashback ignition. The extra long precision mesh screen is a full 3-1/2" (88 mm) to ensure safe insertion of gas nozzle. Self-closing lid controls vapors and spills. Leakproof, positive pressure relief cap automatically vents to guard against rupture or explosion.

Plunger Dispensing Can

Made of chemically resistant Ryton® and brass, the pump base is designed to leave less liquid in the bottom before having to refill. Pushing down on the pump assembly fills the upper pan with liquid. Surplus liquid drains safely back into reservoir. The perforated upper pan serves as a flame arrester.

JUSTRITE 10308	54.55	CN	10 1/2 in x 7 1/4 in	Red	1 gal

Oil Waste Can

Essential whenever solvent soaked cloths and wiping rags are used. The specially designed lid opens no more than 60 degrees and stay closed when not in use, isolating contents from fire sources and limiting oxygen so spontaneous combustion risk is virtually eliminated. Compact foot pedal leaves hand free. FM Approved and UL Listed.

Dip Tank

Use for cleaning parts and subassemblies where the volume of work does not warrant a larger rinse tank. Portable size accommodates changing production requirements. Dip tank covers stay open for convenient access; self-closing mechanism and fusible link melts at 165°F (74°C) to snap the cover shut in case of fire.

Red Steel Rinse Tank

Use benchtop style rinse tanks for easy point-of-use access on workbenches or counters. Lift-and-latch style cover includes a fusible link that melts at 165°F (74°C) to automatically close the cover under fire conditions.

CeaseFire Cigarette Butt Receptacle

Made of flame-retardant and sturdy polyethylene, this low maintenance smoker's friend won't rust, dent or crack. Innovative self-extinguishing design safely collects unsightly cigarette litter and reduces the risk of fire. Tie-down notches offer security and greater stability. Units include a galvanized steel bucket that collects thousands of butts.

Chem-Cor Lined Hazardous Material Safety Cabinet

Featuring the same quality features found in flammable cabinets — including double-wall, 18-gauge (1mm) welded steel construction, 2" (51mm) liquidtight containment sump, dual vents, adjustable shelves, three-point stainless steel bullet self-latching doors with U-Loc™ padlockable handle and Haz-Alert™ reflective warning labels. An all epoxy baked-on powder-coat finish, inside and out, provides increased chemical resistance. ChemCor® thermoplastic coating on all interior surfaces provides superior protection against corrosion from drips and off-gassing from harsh chemicals. Seam-free surface eliminates the need for rivets or fasteners which risk corrosion from seep-through chemicals. Non-porous surface resists staining and cleans up easily. Self-close door(s) shuts and latches automatically when a fusible link melts at 165°F (74°C) under fire conditions. Unique, concealed selfclosing mechanism offers obstruction-free access to contents. Cabinets comply with NFPA 1, NFPA 400 Hazardous Material Code, and the International Fire Code. Cabinets are FM approved and come with a ten-year warranty.

Hazardous Material Safety Cabinet

Blue steel safety cabinets for corrosives have the same quality safety features as the cabinets for flammables. All models come with double-wall construction, dual vents, grounding wire connections, adjustable shelves, leakproof sills, threepoint self-latching doors and leveling feet. Self-close door(s) shuts and latches automatically when a fusible link melts at 165°F (74°C) under fire conditions. Unique, concealed self-closing mechanism offers obstruction-free access to contents. Additionally, they include polyethylene trays attached to galvanized steel shelves and a separate polyethylene liner for the bottom sump resist aggressive chemicals. Easily remove the liner for quick cleaning of drips and leaks. An all epoxy baked-on powder-coat finish, inside and out, provides increased chemical resistance.

EXCLUSIVE BENEFITS

- **Self-Closing Doors**
Required on all Hazardous Material Cabinets, the enclosed self-close mechanism provides obstruction-free access to top shelf space. Self-indexing doors close in sequence to ensure a tight closure from top to bottom.
- **U-Loc™ Door Handle**
Flush-mount Sure-Grip® handle comes with installed cylinder lock and key set. Accepts optional padlocks for added security.
- **Haz-Alert™ Reflective Labeling**
Firefighter friendly warning labels reflect with high visibility when illuminated with a flashlight. As required by code, cabinet must be labeled "Hazardous - Keep Fire Away".
- **Application Specific Labels**
Choose from a packet of 10 chemical specific labels, and apply to indicate contents of the cabinet.

Sorbents - Mats & Rugs

SPC Adhesive Absorbent Mat

SPC's Adhesive Mat is a great addition to your absorbent program. The tacky underside adheres to any surface, keeping the absorbent in place to greatly reduce the likelihood of slips, trips and falls. Use your Adhesive Mat in walkways, near equipment and as a replacement for traditional rugs. Gray color masks drips and spills, encouraging longer use. (1 roll/case)

WHEN PERFORMANCE MATTERS MOST™

A HISTORY OF RELIABILITY.

A name you can trust. Innovative absorbent and spill control products you can rely on.

Since its founding in Somerset, New Jersey nearly 40 years ago, SPC has been successfully developing, manufacturing and shipping absorbent products. Throughout the decades, our customers have relied on SPC products to help them prevent slips, trips and falls within their facilities.

Our Guiding Principles:

- Developing high quality products appropriately suited to your needs.
- Providing unmatched service levels.
- Leveraging our industry-leading sales force to recommend the right products for the right application.

Color your way to an improved workplace.

The BBP35 and BBP37 label printers give you the power to make signs and labels in the colors and shapes you need to make an impact – right when you need them.

• Multiple print colors

Color is more memorable, more effective and is the differentiator you need to effectively improve workplace safety and productivity

• Shape cutting with the built-in XY plotter cutter (BBP37 only)

Cut out shapes and text, or cut around your message to create labels that look and fit how you want them to

• Label making made easy

Incredibly easy and intuitive interface makes it ideal for multiple users, centralized locations and lean / 5S events

• Automatic label setup

Printer reads critical information from the supplies and then automatically sets up the label attributes in the printer so you can start printing immediately

• Time saving

20-second changeovers with drop in ribbon and label supplies

Unprecedented capabilities set the standard in safety and facility ID

There's big and bold. Then there's big and bold from Brady.

The BBP85 Sign and Label Printer allows you to create extra-large 10 inch labels in multiple colors, and it has an easier-than-ever interface that anyone on your team can use. No more complex, tedious design steps. Now you can just walk up and print – anyone can do it.

Big Output. Little Fuss.

Create custom signs and labels right now. This printer has our fastest, easiest operating system, so anyone on your team can design visuals with little to no training. The ideal printer for multi-user lean / 5S and kaizen labeling events.

Unmistakably large visuals up to 10 in. wide.

Just walk up and print – it really is that easy.

Simple touchscreen interface for standalone use, including label design apps to quickly create safety signs, pipe markers, GHS, arc flash, right-to-know labels and more.

Connect to your PC to print labels created through Brady Workstation apps.

USB port for importing files, fonts and graphics.

High-resolution, high-speed full-color label creation.

Get the impactful color labels you need to create a safer, more efficient workplace. The BradyJet J5000 Color Label Printer is an on-demand, inkjet solution for creating photo-quality color labels for indoor use in a single pass, while reducing your inventory of labeling supplies and material waste.

- 4,800 dpi print resolution for high-resolution clarity and fine detail.
- Full-color photo reproduction and wide tonal range allows for labels with photos, graphics, illustrations, text, linear and 2D bar codes.

- More than 16 million color possibilities with only 4 ink cartridges.
- Large ink cartridges that reduce the amount of changeovers or replacements.
- Fast print speeds up to 6 inches per second.
- Print up to 5,000 high resolution labels per day, using only the ink and label materials needed to keep waste and inventory down.
- Variety of label options with 2 to 8 inch wide continuous and die-cut materials.

High-resolution and full-color identification throughout your facility

Brady Custom Signs

Safety Sign Headers (OSHA 1910.145 and ANSI Z535)

Messages such as "Warning" and "Caution" may seem synonymous, but they actually deliver very different messages. ANSI and OSHA specify that safety signs must indicate and define specific hazards that, without identification, may lead to accidental injury to workers, customers or the general public. The standard headers and definitions are listed below.

Brady Custom Signs Cont.

What is Proposition 65?

According to California's Proposition Warnings website, "Proposition 65 requires businesses to provide warnings to Californians about significant exposures to chemicals that cause cancer, birth defects or other reproductive harm." Ultimately, it's intended to help California residents make informed decisions about their exposure to these chemicals.

Why use Brady labels for the Prop 65 requirement?

Brady is the top trusted provider of labels and product identification needs. With the Proposition 65 regulation, it becomes more important for the labels that are placed on the products to hold up to the tough conditions in order to warn the end user of potential health concerns.

For more details on Proposition 65, please visit www.p65warnings.ca.gov.

Brady Floor Tapes

NEW
ToughStripe® Max Thick Floor Marking Tape

Designed to withstand wear and tear in high-traffic areas. Maintains the ToughStripe adhesive capabilities. Provides greater thickness for resistance to cuts and scrapes in high-traffic areas. Durability in forklift and industrial vehicle traffic areas. Aggressive adhesive performance when you need it, easy removal when you don't. Tapered edges to minimize "pick points" and traffic bumps. Easy installation with minimal tools.

Channel Protectors

Guard Dog® Cable Protector 3 Channel General Purpose

Hinged lid protects valuable electrical cables and hose lines from damage while providing a safer crossing for vehicle and pedestrian traffic. Modular interlocking design is ideal for various applications. Load capacity is 14,120lb./tire. 28,420lb./axle. Max load tested to 70degrees fahrenheit. Protects cables and hoses up to 2.25inches outside diameter.

Order #	Price	Per	Length	Color	Material
GD3X225-B/B	451.56	EA	36 in	Black / Black	Polyurethane
GD3X225-O/B	349.34	EA	36 in	Black / Orange	Polyurethane

Guard Dog® Cable Protector 5 Channel Low Profile General Purpose

Cable protector for vehicle and pedestrian traffic. Maintains a high load-bearing capacity for heavy equipment. Your choice of standard or ADA/DDA compliant ramps. Standard load capacity is 24,000lb./tire, 48,000lb./axle. Protects cables and hoses up to 0.75 inches outside diameter.

Cutting Tools & Safety Cutters

10503 Box Cutter

A new level with an ergonomic, protective J-hook handle and our patent-pending safety blades. Avoid injuries with a retractable box cutter that prevents you from accidentally leaving the blade exposed. Keep your fingers safe with our protective handle. This safety box cutter uses 100 percent zirconium oxide blades that are non-sparking, non-magnetic, chemically inert, safe up to 1600 degrees Celsius, and never rust.

Order #	Price	Per
895142-10503	18.99	EA

10554 Auto-Retractable Utility Knife

Auto-retractable utility knife responds to customer demand for a long blade to cut through thick materials, including triple-walled corrugated. When your cut is finished, the ceramic safety utility knife blade pulls back to keep you safe. Rotate the blade edge quickly and without tools to adjust for right or left-handed use.

Order #	Price	Per
895142-10554	21.84	EA

Cutting Tools & Safety Cutters Cont.

10560 Utility Knife

Auto-Retractable Industrial Knife features our longest blade yet. Specially designed for cutting thick foam in industrial settings, the exposed blade is approximately three inches (7.5 centimeters) long, allowing the user to tackle thicker materials. Safety features include automatic blade retraction. The 10560's slider is grooved and textured for user comfort and a better grip.

Order #	Price	Per
895142-10560	23.74	EA

10514 Box Cutter

Works well as a safety box cutter, a pocket knife, or a kitchen multi-tool. Its auto-retractable blade stays out of harm's way when you're not using the knife, and the built-in magnet keeps it handy. This small cutter ships with a replaceable 10404 rounded-tip safety blade. Left-handed users need only move the blade into the opposite slot in order to get cutting.

Order #	Price	Per
895142-10514	9.49	EA

10512 Pen Cutter

Offers an alternative handle profile to Slice's safety box cutter. Its slimmer cylindrical shape is ideal for hard-to-reach areas and it uses the same box cutter blades, offering the same great features. These include Slice's proprietary finger-friendly edge that reduces injuries. Our pen cutter design limits the amount of exposed blade. The blade retracts into its housing when the user releases the rubberized slider button.

Order #	Price	Per
895142-10512	12.34	EA

10562 Utility Knife

Folding Utility Knife combines the familiarity of a folding pocket knife handle with the innovation of our finger-friendly® blades. Keep your knife handy by slipping it into a pocket or using the included belt clip. When you're ready to cut, press the quick-release lock button and unfold a safe, effective utility blade. The featured finger loop provides a secure gripping option.

Order #	Price	Per
895142-10562	37.99	EA

SK-10 Concealed Blade Safety Cutter

Concealed blade safety knife featuring an adjustable blade 4 cutting points positioning design, uses the OLFA® SKB-10 blade, a single-edge blade. Storage Bins & Organizers

INDUSTRIAL PLASTIC BINS & WAREHOUSE BIN STORAGE SYSTEMS.

From rugged and strong stackable storage bins to tough, durable nesting shelf bins for the industrial, material handling and consumer markets. Our Industrial totes and containers, injection molded bins, and complete bin systems offer a storage solution in any environment. Suitable for any type of application, Quantum's bins are large and tough enough for the storage of heavy power tools and yet optimal enough to keep your smallest items safely contained and organized.

Efficient, Permanent, and Economical.

With brand names of Ultra, MAGNUM, HULK, Store-More, and Quick Pick, Quantum's bins are known quality, strength, and versatility. Let Quantum's Industrial bins and warehouse bin systems be your workable storage solution by increasing production efficiency, reducing and controlling inventories, shortening assembly times, and minimizing parts handling.
