Get to know our Safety Specialists

- We happily assist our clients in product selection, training, and demonstrations.

See Solutions through our Services

- Calibration
- Consulting
- Repair
- Training

Customer-Focused Inventory

- We stock based on our customers needs locally. If you need a product and we don't stock it, request it and we will add it to our inventory for you.
- We adapt to your business processes to ensure that you have what you need to operate safely and efficiently.
- We maintain more than 50 warehouses throughout the United States and Mexico.
- We offer an extensive array of ISO 9002 Qualified Items from top manufacturers and brands.

No Minimum Purchase Necessary

- There is no minimum purchase amount at R.S. Hughes. Order precisely what you want, when you need it, without having to inflate your purchasing costs.
- Stocking what you need is our specialty. If you need a specific product stocked, contact us so that we can stock it for you in one of our 50+ international warehouses.

Many Ways to Order

- Online at rshughes.com
- By phone to speak to your personal sales representatives
- By Email or EDI
- Faxed purchase orders
- In person at any one of our warehouse locations.
- We accept payments via credit card and through instant credit. Quickly and easily set up instant credit with your first purchase.
- Pricing is Subject to Change.

We have strived our best, most popular products in this catalog. Unfortunately, everything just won't fit. If you need something that isn't in the catalog, we most likely have it.

If you would like some direction, have special application issues, need on-site training or just have questions, give us a call or send us an email at safety@rshughes.com. We are here to help. Thank you for your business.

Sincerely,

**George
Mallinckrodt**

At R.S. Hughes, we stand behind your right to

BUY WITH CONFIDENCE

Head to Toe Protection

The human body is an amazing machine capable of strength, speed and precision but it is also susceptible to injury. At R.S. Hughes we are fully committed to the safety of every part of your body - from head to toe. We work diligently to ensure every step of your order fulfills this objective. R.S. Hughes is watching your back in your work environment.

Try It Before You Buy It

Nothing beats actually seeing and holding the product in your hands before you buy it. Seeing is believing. Let us show you the actual product before you buy it. We will ship a sample or a specialist will bring it to you. There's confidence in knowing you are getting the right protection for the job!

100% Satisfaction - Guaranteed

If for any reason you are not satisfied with the product you received, we will replace it or credit you. And our nationwide network of safety specialists are available to visit your site and offer solutions.

Trial Order Program

Trial orders are available on a satisfaction-or-no-pay basis. The program lets end-users evaluate our products in their actual application and on-site condition, on a satisfaction-or-don't-pay basis to make sure that the products are right for the job.

Purchasing and Supply Solutions

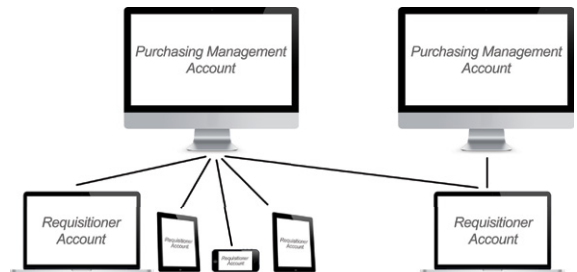

3 Programs that provide Solutions to the ever increasing demands of Purchasing. Programs and fit a wide range of company sizes and requirements.

Solutions provided by our industry leading professionals. *It's ALL here!*

PURCHASING MANAGEMENT SOLUTION

Purchasing Management Solution allows you to build a robust internal requisition to approval process through our simple web interface. Streamline purchasing and control costs through a custom designed web experience that puts you in the driver's seat for requisitioner approvals, budget management, order thresholds, and in-depth reporting.

- Lower internal processing costs with increased speed and convenience
- Simple web interface
- Invite & manage requisitioners
- Approve, edit, or reject purchases
- Set automated spend & approval levels
- In-depth reporting with full visibility

INVENTORY MANAGEMENT SOLUTION

Our Inventory Management Solution combines technology with our professional support allowing you to focus on other business issues while we manage your consumable inventory. Dedicated R.S. Hughes professionals monitor and manage your replenishment process. A web based reporting suite provides full visibility, tracking, and transparency.

- Customized on-site consumable inventory management solution
- Internal time & cost savings
- Optimized stocking & consumable inventory levels
- R.S. Hughes monitors consumables & manages your replenishment process
- Flexible reporting suite with full visibility & tracking

INDUSTRIAL VENDING SOLUTION (VEND2SUPPLY)

The R.S. Hughes **Vend2Supply Solution** brings a secure, automated approach to your supply management with the greatest level of control, reporting, security, and cost savings. The Vend2Supply Solution takes Supply Management and Cost Control to the next level.

- Dedicated R.S. Hughes professionals monitor & manage consumable inventory levels
- 20 - 30% consumables cost reduction
- Eliminate hoarding, misuse, & theft
- Tightest security & control
- Direct user supply
- Simple touch screen access
- Employee level reporting and control
- Automated replenishment process
- Reduced downtime & improved productivity

STAY ON TOP OF INVENTORY

NOW A DEDICATED R.S. HUGHES INVENTORY MANAGEMENT REPRESENTATIVE CAN HELP YOU

Your R.S. Hughes Inventory Management Representative can help you:

- Manage and replenish locally stocked items
- Consolidate vendors to simplify re-ordering and save administrative costs
- Customize systems to balance supply and demand
- Manage inventory with QR code scanning and usage reporting
- Report usage for spending management
- Optimize replenishment with Inventory Management “as needed” materials delivery

We'll set goals with you and through collaborative inventory forecasting, monitor your usage to balance inventory supply and demand. We can help consolidate your vendors to simplify the re-ordering process and save time and administrative costs by reducing multiple purchase orders. You can also save inventory storage space and trigger delivery to have what you need, when you need it.

Call us to learn how you can streamline supply chain management with your own knowledgeable, trained, and friendly R.S. Hughes Inventory Management Representative.

Bump Caps

282-AEM130 / 282-AES150 Aero-lite™ Micro Brim Bump Cap

Weighing less than 5 oz. this cap can be worn all day. HDPE liner is removable, so the outer cap is fully washable. Increased ventilation for coolness and comfort. Size adjuster slides easily and is angled downward to fit under nape of neck. Keep comfortable and prevent unwanted odor. Reflective piping adds extra visibility. Water repellent shell prevents staining.

**HOYA SAFETY
RX EYEWEAR
MADE EASY**

High-performance lens coatings

The clear choice for workplace safety

You work hard to provide a safe, productive work environment. And making sure everyone is wearing the appropriate type of safety eyewear while on the job is critical to that effort.

But things can get complicated when it comes to employees who need prescription lenses – particularly when the workforce represents a wide range of job roles and individual eye care needs.

SRx Made Easy is designed to help, by simplifying the ordering process and connecting employees to a national network of independent eye care professionals.

With package pricing that saves you money on a comprehensive range of frame styles and lens treatment options, SRx Made Easy turns a logistical challenge into a tangible benefit for your business.

Both Basic and Enhanced packages include:

- ▶ Choice of either HOYA Anti-Fog Coating or new HOYA Easy Clean Coating
- ▶ Single vision, bifocal, trifocal, occupational, and progressive addition lens designs
- ▶ Polycarbonate lens material
- ▶ Solid or gradient tint
- ▶ Sideshields: integrated, detachable or permanently attached
- ▶ Eye care professional fitting services

**Call 877-774-8443 or
Search "HOYA" on www.rshughes.com**

GoggleGear™, 500-Series Goggle

This low profile splash goggle features the Scotchgard™ anti-fog lens which helps keep lenses clear in rugged, dusty, steamy and wet environments providing longer lasting fog resistance than traditional antifog, anti-scratch coatings. Additionally, the Scotchgard anti-fog coating retains its anti-fog effectiveness through multiple washings with water.

Max Lite@ Single-Use Earplugs

Ideal for workers with smaller ear canals, Max Lite's low-pressure polyurethane foam expands gently inside the ear canal for comfortable long-term wear, while its contoured T-shape delivers ease of handling. NRR 30 dB. (200 pairs/box)

Max@ Single-Use Earplugs

Block out loud noises with the best protection and comfort available in an earplug. The world's most popular polyurethane foam earplug, offering superior noise-blocking performance in a single-use earplug. Enhanced contoured shape is easier to insert and resists backing out of the ear canal. Soft foam delivers superior long-wearing comfort and solid performance. (200 pairs/box)

Laser Lite@ Single-Use Earplugs

Low-pressure polyurethane foam expands gently inside the ear canal for comfortable long-term wear, while its contoured T-shape delivers easy handling. Its high-visibility magenta and yellow colors make compliance checks quick and easy. Plus, Laser Lite is available with special packaging and dispenser options, ideal for process industries with low tolerances for packaging waste. NRR 32 dB. (200 pairs/box)

Quiet@ Earplugs

Great protection and comfort from a reusable earplug. Quiet@ provides consistent attenuation for all-day wear. Quiet requires no rolling - its built-in flexible stem adds ease of insertion and immediate comfort. Its smooth, non-irritating skin provides all-day comfort and is easy to clean up with soap and water for extended wear. (100 pair/box)

SmartFit@ Earplugs

The only multiple-use reusable earplug with Conforming Material Technology™, SmartFit uses body heat to adapt to the shape of the ear canal for a comfortable, personalized fit. Detachable cord system, HearPack® carry case and special application styles available. (100 pair/box)

Airsoft@ Ear Plugs

Optimized in-ear comfort, AirSoft's four-flange design creates a better seal in the ear canal, delivering optimal protection and increased comfort. Internal fins create an interlocking, noise-blocking barrier within the air pocket, providing dependable attenuation. Less pressure in the ear canal eliminates that "plugged up" feeling. Protection + Validation | Identify at-risk employees.

*Source: <http://www.cdc.gov/niosh/docs/2010-136/pdfs/2010-136.pdf>

Employee-to-Employee Variability

To make sure they are getting the protection they need, you need to know the Personal Attenuation Rating (PAR) of every employee. The highest-NRR earplug or earmuff won't provide the expected protection if it doesn't fit right or isn't used right. Once you know each employee's number, you'll be on the way to yours: 100% confidence in your hearing conservation program.

Every employee is different. Every job is different. Finding each employee's number will help you validate compliance and have assurance that their hearing protection is sufficient.

Program Documentation

E-A-Rfit Dual-Ear Validation System testing sessions produce a validation document that can be kept in each employee's file, providing documentation of your commitment to training and compliance with OSHA hearing conservation program guidelines.

- Features easy-to-read test results for both ears as well as testing history
- Creates digital and printable reports for both employee and company records
- Provides a direct measurement of noise reduction in decibels
- Provides an estimate of test variability

E-A-Rfit™ Dual-Ear Validation System, 393-1100

3M™ E-A-Rfit™ Validation System Dual-element, dual-microphone assembly is the key to the system, measuring sound levels inside and outside the hearing protector. Science-based, quantitative testing gives accurate reports of hearing protection. Fast, clear, accurate results are obtained in just seconds and can be printed or saved electronically for future reference. System determines personal attenuation rating (PAR) of individual workers and helps remove measurement, fitting, and spectral uncertainty. (1/case)

Industrial Products

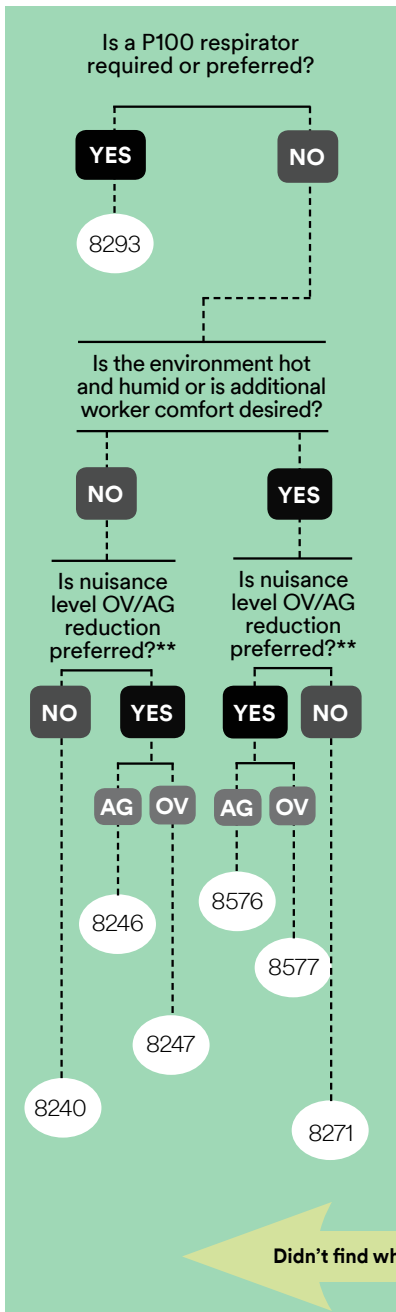

3M™ Disposable Filtering Facepiece Respirators

Product Preference Selector

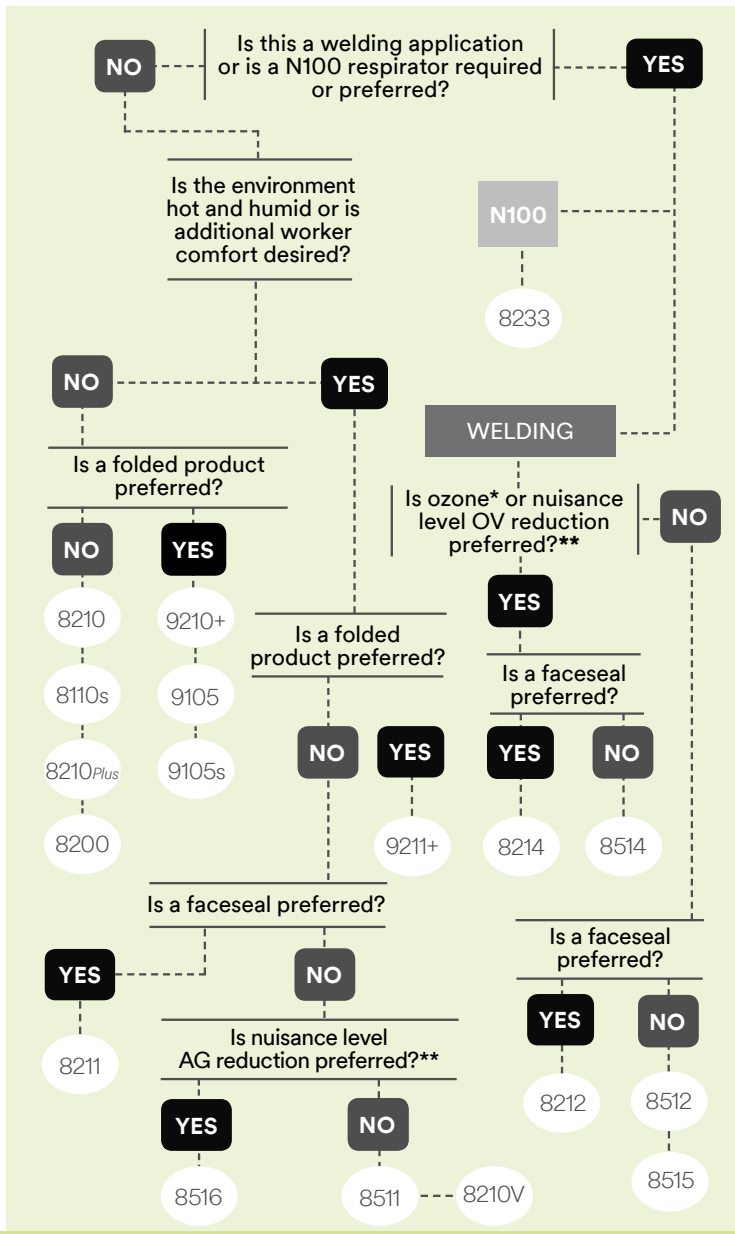

Use the selector below to identify which respirator may be preferred for increased worker comfort.

What type of particles are in your environment?

Oil and Non-Oil R- or P-Series Respirators

Non-Oil N-Series Respirators

Didn't find what you want? Don't forget that R and P series respirators can also be used in non-oil environments.

*3M recommended for ozone protection up to 10X OSHA PEL. Not NIOSH approved for ozone.
**3M recommended for relief against nuisance level acid gas (AG) or organic vapors (OV).
Nuisance levels are less than OSHA PEL or applicable government occupational exposure limits, whichever is lower.

Disposable Respirators: Dusty Conditions

3M

3M™ Particulate Respirator 8210 N95

Designed to help provide comfortable, reliable worker protection against certain non-oil based particles. Its lightweight construction helps promote greater worker acceptance and comfort and increased wear time. (20/box)

RESPIRATOR FIT TESTING SERVICES

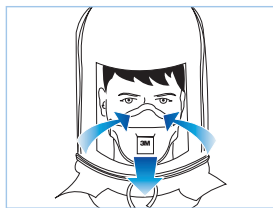

PROVIDED BY R.S. HUGHES

Checking that a respirator, with a tight fitting facepiece, provides an adequate seal to the wearer's face has long been considered best practice as part of a general Respiratory Protection Programme. Respirators with tight fitting facepieces include disposable respirators, half masks and full-face masks, including those that form part of a powered or air-fed respirator.

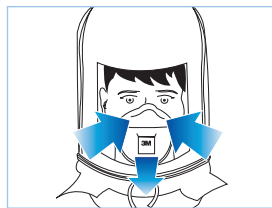

OSHA 191.134 requires fit testing should be carried out:

- Before the respirator is issued
- On all wearers of respirators with tight fitting facepieces where fit testing as previously not been performed

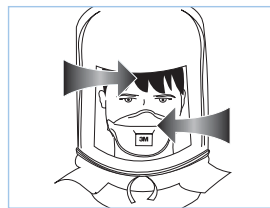

The 7 Fit Tests

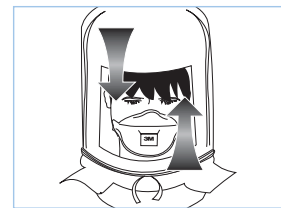

1. Breathe normally

2. Breathe deeply

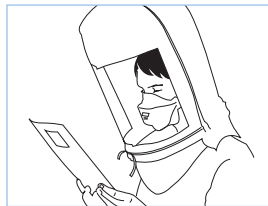

3. Head side to side

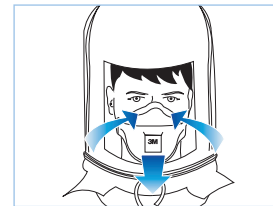

4. Head up and down

5. Bent over at waist

6. Talking

7. Breathe normally

Fit testing should be repeated at appropriate times such as:

- If the wearer significantly loses or gains weight, has major dental work or sustains a major facial injury
- If a different size or model of RPE is specified
- At least annually or when specified by the company policy eg. at time of health surveillance check.

Fit testing is in addition to the requirement to perform a fit check prior to each use as a gross determination of suitable fit.

*Contact R.S. Hughes to schedule a
Respirator Fit Test.*

Reusable Cartridge Respirators

3M

3M™ Half Facepiece Respirator 7500 Series

Maximized comfort in air purifying respirators means not only easy breathing filters and cartridges, but also a soft comfortable facepiece. 3M™ Versaflo™ Back Pack BPK-01 for TR-600/800 PAPR

The BPK-01 securely holds the TR-600 series on the wearer's back rather than on a belt.

Order #	Price	Per	Model #
051131-17358	78.62	EA	BPK-01

PAPR Kits & Assemblies: 3M™ Versaflo™ TR-600 Series Cont.

3M™ Versaflo™ Belt Extender TR-626X

The TR-626X Belt Extender (20 in./50cm) enables the TR-626 belt to be worn comfortably, when additional belt length is needed. (1/case)

Order #	Price	Per	Size	Model #
051131-37344	38.95	CA	20 in	TR-626X

3M™ Versaflo™ Belt Extender TR-627X

The TR-627X Belt Extender enables the TR-600 PAPRs to be worn comfortably, when additional belt length is needed. (1/case)

Order #	Price	Per	Model #
051131-37346	38.95	CA	TR-627X

3M™ Versaflo™ High Durability Belt TR-626

Replacement part for TR-600 series PAPRs. The ergonomic design makes it comfortable to wear. Leather leads make it suitable for challenging work such as grinding. (1/case)

Order #	Price	Per	Size	Model #
051131-37343	124.65	CA	Up to 52 in	TR-626

3M™ Versaflo™ Easy Clean Belt TR-627

Replacement part for TR-600 series PAPRs. The ergonomic design makes it comfortable to wear. Smooth surfaces make it easier to clean. (1/case)

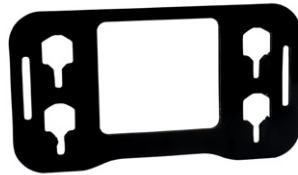

Order #	Price	Per	Model #
051131-37345	124.65	CA	TR-627

3M™ Versaflo™ Back Pack Adaptor TR-655

Enables the TR-600 series PAPR to be worn on the BPK-01 backpack rather than on a belt at the waist.

Order #	Price	Per	Model #
051131-37385	32.73	AD	TR-655

3M™ Versaflo™ Cleaning & Storage Kit TR-653

Designed to assist with product cleaning and storage. A plug and seal is provided for the inlet and outlet openings of the TR-600 series motor/blower. A cover is provided for the electrical connections of the TR-600 series battery.

Order #	Price	Per	Model #
051131-37373	27.27	EA	TR-653

3M™ Versaflo™ Prefilter TR-6600

The TR-6600 prefilter can extend the service life of the particulate (HE) element of TR-600 series filters and cartridges by capturing large particles that may clog the HE filter. Frequent prefilter changeout may help optimize PAPR system performance.

Order #	Price	Per	Model #
051131-37354	4.67	EA	TR-6600

3M™ Versaflo™ Spark Arrestor TR-6600

The TR-662 spark arrestor may be used with all TR-600 series filters and cartridges. It helps prevent sparks and other hot particles from damaging the filter/cartridge, and can be used as a cleanable prefilter. Two per case.

Chemical Resistant Gloves: Neoprene & Vinyl and Chloronite
Arc Flash & Electrical Rated Gloves

Chemical Resistant Gloves: Neoprene & Vinyl Cont.

ProCoat® PVC Dipped Glove

Used for mining, construction, refining, petrochemicals and handling oily materials. Semi-rough finish provides enhanced wet grip and cut resistance. Interlock lined for great dexterity and dries quickly. Black color hides dirt. Single dip construction. Additional length to protect the forearm from liquid run-off.

ProCoat® Hi-Vis Insulated PVC Dipped Glove

Ideal for cold environments to handle grease, oils, acids, caustics and solvents; warehousing, highway construction and traffic control. Hi-Vis orange PVC is great for visibility. Liquid-proof. Foam insulation keeps hands warm and dry. Knit Wrist helps prevent dirt and debris from entering the glove.

Cut Resistant Gloves

Cut resistant gloves and sleeves are designed to protect hands from direct contact with sharp objects such as glass and metal. The level of cut resistance provided is a combination of material composition and weight. Performance of a glove can also be affected by coatings applied to the surface which can also offer enhanced grip. Common cut resistant fibers include:

HPPE: High performance polyethylene fibers offer maximum strength with minimum weight. HPPE is 10 times stronger than steel by weight as well as 40% stronger than aramid fibers offering a softer, cooler alternative.

Aramid: The most common brand name is Kevlar®. It is 5 times stronger than steel and provides great tensile strength. Due to its inherently flame resistant nature, it will not melt and offers heat protection up to 320°F based on product design.

Spectra: A polyethylene fiber that is 10 times tougher than steel per unit weight offering high cut resistance even when wet. Its low lint and flexible nature make it ideal for use in food processing.

Taek5: A blended yarn made of Taek5®, fiberglass and synthetic fibers that delivers high cut resistance without sacrificing dexterity and tactile sensitivity.

Blended Shells: The introduction of steel and glass to HPPE and aramid help to significantly increase levels of cut protection while helping maintain comfort and fit.

***WARNING: Remember that no product is cut proof.**

There are two different standards to measure cut performance:
The European Standard EN 388 and the ANSI/ISEA 105 Standard for the U.S.

EN 388: EN 388 uses the coup test method based on a circular blade moving back and forth across the sample under a fixed load of 500 grams. In other words, it simulates the number of repetitive cut needed to cut through the fabric using a constant load. The results are then compared to the cut results of a cotton canvas. For example, a cut level of 5 means that it is 5 times more cut resistant than the reference cotton.

Performance Level	Average Cut Index
0	<1.2
1	1.2 - 2.4
2	2.5 - 4.9
3	5.0 - 9.9
4	10.0 - 19.9
5	> 20

Cut Resistant Gloves: ANSI Level 2

Powerflex® Plus 80-600 Latex Coated Kevlar®

Provides cut, abrasion, and puncture resistance; superior wet and dry grip; and unbelievable comfort. The gloves are ergonomically designed and feature a seamless Kevlar® knit lining that's palm-dipped with a textured, natural rubber coating. ANSI Level 2 Cut Protection.

Cut Resistant Gloves: ANSI Level 3

HyFlex® 11-435

Offers a unique combination of comfort, safety, and environmental-friendliness in a cut resistant glove. It is the first HyFlex® glove with a water-based, DiMethylFormamide-free polyurethane palm coating that is not only ecofriendly, but also provides higher dirt resistance than solvent-based polyurethane. The glove is rated for ANSI Level 3 cut protection and ANSI Level 4 abrasion protection. Nylon yarn plaited with Dyneema®.

44-3745 MaxiCut® Ultra™ Nitrile Coated Gloves

Designed and developed as a 360° breathable cut resistant glove MaxiCut® Ultra™ combines high levels of cut protection with comfort, flexibility and dexterity for dry environments.

New Categorization

The merge of the ANSI/ISEA 107 (roadway) and ANSI/ISEA 207 (public safety) standards, created the need for garment type classification based on the work environment and the level of protection needed.

Type O

Off-Road Use (Class 1 only)
Provides added visibility to workers who are not exposed to traffic.

Type R

Roadway Use (Class 2 & Class 3)
Enhanced visibility for workers who are exposed to traffic and working against complex backgrounds.

Type P

Public Safety (Class 2 & Class 3)
Enhanced visibility for emergency and incident responders and law enforcement personnel in both roadway and off-road environments.

Non ANSI Vests

300-1000 Non-ANSI Surveyors Style Safety Vest

Materials | The following is a guide that offers a comparison between the materials used in the 3M™

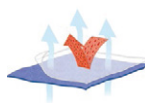

SMS

Spunbound Meltblown Spunbound are robust breathable fabrics, designed to offer a good barrier against hazardous particles and limited liquid splashes.

Protective Coveralls 4515, 4520 & 4530

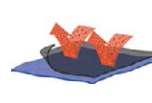

Microporous PE Laminate

Designed to offer a good barrier against hazardous particles and limited liquid splashes, while the micropores allow for some breathability.

Protective Coveralls 4510 & 4545

Non-microporous PE Laminate

Designed to offer a very good barrier against hazardous particles and certain liquid splashes and sprays.

Protective Coverall 4565

Multi-Layer Non-Microporous PE Laminate

Designed to offer an excellent barrier against hazardous particles and certain liquid splashes, sprays and jets.

Protective Coverall 4570

What is RightCycle by Kimberly-Clark Professional*?

The RightCycle Program is a groundbreaking service that enables you to collect previously hard-to-recycle items, such as Kimberly-Clark Professional* nitrile gloves and single-use apparel items, and have them turned into eco-responsible consumer goods. Through this program, you can:

- ➊ Reach your organization's sustainability goals
- ➋ Divert waste from the landfill in support of zero waste to landfill initiatives
- ➌ Give your used nitrile gloves and apparel a new life by aiding in the creation of eco-responsible consumer goods like flower pots, patio furniture, and plastic shelving
- ➍ Reduce your waste disposal costs
- ➎ Protect the planet for future generations

Apparel and gloves are worn in your facility.

Used products are collected and shipped to our recycling centers.

Used products are sorted and processed into plastic pellets or nitrile powder.

Materials are molded into new eco-responsible plastic products and durable goods.

KleenGuard A35

KleenGuard™ A35 Coverall w/ Zipper Front

KleenGuard™ A35 Breathable, microporous film laminate. Durable and comfortable. Liquid barrier, particulate barrier, low in lint. Passes ASTM F1670 testing for penetration of blood & bodily fluids. KleenGuard A71

A71 Chemical Permeation & Jet Liquid Protection Apparel

Protection against chemical permeation and liquid jet spray

KleenGuard* A71 Coveralls

The KleenGuard* A71 is a single-use protective coverall designed to protect against chemical permeation and liquid jet spray. With sewn and taped seams, the KleenGuard* A71 helps protect workers from a wide range of potentially harmful chemicals.

FEATURES:

- Composed of tear resistant, durable film laminate
- Sewn and taped seams offer a strong liquid-tight barrier
- Elasticized hood, cuffs and waist designed for improved comfort and safety
- Highly visible yellow color for improved worker safety
- Velcro storm flap for improved protection around the zipper
- Storm-flap height and hood designed for easier taping to a respirator

PROTECTS AGAINST:

- Liquid, aerosol and dry chemical splashes, sprays and dusts
- Inorganic acids/bases and a range of organic chemicals
- Aqueous or hazardous chemicals

TYPICAL USES:

- Low pressure industrial cleaning and maintenance
- Hazardous waste remediation
- Environmental and biohazard cleanup
- Tank cleaning

DUPONT

Tychem® 2000 SFR Coverall

Chemical and secondary flame resistance in a lightweight garment. Provides an effective barrier against a range of chemicals, as well as secondary flame resistance. Protect against a multitude of inorganic acids and bases as well as a range of industrial cleaning formulations. In the case of a flash fire, the coveralls won't ignite, and won't contribute additional burn injury if appropriate FR apparel is worn beneath.

DUPONT

Tychem® QC127 Coverall

Tychem® QC is polyethylene coated Tyvek fabric. Provide light liquid splash protection. Tychem® QC is yellow for high visibility.

24/SEVEN®

- These rubber 3' x 3' inter-connecting anti-fatigue mats keep workers productive and comfortable.
- Drainage mats feature large holes to allow fluids and debris to flow through freely.
- Solid mats feature an easy to clean textured surface for use in mostly dry areas.
- The hidden interlocking system connects on all four sides to quickly cover large areas.
- Ability to replace single tiles saves money and down time.
- Available in 3 different rubber compounds:
 1. Grease-Resistant (GR) for areas with water or dry debris.
 2. Cutting Fluid Resistant (CFR) for areas with mineral oil-based cutting fluids.
 3. 100% Nitrile (NBR) for areas with petroleum-based fluids.

DIAMOND-PLATE

WEARWELL™

Industrial Matting's Hall of Famer

Wearwell made matting history in 1989 with the introduction of the Diamond-Plate surface, the most popular industrial matting design in the world. Diamond-Plate did more than prevent slips and falls – it introduced our revolutionary Nitricell® sponge material for improved comfort and safety beyond anything else in the game.

Floor Matting Cont.

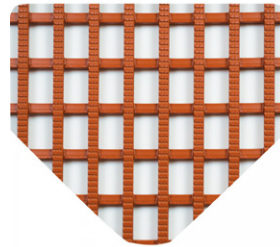

WEARWELL

347- H.T. Runner

Perfect solution for High Temperature and High Traffic areas where antifatigue isn't the primary objective. As a high temperature solution, the specially formulated rubber has an extraordinarily high melt point for demanding welding applications. As a high traffic solution the textured rubber surface assures solid footing and can be used for semipermanent installations with common mastics.

The Power of Innovation and Partnership

The Wearwell Site-Survey Process — Providing Optimal Ergonomic Flooring Solutions

You can improve safety, performance and morale with the right surface solution!

What can you gain from a Site-Survey?

No matter if you are a safety or facility manager looking to improve safety and performance, or an operations manager interested in reducing costs and meeting regulations, a Site-Survey can offer opportunities to help meet your goals.

- ◇ Improve Safety Performance
- ◇ Prevent Lost Time
- ◇ Manage Risk and Compliance
- ◇ Reduce Down-Time
- ◇ Heighten Morale & Productivity

Benefits:

The Wearwell Site-Survey is Free of charge
This service is valued at \$2000, but we provide it at no charge with confidence we will earn your business.

Your team, your plan
You can prioritize based on your time-line and budget.

Work with your Current Distributors
With our large network of top notch distributors, purchasing Wearwell flooring and matting is simple and convenient.

Backed by 65 Years of Expertise
You could purchase competitor products, but we are confident you won't find any that can compare to the quality and value of a Wearwell product.

Safety

69%

of occupational injuries are from slips, trips, falls and strains

Costs

\$42,152

Average cost of a single floor related injury

Performance

3.7

The average number of missed work days due to occupational injuries

Where To Start

With shrinking budgets and limited resources, it is getting more difficult than ever to effectively track all of the requirements of your facility.

Let us assist you and your purchasing distributor with a flooring and matting plan to meet your budget and needs. It all starts with a state of the art Wearwell Site-Survey as the first step.

What We Do

Assess the situation based upon your issues, concerns and budget.

How We Do It

A Wearwell expert will perform a complete assessment of your site and record the results using our state of the art mobile application.

What We Do

We provide a detailed report with recommendations for ergonomic flooring and matting to address the needs of your facility.

FULL BODY HARNESSSES

CHOOSING YOUR HARNESS

Look for quality in these features when selecting your harness.

1 DORSAL CONNECTION

The fall arrest point must be located on the back, positioned between the shoulder blades. Your harness must always include a dorsal attachment point.

2 WEBBING

Webbing is an important factor in the durability and safety of the harness. Ensure that the webbing is strong enough to endure rough use, exposure to sunlight and other elements without tearing or fraying. Specialty applications such as welding and electrical maintenance require the use of Nomex®/Kevlar® fibers or nylon that offers fire resistance or arc flash protection.

3 ADJUSTING POINTS

Whether you wear a harness 4 hours a day or 14, it needs to fit right for safety and comfort. Harnesses with adjusting points on the legs, waist (belt models), chest and torso allow a better fit.

4 LEG STRAPS

Depending on worker preference, leg strap fasteners may be available in different styles, including:

Tongue Buckle

Pass-Thru Buckle

Quick Connect Buckle

5 PELVIC SUPPORT

A sub-pelvic strap provides additional support, security and comfort for the user. Properly positioned, it better distributes forces during a fall.

EXOFIT™

The Industry's First Comfort Harnesses

ExoFit is the design that changed what workers expect from a harness.

It's our original comfort fit harness, with a single piece of material that wraps around you in the shape of an X. It dons without tangling and provides comfortable security. ExoFit remembers your adjustments. Snap three buckles and you're ready to work. Shoulder, hip and leg padding is built-in so it can't slip. A breathable lining guarantees you'll stay dry and comfortable.

ULTRA-SOFT EDGING
Moves with you. Doesn't rub or chafe.

TORSO BUCKLES
Hold straps firmly in place, adjust easily and complete the 5-point adjustment system.

CUSHIONED LEG AND HIP STRAPS
Comfortable and offer additional security during a fall.

QUICK CONNECT BUCKLES
Provide one-handed operation for fast, easy donning.

CUSHIONED SHOULDER PADS
Help minimize pressure on shoulders. Designed so they won't slip or slide off your shoulder.

BREATHABLE LINING
Immediately draws moisture away, keeping you dry and comfortable.

420 LB. CAPACITY

EASY-GRIP END TABS
Something secure to hang on to when adjusting the straps.

ANTI-TEAR BALLISTIC NYLON
Abrasion-resistant for rugged strength and durability. Twice the endurance of standard nylon or polyester.

REFLECTIVE PIPING
Enhances visibility in low light conditions.

BACK D-RING
Keeps you upright every time. 5,000 lb. minimum tensile strength.

EXO FIT™ XP

The Second Generation Full Body Comfort Harnesses

ExoFit™ XP made its mark as the industry's most comfortable harness. Its design incorporates a single piece of material that wraps around you in the shape of an X, for the ultimate in no-tangle donning and comfortable security. Its padding can be removed and cleaned. XP materials are soft and lightweight, yet extremely durable.

EASY-GRIP END TABS AND KEEPERS

For fast, efficient and secure web adjustment.

REMOVABLE PADDING

Cleaning is easy. Just throw it in the washer.

CUSHIONED LEG AND HIP STRAPS

Comfort and additional security during a fall.

QUICK CONNECT BUCKLES

Color-coded and provide one-handed operation for fast, easy donning.

ULTRA-SOFT EDGING

Moves with you. Doesn't rub or chafe.

420 LB. CAPACITY

Model Shown 1110103

CUSHIONED SHOULDER PADS

Keeps pressure off, absorbs shock, helps distribute weight in a fall. Designed so they won't slip or slide off your shoulder.

REFLECTIVE PIPING

Enhances visibility in low-light conditions.

INTEGRATED LANYARD KEEPERS

Prevent dangerous entanglements. They snap free when snagged.

SOFT, LIGHTWEIGHT WEBBING

Strong, yet isn't stiff or coarse.

3-D MESH AND BREATHABLE LINING

Allows moisture to evaporate and cool air to circulate, keeping you cool and dry.

STAND-UP DORSAL D-RING WITH IMPACT INDICATOR

It's spring-loaded, ensuring fast, easy and safe connections to a lanyard or SRL.

SUPERIOR X-DESIGN

A single piece of material in the shape of an X wraps around the wearer for the ultimate in comfort, security and no-tangle donning.

Harnesses: DBI-SALA® ExoFit™ XP

EXO FIT NEX™

The Ultimate Full Body Comfort Harnesses

ExoFit NEX™ harnesses are the newest, most advanced harnesses in the industry. They're the culmination of our experience with ExoFit™ and ExoFit™ XP, ongoing research and the incorporation of new materials and innovative features. When you purchase an ExoFit NEX™ harness, you can be certain that you're purchasing the finest harness available today, from DBI-SALA® or anyone else.

COMFORT • True to our NEX mission, we manufacture these harnesses using materials that won't add unnecessary weight.

FUNCTION • When speed and efficiency are project requirements, ExoFit NEX™ will provide the freedom and confidence to function at your maximum potential.

DURABILITY • ExoFit NEX™ harnesses are designed using materials that last.

REVOLVER™ VERTICAL TORSO ADJUSTERS

Simple and fast adjustments that eliminate loose ends and lock into place, preventing slippage.

HYBRID COMFORT PADDING

Lightweight, moisture wicking and breathable padding won't move or slip, always keeping the wearer comfortable.

TECH-LITE™ ALUMINUM D-RINGS

Extremely lightweight alloy commonly used in military and aerospace offers a higher level of security and comfort.

INTEGRATED TRAUMA STRAPS

Provide an adjustable, continuous loop for post fall, minimizing suspension trauma.

DUO-LOK™ QUICK CONNECT BUCKLES

Lightweight one-handed use with memory-fit web-lock ensures fast, non-slipping connections.

ULTRA-SOFT EDGING

Moves with you. Doesn't rub or chafe.

SUPERIOR X-DESIGN

A single piece of material in the shape of an X wraps around the wearer for the ultimate in comfort, security and no-tangle donning.

420 LB. CAPACITY

Model Shown 1113130

PROTECTIVE SHOULDER CAPS

Provide protection and comfort when carrying heavy materials.

MOLDED LANYARD KEEPERS

Easy holstered snap hooks break away to avoid trip hazard.

REFLECTIVE MATERIAL

For greater visibility in dark and dangerous environments, reflective material is integrated on legs, chest, shoulders and back.

BUILT-IN CARRYING POCKET

Conveniently holds and protects a cell phone, camera or other items.

REPEL TECHNOLOGY WEBBING

Water repellent to reduce attraction of mold and dirt—also has up to 5 times more abrasion resistance.

REVOLVER™ VERTICAL TORSO ADJUSTERS

STAND-UP DORSAL D-RING

Patented spring-loaded design automatically stands-up, ensuring fast, easy and safe connections to your fall arrest system.

Harnesses: DBI-SALA® ExoFit™ NEX™

3M™ DBI-SALA® ExoFit™ STRATA™ Full-Body Harness

The safety harness that won't weigh you down.

“Lighten up.” It’s what at-height workers have been trying to do for decades. That’s why we created the 3M DBI-SALA ExoFit STRATA Full-Body Harness. It features a first-of-its-kind load distribution system that literally takes the weight off workers’ shoulders, resulting in a harness that is more comfortable, cooler and lighter to wear.

- 1** Tech-Lite™ Aluminum Side & Dorsal D-Rings
Secure your safety

Maximize reliability without adding extra weight.

- 2** EZ-Link™ Quick SRL Adapter
Gets you connected quickly

Simplifies connecting and disconnecting your personal self-retracting line.

- 3** LIFTech™ Load Distribution System
Frees your shoulders

Redistributes the weight of the harness to your center of gravity to dramatically reduce fatigue.

- 4** PolarMesh™ Padding
Keeps your back cool

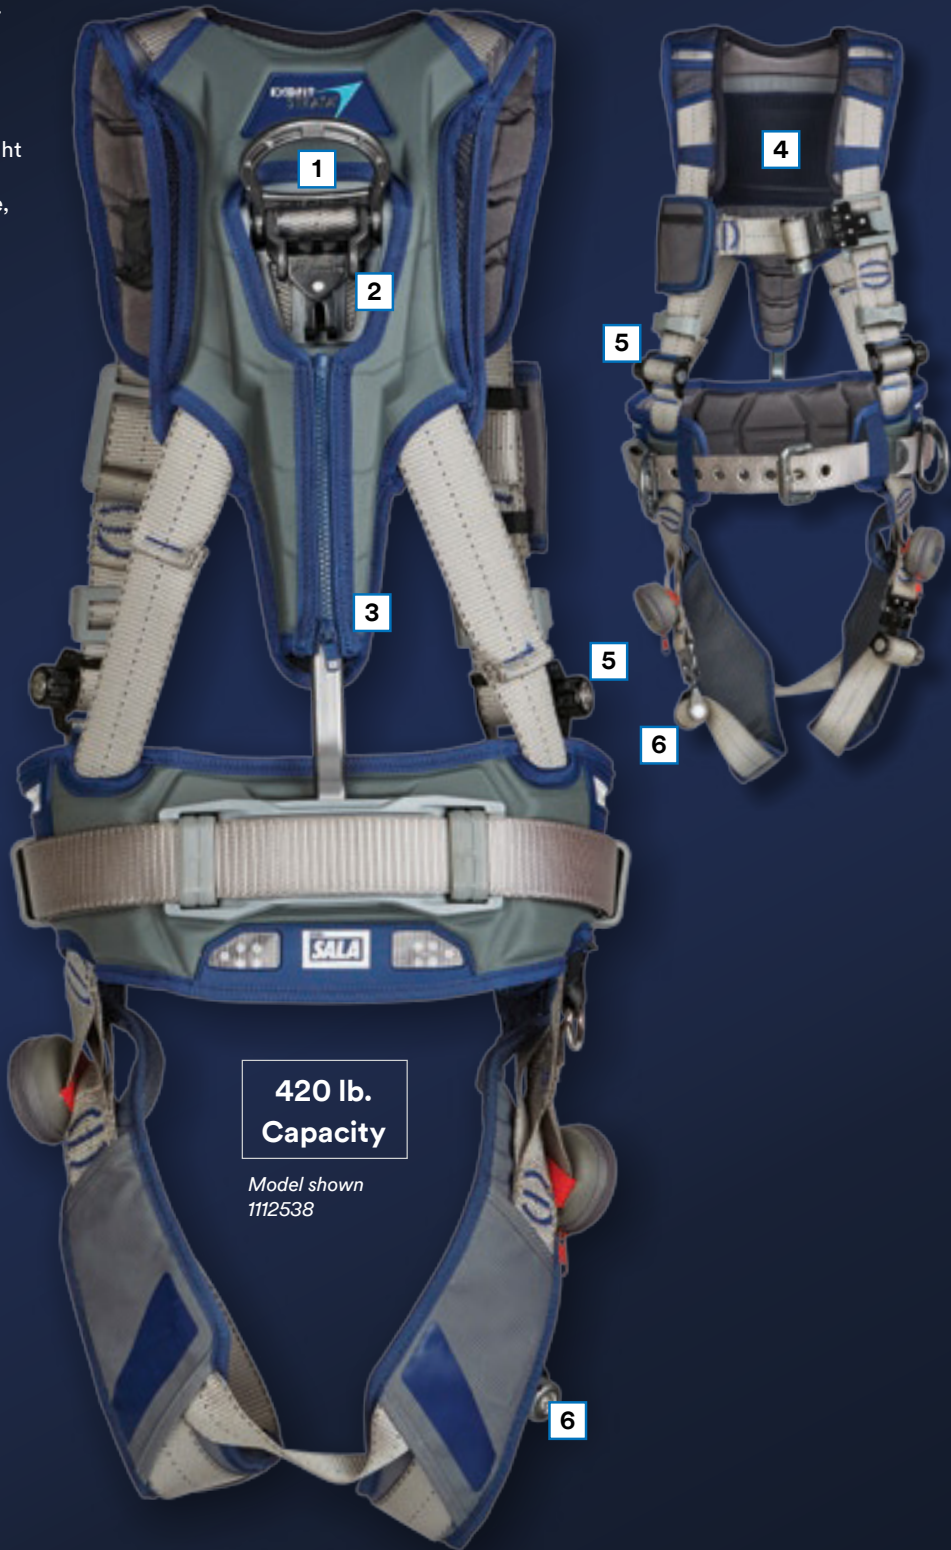

Allows greater airflow to your back, providing superior breathability to keep you cool.

- 5** Revolver™ Vertical Torso Adjuster
Unleashes your mobility

Easily stores excess webbing, locking it in place and out of your way while maintaining the perfect fit.

- 6** Tri-Lock Revolver Connectors
Lock down loose ends

Store additional excess webbing and provide an extra layer of security around your legs.

**420 lb.
Capacity**

Innovative, full body support for more than two decades.

New, improved Delta™ harnesses combine “industry-first” advancements with popular features that have made Delta™ the workhorse of the industry. Today’s Delta™ represents more than twenty years of design, research, manufacturing know-how and on-the-job performance.

Durable • Convenient • Comfortable

Delta™ harnesses are as tough as those who wear them. They have a shape of their own so you can don them quickly and easily. And Delta™ supports your back and hips while bearing heavy loads.

NO TANGLE DESIGN

Defining the Delta™ name, the patented triangular design creates a frame that allows the harness to fall into place when donned.

DELTA™ COMFORT HIP PAD

Improved ergonomic fit constructed with a soft, breathable, comfortable interior that supports your back and hips.

TECH-LITE™ QUICK CONNECT BUCKLES

Lightweight aluminum alloy buckles for fast and easy connections.

3M™ Inspection & Asset Management System

Enhance compliance.
Save time.
Be proactive.

With the 3M™ Inspection & Asset Management System, you're not just streamlining your safety and asset management process — you're giving yourself access to real-time data that can help you enhance worker protection. The advantages of having data at hand versus on file include:

- ▶ **Added compliance confidence**
Know at a glance the status of your workforce and equipment.
- ▶ **Data on demand**
Get a direct line of sight on selected compliance metrics in real time.
- ▶ **Pick your priorities**
Configure your workflow to meet different needs in different parts of your operation.
- ▶ **Account for your assets**
Gain improved traceability of high-value assets.
- ▶ **Sure and secure**
Put your trust in a high-security software platform with powerful encryption and multi-factor user authentication.
- ▶ **People, not paperwork**
Gain efficiency with everything entered and stored online, allowing you more time on the floor.

It's time for connected safety that's more personal.

3M™ Inspection & Asset Management System is the new way to stay compliant, audit-ready and data savvy.

1. Select

Choose the PPE and/or equipment to include in the Inspection & Asset Management System. The system will automatically load up-to-date documentation for most 3M PPE, but you can easily add details for non-3M PPE and equipment.

2. Tag

Attach the RFID tags to the PPE and/or equipment you want to enable. Barcodes or serial numbers can also be used.

3. Setup

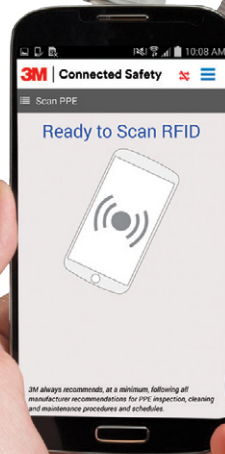

Enter the maintenance and inspection checklists you currently do on paper.

4. Enter

Load the employees, PPE and/or equipment you want to include into the database.

5. Go

That's it. You're now ready to manage your PPE and equipment program digitally.

3M always recommends, at a minimum, following all manufacturer recommendations for PPE inspection, cleaning and maintenance procedures and schedules.

Lanyards

CHOOSING A LANYARD

Look for quality in these features when selecting a lanyard.

1 WEBBING

Webbing must be strong enough to endure rough use and exposure to sunlight and other elements, without tearing or fraying. Nomex®/Kevlar® with fiber webbing should be used for applications such as welding or arc flash hazards. Webbing may also be coated with polyurethane for protection against grease, oil and grime. Cable lanyards offer extra durability and are ideal if you're working in abrasive or high-heat environments.

2 IMPACT INDICATORS

Impact indicators let you see if a shock absorber has been involved in a fall. Once an energy absorber has been deployed, the lanyard must be removed from service immediately and destroyed.

3 CONNECTOR/HOOK

DBI-SALA® patented snap hooks are popular because they allow one-handed use and won't pinch your thumbs or fingers. Lanyards can also be fitted with larger hooks or carabiners, for connection to larger anchorages.

4 LENGTH

The standard lanyard length is 6 ft. (1.8 m), but both shorter and longer length lanyards are available. A lanyard should be long enough to be user-friendly, but kept as short as possible to minimize the free fall distance.

Equipped with

TYPES OF LANYARDS

PACK STYLE SHOCK ABSORBING LANYARDS

These basic lanyards include a pack style shock absorber and pack style shock absorber and offer a variety of leg types (web, cable, or with Kevlar® fiber). They dissipate energy, limiting the forces on your body during a fall.

TUBULAR STYLE SHOCK ABSORBING LANYARDS

These lanyards feature an internal shock absorber that dissipates the energy of a fall. This style is available in both a traditional fixed length design and a "stretch" style that expands and contracts.

DOUBLE-LEG 100% TIE-OFF LANYARDS

Two lanyards that are connected at one end. This style of lanyard is used to provide 100% tie-off, allowing you to stay protected when moving from one location to another.

POSITIONING LANYARDS

Lanyards without shock absorbers, such as rope or web lanyards and chain rebar assemblies, are designed for positioning or restraint applications.

Fall Protection Product Considerations

Inspection and Product Life

Fall protection products should be inspected prior to each use, and that a "competent Person" should perform a formal inspection at least every 6 months.

Due to OSHA inspection requirements, 3M does not apply a mandatory shelf-life or expiration date on their fall protection products. It is a general recommendation that life expectancy for web goods (harnesses and lanyards) of 5 years from the date of manufacture be considered. This coincides with the recommended shelf life noted in ANSI A10.32-2004 (section 1 paragraph 1.4.4) standards.

OSHA 1910.66 and 1926.502 require no formal inspection period, only inspection by the user before each use. OSHA 1926.502(d)(21) specifically states: "Personal fall arrest systems shall be inspected prior to each use for wear, damage, and other deterioration, and defective components shall be removed from service."

ANSI Z359.1-2007 requires inspection by a "Competent Person", other than the user, at least once every year. While ANSI A10.32-2004 and ANSI A10.14-1991 require formal inspection by a "Competent Person" every 6 months.

How to Calculate Fall Distance

Fall distance must be calculated for each application where use of fall arrest systems are required.

Remember

LESS than 17 1/2 ft. of clearance, the use of a self-retracting lanyard is recommended (Figure A)

OVER 17 1/2 ft. of clearance, an energy absorbing lanyard or a self-retracting lanyard can be used (Figure B)

Figure B
3570 SafeStretch Lanyard

Figure A

NEW 3755- Self-Adhering Tape Trap

Captures Squids® Tool Tails™ to secure a safe connection to tools, and doesn't require heat to adhere the tape. Provides security and extra grip by quickly wrapping on a variety of hand tools, power tools, and other equipment.

NEW 3180- Tool Tethering Kit

The Squids® 3180 Tool Tethering Kit includes a 3130S Coil Lanyard, a 12-foot (3.7m) roll of 3755 Self-Adhering Tape Trap, and six 3700 Web Tool Tails. This kit allows you to tether up to six 2lb (0.9kg) tools.

Order #	Price	Per	Weight Cap	Length
720476-19755	24.05	EA	10 lb	12 ft

3001- Retractable Single Carabiner With Loop End

Retractable tool lanyard with stainless steel carabiner attachment and choking loop end. Locks into place at desired length preventing tangles and work under tension while securing tools.

Order #	Price	Per	Length	Anchor Hook	Weight Cap	Material
720476-19301	32.14	EA	48 in	Carabiner	2 lb	

Tool Holsters

DBI-SALA® Fall Protection for Tools Single Holster, Harness

Put your hand tools in a compact, user-friendly design that is loaded with innovative product features like Beacon™ Hi-Vis Reflectors and a water drainage vent.

Order #	Price	Per	Weight Cap	Material
852684-93141	51.82	EA	2 lb	Neoprene

DBI-SALA® Fall Protection for Tools Dual Holster, 2 Retractors, Harness

Premium heavy duty ballistic denier fabric and high-density webbing. Engineered for punishing environments. Heavy-duty 1" D-Rings are built into both sides of the holster and are load-rated for 5lbs. Neoprene pockets on the front and back of the holster each accommodate Steel Cable Retractors (2 retractors included).

Order #	Price	Per	Weight Cap	Material
852684-93162	82.73	EA	5 lb	Neoprene

DBI-SALA® Fall Protection for Tools Tape Retractor Holster

Tape measure holster with rear-feed retractor and Beacon™ High Visibility Reflectors. Fits most tape measure tools.

Order #	Price	Per	Weight Cap	Material
852684-93194	45.45	EA	1.5 lb	Canvas

DBI-SALA® Fall Protection for Tools Scaffold Wrench Holder with Retractor, Belt

Belt scaffold wrench holder with rear-feed retractor. Hook and Loop closure strap keeps tools secure. Rear-feed retractor system with 1.5 lb. capacity is perfect for tape measures and other small hand tools.

Order #	Price	Per	Weight Cap	Material
852684-93190	45.45	EA	1.5 lb	Canvas

DBI-SALA® Fall Protection for Tools Battery Holster/Sleeve

Allows cordless drills to be safely tethered when used at height. A neoprene sleeve with an adjustable strap conforms to the shape and size of virtually any drill battery, which can then be secured using the included cinch. 10 lb. capacity.

Order #	Price	Per	Weight Cap	Material
852684-93171	29.09	EA	10 lb	Neoprene

Tool Pouches

DBI-SALA® Fall Protection for Tools Small Parts Canvas Pouch

Small parts pouch, innovative self-closure system, canvas, black. 18oz duck canvas.

Order #	Price	Per	Weight Cap	Material
852684-93224	55.45	EA	5 lb	Duck Canvas

Tool Spill Control Buckets

Micro IV Single-gas Detector

GfG GfG Instrumentation

Gases

CH₃SH, Cl₂, ClO₂, CO, COCl₂, ETO, H₂, HCl, HCN, HF, H₂S, NH₃, NO, NO₂, O₂, O₃, PH₃, SiH₄, SO₂, THT

The Micro IV is compact, robust and very easy to use. It is designed to be used in the harshest environments. The Micro IV includes a set of rubber boots to withstand hard knocks and drops.

The Micro IV keeps gas detection simple. Most day-to-day functions are controlled with a single button, and calibration is fully automatic. The Micro IV delivers up to 3,000 hours of continuous operation from a single off the shelf AA alkaline battery.

The Micro IV carries a lifetime warranty on non-consumable components and two or more years of warranty on most sensors. Select sensors such as O₂, H₂S and CO carry a full three year warranty.

Standard Accessories:

- Micro IV detector
- Specified sensor
- Alkaline battery
- Rubber boot
- Manual

Value Kit Configuration:

- All standard accessories
- Calibration adapter
- Calibration gas
- Fixed flow regulator
- ABS carrying case

Features:

- Highly configurable smart sensor design
- Full 3-year warranty on O₂, CO and H₂S sensors
- Event / Datalogging standard
- Programmable ceiling (3), STEL & TWA alarms
- AutoCal® automatic calibration

GfG GfG Instrumentation

Micro IV Single-gas Detector

Highly configurable smart sensor design with a wide range of sensors. Optional sample draw pump. Large display with real-time readout. Event / Datalogging standard Programmable ceiling (3), STEL & TWA alarms. Vibrating Alarm standard AutoCal® automatic calibration. Full 3-year warranty on O₂, CO and H₂S sensors.

GfG GfG Instrumentation

GfG DI220 Micro IV Docking Station

The DI220 docking station for the Micro IV is an automatic system for calibrating and bump testing a Micro IV single gas detector through a data interface.

G450 Multi-gas Detector

The G450 Gas Detector offers exceptional performance for an extremely affordable price. The G450 four sensor multi-gas detector is compact, durable and very easy to use. The H₂S sensor offers 0.1 ppm resolution to comply with the latest TLV requirements. The G450 sensors are warranted for three full years, ensuring that the G450 has the lowest cost-of-ownership of any confined space gas detector on the market today. Replacement sensors carry the same three year warranty as the original sensors.

The G450 offers completely automatic calibration, one-button operation, top mounted display and interchangeable battery packs for up to 25 hours of continuous operation.

The optional motorized pump operates in diffusion and sample-draw modes, and can be easily attached or removed from the instrument when sampling needs change.

Standard Accessories:

- G450 detector
- Specified sensors
- Charger (if specified)
- Pump with 10 ft of tubing and probe (if specified)
- Calibration adapter
- Manual
- CD

Value Kit Configuration:

- All standard accessories
- Calibration gas
- Fixed flow regulator
- ABS carrying case
- Hand aspirated pump or motorized smart pump (if specified)

Features:

- MSHA Approved G450 and Smart Pump are available in all 3 configurations (alkaline, rechargeable and flashlight rechargeable)
- Compact and robust 1 to 4 sensor design
- Interchangeable battery packs for up to 25 hours of continuous operation
- Three color back light for easy identification of alarm conditions
- Standard event and datalogging
- Bright, flashing LED alarm lights visible from 360°
- Optional built-in "flash light" LEDs
- Full 3-year warranty on all sensors*
- Highly water resistant (IP 67)

GfG Gas Detectors Cont.

G460 Multi-gas Detector

The G460 is a rugged, compact instrument for simultaneous detection of up to six gases. The concussion proof housing, along with the highly dust and water resistant housing protects the instrument in the harshest environments. The G460 features completely automatic calibration, one-button operation, top mounted display and interchangeable battery packs for up to 24 hours of continuous operation. The rechargeable NiMH battery pack can even be equipped with optional "flash light" LEDs.

The G460 has a highly configurable smart sensor design and data logging / event logging are standard. There are a wide range of additional sensors available.

Options include a detachable, self-powered pump for sampling confined spaces prior to entry. It allows operation of the instrument in diffusion or sample-draw mode.

A full 3-year warranty is provided on most commonly used sensors (O₂, combustible, CO, H₂S and CO₂), which reduces the cost of ownership over the lifetime of the instrument. There is an optional 6-year warranty available at the time of purchase.

Features:

- Exceptional HAZMAT and Confined Space performance
- Up to 6 channels of detection, including...
- PID sensor for direct reading of toxic VOCs
- Infrared (NDIR) sensors for CO₂ and combustible gas (0% LEL - 100% volume)

Standard Accessories:

- G460 detector
- Specified sensors
- Charger (if specified)
- Pump with 10 ft of tubing and probe (if specified)
- Calibration adapter
- Manual

Value Kit Configuration:

- All standard accessories
- Calibration gas
- Fixed flow regulator
- ABS carrying case
- Hand aspirated pump or motorized smart pump (if specified)

RAE Systems Gas Detectors

Honeywell

AreaRAE Pro Gas Detector

The Rae Systems by Honeywell AreaRae Pro is a wireless, transportable area monitor that can simultaneously detect toxic and combustible gases, volatile organic compounds, radiation and meteorological factors that affect speed, direction and behavior of gas - for enhanced situational awareness. It works with Honeywell's remote monitoring software, so you can see the real time threat readings, alarm status, location of each AreaRae Pro and much more - and make faster, more informed safety decisions.

Honeywell

AreaRAE Pro RDK Detector Kit

The Rapid Deployment Kit (RDK) Detector Package includes 4 versatile GPS-enabled AreaRAE Pro monitors, each with up to 7 sensors and RAEMets. With The RDK, you have everything you need to create a perimeter and set up a command station up to two miles from the site. It all fits into a militarygrade protective case, which charges all the batteries during storage. The wireless network can scale up to 64 monitors, and the host controller can push the data in real time to any location via an Internet connection, for situational awareness in minutes.

Honeywell

AreaRAE Plus Gas Detector

The AreaRae Plus Systems by Honeywell is a transportable area monitor that can simultaneously detect toxic and combustible gases, volatile organic compounds, and meteorological factors that affect the speed and direction of the gas. Protect your community by monitoring a fence line, protect your employees during a maintenance turnaround, or protect your fire and hazmat teams during emergency response, the AreaRae Plus alerts you to threats with local audible and visual alarms. Plus it works with Honeywell's remote monitoring software to give you a real time view of threat readings from a safe location.

Honeywell

MultiRAE Lite/Pro Pumped Portable Multi-gas Monitors

This multi-gas monitor provides versatile, customizable detection and monitoring of up to six gases, available in both pumped and diffused air models. With more than 25 sensors to choose from - the broadest selection in its class - it can test for VOCs, combustibles, and a range of toxic threats, as well as monitor sufficient oxygen levels, making it an excellent choice for personal protection and leak detection in a range of industries and applications. The wireless connection sends threat and alarm data in real time to a central command, providing superior awareness for fast incident response. And its replaceable sensors, alarm, and battery, large screen, and automated bump testing and calibration make it easy to use and maintain.

RAE Systems Gas Monitors

Honeywell

MicroRAE Wireless Multi-gas Monitors

The MicroRAE is a handheld wireless diffusion instrument that simultaneously monitors up to four gases, including Hydrogen Sulfide (H2S), Carbon Monoxide (CO), Oxygen (O2) and Combustibles (LEL). With its wireless connectivity options, the MicroRAE can deliver real-time instrument readings and alarm status to the Honeywell ConneXt Safety Ecosystem. This enables continuous, instant visibility of safety threats for faster, more informed decisions, to protect workers, facilities, and the environment, and to optimize operations.

Order #	Price	Per	Sensor Configuration	Wireless	Kit
M031-1111	729.00	EA	LEL / H2S Filter / O2 / CO / H2S	Bluetooth	No

Honeywell

RAE Systems ConneXt Pack Wireless Confined Space Entry Kit

Preconfigured wireless gas monitors report hazardous gas information and man down alarms to a remote host controller. Delivers lifesaving value to plant, industrial and first response operations. Data retrieved from wireless gas monitors can alert attendants and incident commanders instantly of toxic gas situations, allowing them to respond more quickly in emergency situations. Pelican case with precut foam insert (can contain up to 4 gas monitors, 1 EchoView Host and accessories). Gas monitor calibration adapters. QRAE 3 and EchoView Host Quick Start Guide.

Honeywell

MiniRAE 3000 Handheld VOC Monitors

The rugged MiniRAE 3000 is the most advanced pumped handheld volatile organic compound (VOC) monitor on the market. Its Photoionization Detector's (PID) extended range of 0 to 15,000 ppm makes it an ideal instrument for applications from industrial to HazMat / Homeland Security.

Order #	Price	Per	Sensor Configuration	Wireless	Std Range	Kit
059-B110-000	4623.00	EA	PID	Non-Wireless	0-15000 ppm	No

059-B111-100	5591.00	EA	PID	Wireless	0-15000 ppm	No

Honeywell

QRAE3 Versatile Compact Personal Monitors

QRAE 3 is a versatile, rugged, one- to four-sensor pumped or diffusion gas monitor that provides continuous exposure monitoring of oxygen (O2), combustibles, and toxic gases, including hydrogen sulfide (H2S), carbon monoxide (CO), sulfur dioxide (SO2) and hydrogen cyanide (HCN) for workers and responders in hazardous environments. The QRAE 3's wireless communications capability enables access to real-time instrument readings and alarm status (including man-down alarm) from any location for better visibility and faster response.

Honeywell

ppbRAE 3000 Wireless Handheld VOC Monitors

Trusted by many of the world's leaders in CBRNE, HazMat Response, Civil Defense, Oil & Gas, and other hazardous environments. Using a 3rd gen photoionization detector (PID) and built-in correction factors for more than 200 compounds. It measures the presence of VOCs from 1ppb-10,000ppm with a three-second response time. Optional built-in Mesh Radio enables real-time monitoring of instrument readings wirelessly. And a rugged housing, large display, and large keys that can be operated with three layers of gloves all make for a unit that's easy to use and maintain.

Order #	Price	Per	Sensor Configuration	Wireless	Confined Kit
059-C110-000	7635.00	EA	PID: 10.6 eV lamp	Non-Wireless	No
059-C110-100	8243.00	EA	PID: 10.6 eV lamp	Non-Wireless	Yes

Honeywell

UltraRAE 3000 Portable VOC Monitors

The UltraRAE 3000 is the most advanced compound-specific monitor on the market and one of the few monitors that deliver accurate measurement of benzene from 50 ppb to 200 ppm and other VOCs up to 10,000 ppm. A 60-second response for a benzene measurement snapshot and a unique 15-minute benzene STEL measurement provide excellent versatility for entry pre-screening, marine spill response, and refinery downstream monitoring.

RAE Systems Gas Monitors Cont.

Honeywell

RAE Systems ToxiRAE Pro PID Personal Monitors For Volatile Organic Compounds (PGM-1800)

The world's smallest volatile organic compound (VOC) monitor. Featuring next-generation PID sensor, the ToxiRAE Pro PID can quickly detect and accurately monitor over 300 VOCs. Provides safety professionals wireless remote access to real-time instrument readings and alarm status for better visibility and faster incident response. With an onboard library of 190 correction factors, the ToxiRAE Pro PID can be programmed to automatically read in equivalent units of the specified compound. Calibration and test certificate. Warranty/registration card.

Honeywell

RAE Systems ToxiRAE Pro LEL Personal Monitor For Combustible Gases - % LEL (PGM-1820)

The ToxiRAE Pro LEL is the world's first wireless personal combustible gas monitor. Boasting the continuous data logging capability that comes standard and 34 built-in correction factors, the ToxiRAE Pro LEL enables measurement of combustible gas in % LEL of the selected compound.

Order #	Price	Per	Sensor Configuration	Wireless	Std Range
G02-B030-000	591.00	EA	LEL	Non-Wireless	0-100%
G02-B034-000	818.00	EA	LEL	Wireless	0-100%

Honeywell

RAE Systems ToxiRAE Pro Monitors for Toxic Gases and Oxygen (PGM-1860)

A wireless personal monitor for toxic gases and oxygen deficiency / enrichment. Boasting a selection of over 20 intelligent interchangeable sensors, the ToxiRAE Pro can detect a broad range of gases. The ToxiRAE Pro's plug-and-play intelligent sensors store calibration data, so just swap the sensor.

RAE Systems Gas Detection Tubes Cont.

Honeywell

RAE Systems Colorimetric Gas Detection Tubes

RAE Systems colorimetric gas detection tubes enable quick, on-the-spot measurement of a wide range of toxic and combustible gases and vapors. RAE Systems tubes are easy to read, and provide a sharp, clear color change directly corresponding to the concentration of gas present. RAE Systems tubes are compatible with the RAE Systems piston hand pump, a reliable way to draw samples of an exact volume required for the most accurate measurements. (10/pack)

How to Select Your Blackline Safety Program

CHOOSE YOUR DEVICE

G7^c

Cellular-connected Monitoring

- ③ G7c uses 3G cellular networks to wirelessly connect teams to live monitoring personnel
- ③ Industry-first two-way speakerphone
- ③ Graphical display with user-friendly menu
- ③ Two-way text messaging
- ③ Intrinsically safe

G7^x

Satellite-connected Monitoring

- ③ G7x leverages G7 Bridge portable base station to connect with 3G and satellite networks
- ③ Seamless transition to satellite when cellular unavailable
- ③ Graphical display with user-friendly menu
- ③ Two-way text messaging
- ③ Intrinsically safe

CHOOSE YOUR CARTRIDGE

G7c Standard

- ③ Lone worker monitoring (No added gas detection)

G7c Single-gas

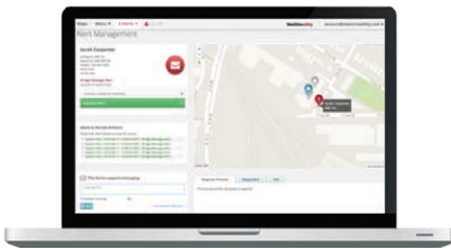

- ③ Choice of one gas sensor
- ③ H₂S, O₂, CO, NH₃, SO₂, Cl₂

G7c Quad-gas

- ③ Choice of two, three or four gas sensors
- ③ H₂S, LEL-IR, O₂, CO, NH₃, SO₂, Cl₂, LEL-Pellistor

CHOOSE YOUR SERVICE PLAN

Self-monitored

- ③ Your control room, supervisors or admin personnel monitor your team via Blackline Live web-based software (no installation)

Blackline-monitored

- ③ Full safety monitoring by Blackline's 24/7 Safety Operations Center
- ③ Blackline manages emergency response according to your custom response protocol

Two-way voice (G7c only)

- ③ When in alert, monitoring personnel can speak directly with the G7c user via industrial-strength speakerphone

ADD ACCESSORIES

Location Beacon

- ③ GPS signals alone are insufficient to accurately locate employees inside facilities
- ③ Beacons transmit positioning signals to ensure responders arrive at the correct location
- ③ Works with custom floor and site plans, loaded into Blackline Live software
- ③ Intrinsically safe

G7 Dock

- ③ Simple solution to calibrating, bump testing and charging G7 devices
- ③ Works with cloud-hosted Blackline Live web portal for device management and test data compliance tracking

Blackline Gas Detectors Cont.

Blackline Connected Safety Scenario

CUSTOMER SCENARIO — WASTEWATER

An American utility company is looking for a wireless gas detection system for their personnel working at a wastewater treatment plant. Their facility includes 27 employees with team supervisors but no centralized control room. The company has a dedicated training team who provide all internal employee training.

Customer requirements

- ④ Four-gas detection with H2S, LEL-IR, CO and O2, voice communications, Blackline 24/7 monitoring

blacklinesafety

Blackline Safety G7C / G7X Gas Detector

G7c with a standard cartridge functions as a connected personal safety and lone worker monitoring device, connecting workers to live monitoring personnel using 3G cellular networks. Connectivity is complemented by an industrial two-way speakerphone, text messaging and location tracking. Devices automatically watch over workers and call for help, even when the employee can't. G7c provides critical insights and situational awareness for optimized emergency responses. Should a fall be detected or a no-motion incident sensed, assisted-GPS capability guides responders directly to the effected worker's location. All safety incidents are communicated to Blackline's live monitoring teams who can mobilize responders to an employee's exact location or trigger scalable evacuations in real-time when required.

blacklinesafety

NEW Blackline Safety G7X Gas Detector Bridge

Lone worker monitoring device that connects workers to real monitoring personnel using cellular and the Iridium satellite networks. Complemented by two-way text messaging, providing critical insights on G7x's brilliant LCD screen. Devices automatically watch over workers and call for help. Provides situational awareness enabling teams to respond with all the information necessary for optimized rescues in hazardous environments. Should a fall be detected or a no-motion incident sensed, assisted-GPS capability guides responders. All safety incidents are communicated to Blackline's live monitoring teams who can mobilize responders to an employee's exact location. G7x communicates with G7 Bridge via an industrial-quality 900 MHz radio link from up to 2 km away.

AED's

ZOLL AED Plus • Features & Benefits

The ZOLL AED Plus is the only AED in the market today that:

- Helps rescuers through the entire resuscitation process with voice, visual, and text messages.
- Uses a unified electrode pad that guarantees accurate pad placement
- Supports CPR effectiveness by measuring compression and depth rate and prompts rescuer to push harder if necessary.
- Lowest total cost of ownership because CPR-D-Padz and batteries last 5 years, if not used.
- Rugged design that resists dust and direct water spray (IP55 Rating).
- Powered by 10 lithium batteries available from retail stores everywhere.

ZOLL

Zoll AED Plus with Cover

ZOLL AED Plus with AED Cover. CPR-D-padz® Electrode, pack of 10 CR123a batteries, and Carry Case - The ZOLL® AED Plus® provides the best support for resuscitating a victim of sudden cardiac arrest. The AED Plus is the first and only automated external defibrillator (AED) with Real CPR Help® technology that provides real-time feedback on depth and rate of chest compressions during CPR.

OSHA Requirements for Workplace First Aid Kits

OSHA standards do not require specific first-aid-kit contents. This includes the Medical Services and First Aid standards in both general industry and construction, 1910.151 and 1926.50. However, since some employers may find it useful to refer to a list of basic first aid supplies, federal OSHA provided a reference for this type of information by adding non-mandatory Appendix A to the latter two standards. Appendix A references ANSI Z308.1, Minimum Requirements for Workplace First Aid Kits and Supplies. First-aid kits in compliance with this standard will provide a basic range of products to deal with most types of injuries encountered in the workplace and may be adequate for a small worksite. Since Appendix A was added, ANSI has updated Z308.1 many times. The most recent edition (ANSI/ISEA Z308.1-2015) was approved on June 17, 2015, with an effective date one year from that date.

The 2015 edition introduces two classes of first aid kits, based on the assortment and quantity of first aid supplies.

z Class A kits are designed to deal with the most common workplace injuries, such as minor cuts, abrasions and sprains.

CLASS B

Class B kits include a broader range and quantity of supplies to deal with injuries in more complex or high-risk environments.

Employers should evaluate their own workplaces to determine whether additional supplies or kits are needed, based on the size and specific hazards of their workplaces.

Antiseptics

EXPERIENCE IN INNOVATION

For nearly 50 years, FG Clean Wipes' specialty wipers have set the industry standard for clean wiping performance. Today, our products are still manufactured to the same exacting standards. FG Clean Wipes uses those decades of research and development to produce a comprehensive line of specialty products, controlling contamination in the most critical environments.

Mop Covers

Texwipe AlphaWipe® Wipers Synthetic Mop Covers

Constructed from 100% continuous-filament polyester in a double-knit, no-run interlock pattern. Cleanroom laundered and packaged. Ultraclean and highly sorbent wiper ideal for critical environments. Laundered cut edge. It exhibits lower particle and fiber levels than competitive hot-cut or laser-cut products. 100% synthetic fiber (continuousfilament, double-knit polyester). Cleanroom laundered and packaged. Solvent-safe Bag-Within-A-Bag® cleanroom packaging. **(25 wipers per bag)**

Contec Vertiklean® Max™ Micro-fiber Mop Head

For unmatched absorbency, mop head features a single layer of hydrophilic polyurethane foam laminated to polyester fabric backed by a semi-rigid thermoformed plate that easily snaps onto a Vertiklean mop head frame. Vertiklean MAX has a slimmer profile for cleaning in tighter spaces. Vertiklean MAX also offers increased sorbency. The lightweight disposable Vertiklean MAX is ideal for general cleaning of ceilings, walls, and floors. **(4 wipers per bag)**

Contec Textured Edgeless® Mop, Polyester Tube Mop, White Tail Band

Patent-pending design. 100% polyester textured tube looped to form tubular mop strands, ribbed tubes provide sorbent capacity, textured headband provides additional scrubbing power for the removal of overspray, ISO Class 4 Cleanroom laundered, use with most common industrial mop handles, Contec offers a variety of stainless steel, anodized aluminum, and fiberglass handles.

Contec Vertiklean® Lightweight Polyester Disposable Mop Head

Developed for applying disinfectants and wet cleaning ceilings and walls in controlled environments. Designed for one-time use. Measures 12.75" x 4.25" x 1" (32.4 x 10.8 x 2.5cm). Comprised of polyester fabric laminated to clean ester foam which provides excellent abrasion resistance. Textured polyester face for those applications that require additional abrasion to improve particle removal from surface. Compatible with a wide range of chemicals and disinfectants. Lightweight, easy-to-manuever swivel frame slips inside the mop head allowing a full range of motion. Ideal for reaching awkward corners and ceilings. **(4 pieces per bag)**

Stationary

PIP 100-95-501 Clean Room Paper

Cleanroom Paper, 8.5 x 11", 22#. Paper's antistatic properties reduce attraction of airborne particles and enhance its performance in photocopiers and converting processes; Chemical and moisture resistant; Available in white, light blue, yellow, green and pink. Recommended for all controlled environments. **(250 sheets per pack)**

TexWrite® 22 TX

TexWrite® cleanroom bond papers reduce the risk of particle generation associated with standard papers. They feature good strength and excellent heat resistance, making them ideal for use in standard-duty and high-speed printers and photocopiers. **(250 sheets per pack)**

Tacky Mats

Purus Clean Room Mats

The multi-layered mat removes dirt and dust from foot traffic and equipment wheels prior to their entry into a clean or controlled environment. Each numbered layer is fully coated with a particle grabbing adhesive. Once the top layer is saturated, a quick and easy removal of that layer exposes the next layer and returns the mat to maximum efficiency.

PIP Contamination Control Mats

Superior Quality, recommended for all controlled environments. Numbered tabs, adhesive coating, multi-layered construction (0.05mm per layer).

FLAMMABLE LIQUID STORAGE

Cans
Cabinets

265-266
267-269

Cans

General Industry Codes & Typical Industry Convention

OSHA 29 CFR 1910.106 (a)(29):

Safety can shall mean an *approved container*, of not more than 5 gallons capacity, having a spring-closing lid and spout cover and so designed that it will safely relieve internal pressure when subjected to fire exposer.

OSHA 29 CFR 1923.152:

Only approved containers and portable tanks shall be used for storage and handling of flammable and combustible liquids. Approved metal safety cans shall be used for handling and use of flammable liquids in quantities greater than one gallon. For quantities of one gallon or less, only the original container or approved metal safety cans shall be used for storage, use and handling of flammable liquids.

RED FOR GASOLINE

BLUE FOR KEROSENE

YELLOW FOR DIESEL

GREEN FOR OIL

*OSHA requires flammables with a flash point below 80°F be in a red can with a yellow band.

Eagle Type I Safety Can

Eagle Type I Safety Cans meet OSHA and NFPA Code 30 requirements and are UL listed and FM approved for safe handling and storage of gasoline and other flammable liquids. They are lead free and constructed with 24-gauge hot dipped galvanized steel not lead coated terne steel like other manufacturers.

Eagle Type I Safety Can W/F-15 Funnel

Eagle cans are constructed of 24-gauge hot dipped galvanized steel, are deep drawn seamless, have a double interlock no-weld bottom seam, a baked on powder coat finish with a trilingual label, have a spring closing lid with neoprene gasket that vents at 5 psi internal pressure, have a nonsparking flame arrestor and pour spout.

048441-00468	58.00	EA	11 1/4 in x 10 in	Blue	2.5 gal

Eagle Type II Safety Can - Flex Spout

Eagle cans are constructed of 24-gauge hot dipped galvanized steel, are the only deep drawn seamless can made, have a double interlock no-weld bottom seam, a baked on powder coat finish with a trilingual label and 100 percent made in the USA. Red for safe handling and storage of gasoline and other flammable liquids (U211S).

Eagle Type II Safety Can

Eagle Type II Galvanized Steel Safety Cans feature two openings. One with a pressure-relief spring closing lid for filling and one with an actuated pour valve with a flexible metal spout for safer controlled dispensing. These cans meet OSHA and NFPA Code 30 requirements and are UL listed and FM approved.

Eagle Poly Waste Can

Eagle Poly Oily Waste Cans offer fire safe temporary storage of solvent, waste rags, shavings and other materials subject to spontaneous combustion. Won't rust or dent and are resistant to most chemical compounds. Eagle's cans feature self closing lid with foot lever.

Eagle Plunger Can

FM Approved safety plunger cans are ideal for cleaning with flammable or volatile fluids. Brass flame arrestor dasher screens and pump assemblies comply with OSHA standards. When dasher plate is pushed down the safety can dispenses a small amount of liquid to easily moisten sponges or rags without spills.

Cans Cont.

Justrite

Justrite Type 1 Steel Safety Can

Designed with a single spout for filling and pouring, the sealed lid features automatic positive-pressure relief that vents between 3 and 5 psig to guard against rupture/explosion. Made from high-grade coated steel. Each Justrite safety can is equipped with a stainless steel flame arrester which dissipates heat to stop flashback ignition.

Order #	Price	Per	Size	Color	Capacity

Justrite

Justrite® Type 1 Steel Safety Cans with Funnel

High performance, chemical resistant stainless steel flame arrester that stops flashback ignition. The extra long precision mesh screen is a full 3-1/2" (88 mm) to ensure safe insertion of gas nozzle. Self-closing lid controls vapors and spills. Leakproof, positive pressure relief cap automatically vents to guard against rupture or explosion.

Justrite

Justrite Plunger Dispensing Can

Made of chemically resistant Ryton® and brass, the pump base is designed to leave less liquid in the bottom before having to refill. Pushing down on the pump assembly fills the upper pan with liquid. Surplus liquid drains safely back into reservoir. The perforated upper pan serves as a flame arrester.

Justrite

Justrite Chem-Cor Lined Hazardous Material Safety Cabinet

Featuring the same quality features found in Justrite's flammable cabinets — including double-wall, 18-gauge (1mm) welded steel construction, 2" (51mm) liquidtight containment sump, dual vents, adjustable shelves, three-point stainless steel bullet self-latching doors with U-Loc™ padlockable handle and Haz-Alert™ reflective warning labels. An all epoxy baked-on powder-coat finish, inside and out, provides increased chemical resistance. ChemCor® thermoplastic coating on all interior surfaces provides superior protection against corrosion from drips and off-gassing from harsh chemicals. Seam-free surface eliminates the need for rivets or fasteners which risk corrosion from seep-through chemicals. Non-porous surface resists staining and cleans up easily. Self-close door(s) shuts and latches automatically when a fusible link melts at 165°F (74°C) under fire conditions. Unique, concealed selfclosing mechanism offers obstruction-free access to contents. Cabinets comply with NFPA 1, NFPA 400 Hazardous Material Code, and the International Fire Code. Cabinets are FM approved and come with a ten-year warranty.

Justrite

Justrite Hazardous Material Safety Cabinet

Justrite blue steel safety cabinets for corrosives have the same quality safety features as the cabinets for flammables. All models come with double-wall construction, dual vents, grounding wire connections, adjustable shelves, leakproof sills, threepoint self-latching doors and leveling feet. Self-close door(s) shuts and latches automatically when a fusible link melts at 165°F (74°C) under fire conditions. Unique, concealed self-closing mechanism offers obstruction-free access to contents. Additionally, they include polyethylene trays attached to galvanized steel shelves and a separate polyethylene liner for the bottom sump resist aggressive chemicals. Easily remove the liner for quick cleaning of drips and leaks. An all epoxy baked-on powder-coat finish, inside and out, provides increased chemical resistance.

EXCLUSIVE BENEFITS

- **Self-Closing Doors**
Required on all Hazardous Material Cabinets, the encased self-close mechanism provides obstruction-free access to top shelf space. Self-indexing doors close in sequence to ensure a tight closure from top to bottom.
- **U-Loc™ Door Handle**
Flush-mount Sure-Grip® handle comes with installed cylinder lock and key set. Accepts optional padlocks for added security.
- **Haz-Alert™ Reflective Labeling**
Firefighter friendly warning labels reflect with high visibility when illuminated with a flashlight. As required by code, cabinet must be labeled "Hazardous - Keep Fire Away".
- **Application Specific Labels**
Choose from a packet of 10 chemical specific labels, and apply to indicate contents of the cabinet.

A HISTORY OF RELIABILITY.

A name you can trust. Innovative absorbent and spill control products you can rely on.

Since its founding in Somerset, New Jersey nearly 40 years ago, SPC has been successfully developing, manufacturing and shipping absorbent products. Throughout the decades, our customers have relied on SPC products to help them prevent slips, trips and falls within their facilities.

Our Guiding Principles:

- Developing high quality products appropriately suited to your needs.
- Providing unmatched service levels.
- Leveraging our industry-leading sales force to recommend the right products for the right application.

Color your way to an improved workplace.

The BBP35 and BBP37 label printers give you the power to make signs and labels in the colors and shapes you need to make an impact – right when you need them.

- **Multiple print colors**
Color is more memorable, more effective and is the differentiator you need to effectively improve workplace safety and productivity
- **Shape cutting with the built-in XY plotter cutter (BBP37 only)**
Cut out shapes and text, or cut around your message to create labels that look and fit how you want them to

- **Label making made easy**
Incredibly easy and intuitive interface makes it ideal for multiple users, centralized locations and lean / 5S events
- **Automatic label setup**
Printer reads critical information from the supplies and then automatically sets up the label attributes in the printer so you can start printing immediately
- **Time saving**
20-second changeovers with drop in ribbon and label supplies

Unprecedented capabilities set the standard in safety and facility ID

There's big and bold. Then there's big and bold from Brady.

The BBP85 Sign and Label Printer allows you to create extra-large 10 inch labels in multiple colors, and it has an easier-than-ever interface that anyone on your team can use. No more complex, tedious design steps. Now you can just walk up and print – anyone can do it.

Big Output. Little Fuss.

Create custom signs and labels right now. This printer has our fastest, easiest operating system, so anyone on your team can design visuals with little to no training. The ideal printer for multi-user lean / 5S and kaizen labeling events.

Unmistakably large visuals up to 10 in. wide.

Just walk up and print – it really is that easy.

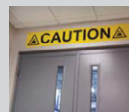

Simple touchscreen interface for standalone use, including label design apps to quickly create safety signs, pipe markers, GHS, arc flash, right-to-know labels and more.

Connect to your PC to print labels created through Brady Workstation apps.

USB port for importing files, fonts and graphics.

Big, bold and better than ever

High-resolution, high-speed full-color label creation.

Get the impactful color labels you need to create a safer, more efficient workplace. The BradyJet J5000 Color Label Printer is an on-demand, inkjet solution for creating photo-quality color labels for indoor use in a single pass, while reducing your inventory of labeling supplies and material waste.

- 4,800 dpi print resolution for high-resolution clarity and fine detail.
- Full-color photo reproduction and wide tonal range allows for labels with photos, graphics, illustrations, text, linear and 2D bar codes.

- More than 16 million color possibilities with only 4 ink cartridges.
- Large ink cartridges that reduce the amount of changeovers or replacements.
- Fast print speeds up to 6 inches per second.
- Print up to 5,000 high resolution labels per day, using only the ink and label materials needed to keep waste and inventory down.
- Variety of label options with 2 to 8 inch wide continuous and die-cut materials.

High-resolution and full-color identification throughout your facility

Brady Custom Signs

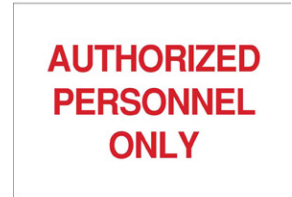

Safety Sign Headers (OSHA 1910.145 and ANSI Z535)

Messages such as “Warning” and “Caution” may seem synonymous, but they actually deliver very different messages. ANSI and OSHA specify that safety signs must indicate and define specific hazards that, without identification, may lead to accidental injury to workers, customers or the general public. The standard headers and definitions are listed below.

Brady Custom Signs Cont.

What is Proposition 65?

According to California's Proposition Warnings website, "Proposition 65 requires businesses to provide warnings to Californians about significant exposures to chemicals that cause cancer, birth defects or other reproductive harm." Ultimately, it's intended to help California residents make informed decisions about their exposure to these chemicals.

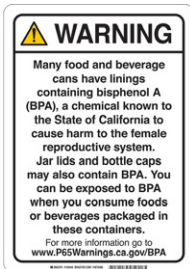

Why use Brady labels for the Prop 65 requirement?

Brady is the top trusted provider of labels and product identification needs. With the Proposition 65 regulation, it becomes more important for the labels that are placed on the products hold up to the tough conditions in order to warn the end user of potential health concerns.

For more details on Proposition 65, please visit www.p65warnings.ca.gov.

NEW Storage Bins & Organizers

INDUSTRIAL PLASTIC BINS & WAREHOUSE BIN STORAGE SYSTEMS.

From rugged and strong stackable storage bins to tough durable nesting shelf bins for the industrial, material handling and consumer markets. Our Industrial totes and containers, injection molded bins and complete bin systems offer a storage solution in any environment. Suitable for any type of application, Quantum's bins are large and tough enough for the storage of heavy power tools and yet optimal enough to keep your smallest items safely contained and organized.

Efficient, Permanent, and Economical. With brand names of Ultra, MAGNUM, HULK, Store-More, and Quick Pick, Quantum's bins are known quality, strength, and versatility. Let Quantum's Industrial bins and warehouse bin systems be your workable storage solution by increasing production efficiency, reducing and controlling inventories, shortening assembly times, and minimizing parts handling.

Building a world-class safety program? We can help.

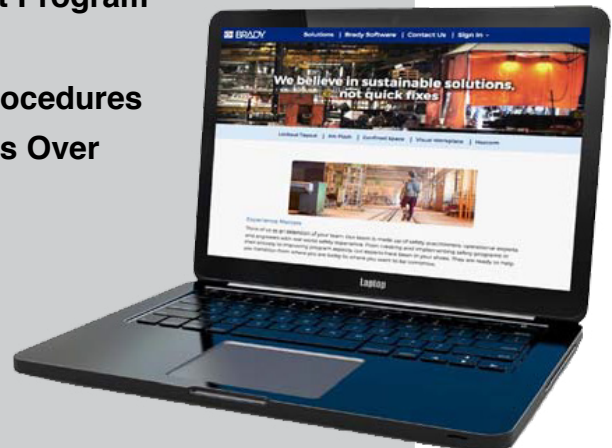

To help create and maintain a safer, more compliant and more productive workplace, Brady Safety offers a variety of on-site services. Our team of field engineers, safety solution owners, engagement specialists and project managers brings their industry and regulatory expertise right to your workplace to inventory and audit your current programs, train employees, create procedures and visuals, and more.

Contact R.S. Hughes for more information today to see how we can help improve your workplace with Brady.

▶ Don't miss our extensive collection of resources online:

- Leading Indicators for a Sustainable Lockout Program
- Lockout Tagout Program Checklist
- 7 Things to Avoid When Creating Lockout Procedures
- 5 Reasons to Choose an Engineered Analysis Over the Categories Method to Perform your Arc Flash Assessment
- Arc Flash Safety Check Up
- Examples of our Assessment and Audit Deliverables
- And More!

Lockout Procedure Services:

Lockout Machine Inventory & Assessment Service

Our team identifies and provides a snapshot of the equipment requiring lockout that you have on site, along with a detailed equipment list.

Visual Lockout Procedure Writing Service

Brady Safety Field Engineers apply their on-site experience and knowledge of OSHA's 1910.147 standard to create highly visual, standardized procedures that are easy to understand.

Annual Lockout Procedure Audit

Annual audits of your lockout procedures are an OSHA requirement to ensure your procedures remain up to date. Let us take the pain out of the process and complete your Annual Lockout Procedure Audit.

Lockout Tagout Program Services:

Lockout Program Gap Analysis

Our team will evaluate both the compliance and behavioral application of your lockout program to clearly identify any gaps and provide an action plan for improvement.

Lockout Program Development, Implementation & Training

A Brady Safety Engagement Specialist will assess your current lockout program elements and create your custom world-class program.

Lockout Tagout Training:

Lockout Train-the-Trainer

This session will empower your employees to become your lockout safety trainers by helping them understand how to effectively engage employees and facilitate both classroom and hands-on training.

Lockout Safety Training

We incorporate your custom program elements into the sessions, so your employees can go from classroom to on-the-floor application.

Training available for: Authorized Employees, Effected Employees and General Employees.

Arc Flash Services:

Arc Flash Risk Assessment

A Brady Safety Field Engineer will complete your assessment, provide you with a detailed assessment report including your single line diagram, and install the correct arc flash labels.

Arc Flash Audit

Let our Brady Safety Field Engineer perform your arc flash audit and ensure your assessment is up to date and compliant.

Arc Flash Safety Training

This custom approach to training incorporates both the NFPA regulation and your company-specific arc flash requirements to ensure participating employees will be able to apply their knowledge to your company-specific requirements.

Confined Space Services:

Confined Space Inventory and Classification

A Brady Safety Field Engineer will come onsite to evaluate the number of confined spaces and hazards, classify them as permit or non-permit required, and provide a detailed confined space inventory.

Visual Confined Space Procedure Writing

Our team will author and post your confined space entry procedures and label your spaces to comply with regulatory requirements and enhance employee safety.

Visual Confined Space Procedure Audit

Annual confined space audits are a workplace best practice to ensure your procedures are up to date. Let us take the pain out of the process and complete your Annual Confined Space Procedure Audit.

Custom Confined Space Training

We incorporate your custom program elements into the sessions so employees can go from classroom to application. Training includes: General Awareness, Attendant and Refresher.

Eye and Face Protection Warning

These eye and face protection products help provide limited eye and face protection. Misuse or failure to follow warnings and instructions may result in serious potential injury, including blindness or death. For proper use, selection, and applications against flying particles, optical radiation and / or splash see supervisor, read User Instructions and warnings on the package or call 3M PSD Technical Service in the USA at 1-800-243-4630. In Canada, call 1-800-267-4414.

Fall Protection Products Warning

Compliant fall protection and emergency rescue systems help prevent serious injury during fall arrest. Users must read and understand the User Instructions provided with the product and be properly trained by their employer prior to use per OSHA 1910.66 and 1926.503 or applicable local standards. Misuse or failure to follow warnings and instructions may result in serious personal injury or death. For proper use, see supervisor, User Instructions, or call 3M PSD Technical Service at 800-243-4630. In Canada, call 800-267-4414.

Hard Hat Warning

These hardhats provide limited protection only. Misuse or failure to follow warnings and User Instructions may result in serious personal injury or death. For proper use, see supervisor, or User Instructions, or call 3M PSD Technical Service in the USA at 1-800-243-4630. In Canada, call 1-800-267-4414.

Hearing Protection Products Warning

These hearing protectors help reduce exposure to hazardous noise and other loud sounds. Misuse or failure to wear hearing protectors at all times that you are exposed to noise may result in hearing loss or injury. For proper use, see supervisor, User Instructions, or call 3M PSD Technical Service in U.S.A. at 1-800-243-4630. In Canada, call Technical Service at 1-800-267-4414. If there is any drainage from your ear or you have an ear infection, consult with your physician before wearing ear plugs. Failure to do so may result in hearing loss or injury. Choking Hazard - Keep away from infants and small children.

Protective Coverall Warning

These protective coveralls help protect against certain liquid splashes and hazardous dusts. Before use wearer must read and understand the User Instructions provided as part of the product packaging. Failure to follow all instructions on the use of these protective clothing products and/or failure to wear the complete product during all periods of exposure may adversely affect the wearer's health, or lead to severe or life threatening illness or permanent disability. Final determination as to the suitability of these products for a particular use is the employer's responsibility. For proper use and selection see Supervisor, User Instructions or call 3M PSD Technical Service in USA at 1-800-243-4630. In Canada, call 1-800-267-4414.

Respiratory Products Warning

These respirators help protect against certain airborne contaminants. Before use, the wearer must read and understand the USER Instructions provided as a part of the product packaging. A written respiratory protection program must be implemented meeting all the requirements of OSHA 1910.134 including training, fit testing and medical evaluation. In Canada, CSA standards Z94.4 requirements must be met and/or requirements of the applicable jurisdiction, as appropriate. Misuse may result in sickness or death. For proper use, see packaging instructions, supervisor, or call 3M PSD Technical Service in USA at 1-800-243-4630 and in Canada at 1-800-267-4414.

Sorbent Product Warning

Failure to properly handle and dispose of sorbents contaminated by hazardous materials can result in serious physical injury or death and/or environmental harm. For proper handling, consult the Material Safety Data Sheet for the and health standards, contact your supervisor, or call 3M PSD Technical Service in the USA at 1-800-243-4630. In Canada, call 1-800-267-4414.

Welding Helmet Warning

This product is designed to help protect the wearer's eyes and face from harmful radiation including visible light, ultra-violet radiation (UV), infra-red radiation (IR), sparks and spatter resulting from welding processes. These products must be used only by qualified persons who are properly trained in their use and maintenance. Misuse may result in permanent eye injury and vision loss. Always wear ANSI Z87.1 compliant safety spectacles in addition to any welding helmet. For proper use, see supervisor, or User Instructions or call 3M PSD Technical Service in U.S.A. 1-800-243-4630. In Canada, call Technical Service at 1-800-267-4414.
