Customer-Focused Inventory

- We stock based on our customers needs locally. If you need a product and we don't stock it, request it and we will add it to our inventory for you.
- We adapt to your business processes to ensure that you have what you need to operate safely and efficiently.
- We maintain more than 50 warehouses throughout the United States and Mexico.
- We offer an extensive array of ISO 9002 Qualified Items from top manufacturers and brands.

No Minimum Purchase Necessary

- There is no minimum purchase amount at R.S. Hughes. Order precisely what you want, when you need it, without having to inflate your purchasing costs.
- Stocking what you need is our specialty. If you need a specific product stocked, contact us so that we can stock it for you in one of our 50+ international warehouses.

Many Ways to Order

- Online at rshughes.com
- By phone to speak to your personal sales representatives
- By Email or EDI
- Faxed purchase orders
- In person at any one of our warehouse locations.
- We accept payments via credit card and through instant credit. Quickly and easily set up instant credit with your first purchase.
- Pricing is Subject to Change.

We have strived to put the best, most popular products in this catalog. Unfortunately, everything just won't fit. If you need something that isn't in the catalog, we most likely have it.

If you would like some direction, have special application issues, need on-site training or just have questions, give us a call or send us an email at safety@rshughes.com. We are here to help. Thank you for your business.

Sincerely,

**George
Mallinckrodt**

At R.S. Hughes, we stand behind your right to

BUY WITH CONFIDENCE

Head to Toe Protection

The human body is an amazing machine capable of strength, speed and precision but it is also susceptible to injury. At R.S. Hughes we are fully committed to the safety of every part of your body - from head to toe. We work diligently to ensure every step of your order fulfills this objective. R.S. Hughes is watching your back in your work environment.

Try It Before You Buy It

Nothing beats actually seeing and holding the product in your hands before you buy it. Seeing is believing. Let us show you the actual product before you buy it. We will ship a sample or a specialist will bring it to you. There's confidence in knowing you are getting the right protection for the job!

100% Satisfaction - Guaranteed

If for any reason you are not satisfied with the product you received, we will replace it or credit you. And our nationwide network of safety specialists are available to visit your site and offer solutions.

Trial Order Program

Trial orders are available on a satisfaction-or-no-pay basis. The program lets end-users evaluate our products in their actual application and on-site condition, on a satisfaction-or-don't-pay basis to make sure that the products are right for the job.

Purchasing and Supply Solutions

3 Programs that provide solutions to the ever increasing demands of purchasing programs and fit a wide range of company sizes and requirements.

Solutions provided by our industry leading professionals. *It's ALL here!*

PURCHASING MANAGEMENT SOLUTION

Purchasing Management Solution allows you to build a robust internal requisition to approval process through our simple web interface. Streamline purchasing and control costs through a custom designed web experience that puts you in the driver's seat for requisitioner approvals, budget management, order thresholds, and in-depth reporting.

- Lower internal processing costs with increased speed and convenience
- Simple web interface
- Invite & manage requisitioners
- Approve, edit, or reject purchases
- Set automated spend & approval levels
- In-depth reporting with full visibility

INVENTORY MANAGEMENT SOLUTION

Our Inventory Management Solution combines technology with our professional support allowing you to focus on other business issues while we manage your consumable inventory. Dedicated R.S. Hughes professionals monitor and manage your replenishment process. A web based reporting suite provides full visibility, tracking, and transparency.

- Customized on-site consumable inventory management solution
- Internal time & cost savings
- Optimized stocking & consumable inventory levels
- R.S. Hughes monitors consumables & manages your replenishment process
- Flexible reporting suite with full visibility & tracking

INDUSTRIAL VENDING SOLUTION (VEND2SUPPLY)

The R.S. Hughes **Vend2Supply Solution** brings a secure, automated approach to your supply management with the greatest level of control, reporting, security, and cost savings. The Vend2Supply Solution takes Supply Management and Cost Control to the next level.

- Dedicated R.S. Hughes professionals monitor & manage consumable inventory levels
- 20 - 30% consumables cost reduction
- Eliminate hoarding, misuse, & theft
- Tightest security & control
- Direct user supply
- Simple touch screen access
- Employee level reporting and control
- Automated replenishment process
- Reduced downtime & improved productivity

National Purchasing Partners (NPP) is a cooperative purchasing organization offering a portfolio of competitively bid, publicly awarded contracts to public entities. NPP is owned by Virginia Mason Medical Center - a non-profit hospital. A large percentage of NPP's revenue supports medical research.

- 1** No cost to join.
- 2** No administration fees on your purchases.
- 3** Worry-free, stress-free benefits.
- 4** Enjoy special bid pricing without putting it out to bid.
- 5** Rely on a highly respected and nationally recognized contract that was competitively bid and publicly awarded.

— Freedom from bids is at your fingertips! —

For assistance call **877-RSHUGHES (877-774-8443)** or email npporderalert@rshughes.com to contact the nearest R.S. Hughes location. All R.S. Hughes locations are trained and available to assist you with your NPP procurements. Be sure to ask about becoming an NPP member.

Bump Caps

Skullerz 8960 Bump Cap w/ LED Lighting Technology Long Brim

Protection against cranial bumps and bruises from a state-of-the-art shell; comfort and style from a very cool lid. Built-in LEDs illuminate projects without a flashlight or bulky headlamp. Powered by four CR2032 lithium ion batteries (included). LEDs emit 48 lumens; battery life of approximately 30 continuous hours.

Order #	Price	Per	Color	Size	Brim
720476-23375	\$40.08	EA	Blue		Cap Style

Skullerz 8945 Universal Bump Cap Insert

Skullerz Universal Bump Cap Insert is a lightweight, impact-resistant shell that inserts into any baseball cap, hat or other headwear for additional head protection. It helps protect against bumps, scrapes, bruises and other minor head injuries.

Order #	Price	Per	Color	Size	Brim
ERGODYNE 23380	\$6.08	EA	Gray

Noise Detection Solutions & Fit Testing

E-A-Rfit Dual-Ear Validation System

3M E-A-Rfit Validation System Dual-element, dual-microphone assembly is the key to the system, measuring sound levels inside and outside the hearing protector. Science-based, quantitative testing gives accurate reports of hearing protection. Fast, clear, accurate results are obtained in just seconds and can be printed or saved electronically for future reference. System determines personal attenuation rating (PAR) of individual workers and helps remove measurement, fitting, and spectral uncertainty. (1/case)

Order #	Price	Per
051141-56764	\$2,416.46	EA

Program Documentation

E-A-Rfit Dual-Ear Validation System testing sessions produce a validation document that can be kept in each employee's file, providing documentation of your commitment to training and compliance with OSHA hearing conservation program guidelines.

- Features easy-to-read test results for both ears as well as testing history
- Creates digital and printable reports for both employee and company records
- Provides a direct measurement of noise reduction in decibels
- Provides an estimate of test variability

RESPIRATOR FIT TESTING SERVICES

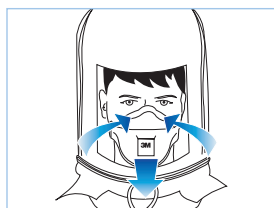

PROVIDED BY R.S. HUGHES

Checking that a respirator, with a tight fitting facepiece, provides an adequate seal to the wearer's face has long been considered best practice as part of a general Respiratory Protection Program. Respirators with tight fitting facepieces include disposable respirators, half masks and full-face masks, including those that form part of a powered or air-fed respirator.

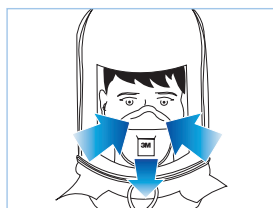

OSHA 191.134 requires fit testing should be carried out:

- Before the respirator is issued
- On all wearers of respirators with tight fitting facepieces where fit testing as previously not been performed

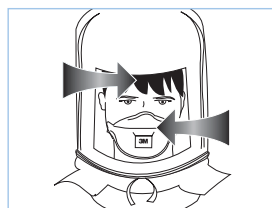

The 7 Fit Tests

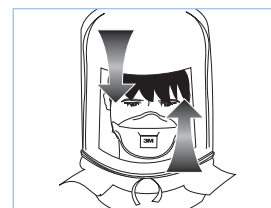

1. Breathe normally

2. Breathe deeply

3. Head side to side

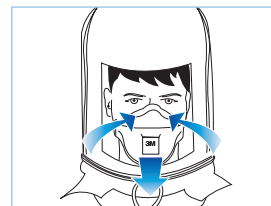

4. Head up and down

5. Bent over at waist

6. Talking

7. Breathe normally

Fit testing should be repeated at appropriate times such as:

- If the wearer significantly loses or gains weight, has major dental work or sustains a major facial injury
- If a different size or model of RPE is specified
- At least annually or when specified by the company policy eg. at time of health surveillance check

Fit testing is in addition to the requirement to perform a fit check prior to each use as a gross determination of suitable fit.

**Contact R.S. Hughes to schedule a
Respirator Fit Test.**

Disposable Cartridge Respirators

Coated Gloves: Latex

KSR® 22-515

Vinyl coated glove is extremely comfortable for long-wearing light-duty work. Interlock knit lining stretches to a comfortably snug, sensitive fit. Outwears 8-ounce cotton gloves by at least 6-to-1. Coating breathes for ventilation. Superior grip and liquid repellency. Launderable, won't shrink, stiffen or lose grip.

HyFlex® 11-600

Where dexterity is the key factor, HyFlex® Lite is the perfect choice. The fine gauge nylon liner keeps hands cool and comfortable, while the palm coating provides great grip and abrasion resistance. The liner is naturally low linting so they're ideal for the electronics industry, aerospace, or any other controlled environment applications. Silicone free.

HyFlex® 11-624 Coated Knit Glove

Provide comfort and dexterity. Easy to wear during long working hours, they also offer users a "cool feeling". Secure grip on dry to slightly oily pieces for sure handling in a wide range of environments. The liner is made with a yarn structure containing Dyneema®. It therefore offers strong cut resistance for the safe handling and assembly of sharp pieces.

Ansell

HyFlex® 11-627 Coated Knit Glove

Delivers a perfect balance of comfort and sure handling with superior cut resistance. The liners have an innovative yarn structure that contains an optimal rate of Dyneema®. This offers high levels of cut resistance, for a safe use in controlling, handling and assembly applications involving contacts with sharp pieces. Designed for use in dry, as well as slightly oily environments.

Cut Resistant Gloves

Cut resistant gloves and sleeves are designed to protect hands from direct contact with sharp objects such as glass and metal. The level of cut resistance provided is a combination of material composition and weight. Performance of a glove can also be affected by coatings applied to the surface which can also offer enhanced grip. Common cut resistant fibers include:

HPPE: High performance polyethylene fibers offer maximum strength with minimum weight. HPPE is 10 times stronger than steel by weight as well as 40% stronger than aramid fibers offering a softer, cooler alternative.

Aramid: The most common brand name is Kevlar®. It is 5 times stronger than steel and provides great tensile strength. Due to its inherently flame resistant nature, it will not melt and offers heat protection up to 320°F based on product design.

Spectra: A polyethylene fiber that is 10 times tougher than steel per unit weight offering high cut resistance even when wet. Its low lint and flexible nature make it ideal for use in food processing.

Taeki5: A blended yarn made of Taeki5®, fiberglass and synthetic fibers that delivers high cut resistance without sacrificing dexterity and tactile sensitivity.

Blended Shells: The introduction of steel and glass to HPPE and aramid help to significantly increase levels of cut protection while helping maintain comfort and fit.

***WARNING: Remember that no product is cut proof.**

There are two different standards to measure cut performance:
The European Standard EN 388 and the ANSI/ISEA 105 Standard for the U.S.

EN 388: EN 388 uses the coup test method based on a circular blade moving back and forth across the sample under a fixed load of 500 grams. In other words, it simulates the number of repetitive cut needed to cut through the fabric using a constant load. The results are then compared to the cut results of a cotton canvas. For example, a cut level of 5 means that it is 5 times more cut resistant than the reference cotton.

Performance Level	Average Cut Index
0	<1.2
1	1.2 - 2.4
2	2.5 - 4.9
3	5.0 - 9.9
4	10.0 - 19.9
5	> 20

Cut Resistant Gloves: ANSI Level 5

Ansell

Vantage® 70-765

Durable leather pad double-stitched with DuPont™ Kevlar® fiber to ensure superior grip and protection against sharp snags and punctures. Engineered yarns provide high cut protection-to-weight ratio. Ten-gauge, mediumweight cut resistant yarn and reinforced thumb crotch. Protection all the way to the fingertips. Protects hands from intermittent heat contact up to 200°F.

Original Glove

Despite its imitators, our Original® glove remains in a category all its own. Tried, tested and proven for over 20 years, it provides the perfect blend of flexibility and protection. Durable synthetic leather palm, form-fitting stretch Spandex top, and a flexible TPR wrist closure allow for a secondskin fit. With a gamut of practical uses, it's no surprise that The Original® is the most recognized and most frequently worn glove by anyone with a toolbox.

Fast Fit Glove

Professionals and enthusiasts agree - the Fast Fit® glove is a toolbox must-have. Form-fitting stretch panels between your fingers provide a snug fit and the elastic cuff offers easy on and off flexibility between tasks. Durable synthetic leather is anatomically cut around your palm for better wear when handling tools. Your hands will stay cool, dry and comfortable with moisture-wicking TrekDry® material covering your wrist, thumb and fingers.

Arc Flash Protection

Arc Flash PPE Levels

PPE 1

Minimum Arc Rating of 4 cal / cm²

Arc-Rated Clothing

- Arc-rated long sleeve shirt and pants or arc-rated coverall
- Arc-rated face shield or arc flash suit hood
- Arc-rated jacket, parka, rainwear, or hard hat liner (As Needed)

Protective Equipment

- E-rated hard hat
- Safety glasses or safety goggles (Selection Required)
- Hearing protection (ear canal inserts)
- Heavy duty leather gloves
- Leather footwear (As Needed)

PPE 2

Minimum Arc Rating of 8 cal / cm²

Arc-Rated Clothing

- Arc-rated long-sleeve shirt and pants or arc-rated coverall
- Arc-rated flash suit hood or arc-rated face shield and arc-rated balaclava
- Arc-rated jacket, parka, rainwear, or hard hat liner (As Needed)

Protective Equipment

- E-rated hard hat
- Safety glasses or safety goggles (Selection Required)
- Hearing protection (ear canal inserts)
- Heavy duty leather gloves
- Leather footwear

PPE 3

Minimum Arc Rating of 25 cal / cm²

Arc-Rated Clothing Selected so that the System Arc Rating Meets the Required Minimum Arc Rating

- Arc-rated long-sleeve shirt (As Required)
- Arc-rated pants (As Required)
- Arc-rated arc flash suit jacket (As Required)
- Arc-rated arc flash suit pants (As Required)
- Arc-rated arc flash suit hood
- Arc-rated gloves
- Arc-rated jacket, parka, rainwear, or hard hat liner (As Needed)

Protective Equipment

- E-rated hard hat
- Safety glasses or safety goggles (Selection Required)
- Hearing protection (ear canal inserts)
- Heavy duty leather gloves
- Leather footwear

PPE 4

Minimum Arc Rating of 40 cal / cm²

Arc-Rated Clothing Selected so that the System Arc Rating Meets the Required Minimum Arc Rating

- Arc-rated long-sleeve shirt (As Required)
- Arc-rated pants (As Required)
- Arc-rated arc flash suit jacket (As Required)
- Arc-rated arc flash suit pants (As Required)
- Arc-rated arc flash suit hood
- Arc-rated gloves
- Arc-rated jacket, parka, rainwear, or hard hat liner (As Needed)

Protective Equipment

- E-rated hard hat
- Safety glasses or safety goggles (Selection Required)
- Hearing protection (ear canal inserts)
- Heavy duty leather gloves
- Leather footwear

New Categorization

The merge of the ANSI/ISEA 107 (roadway) and ANSI/ISEA 207 (public safety) standards created the need for garment type classification based on the work environment and the level of protection needed.

Type O

Off-Road Use (Class 1 only)

Provides added visibility to workers who are not exposed to traffic.

Type R

Roadway Use (Class 2 & Class 3)

Enhanced visibility for workers who are exposed to traffic and working against complex backgrounds.

Type P

Public Safety (Class 2 & Class 3)

Enhanced visibility for emergency and incident responders and law enforcement personnel in both roadway and off-road environments.

Hi-Vis Clothing: ANSI Level 2 Vests Cont.

SELECTING A SEAM

Before choosing a protective garment, a detailed hazard and risk assessment must be performed. Engineering controls are the first step to mitigating any hazard. When exposure to hazards cannot be engineered completely out of normal operations or maintenance work, and when safe work practices and other forms of administrative controls cannot provide sufficient additional protection, a supplementary method of control is the use of protective clothing.

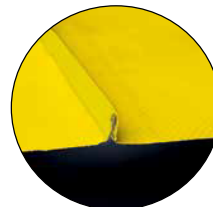

"If your application requires a chemical resistant taped seam, you should ensure that the tape offers appropriate resistance to the chemical involved."

A SERGED SEAM:

A basic stitched seam that's appropriate for exposure to non-hazardous substances. Overlap stitching provides strength and durability.

A BOUND SEAM:

A serged seam that's reinforced with binding for strength and tear resistance.

A TAPED SEAM:

A serged seam reinforced with a film tape that's resistant to water and many liquid chemicals*

KleenGuard A30

KleenGuard™ A30 Coverall w/ Zipper Front

Designed to be 7-1/2 times less likely to rip out than ANSI minimums - provides 12% more chest room and 6% longer body length. Ideal for nonstop contact with dirt, grime where light splashes exists. Patented Microforce® barrier SMMMS filters out many water-based liquids and dry particulates. Strong and abrasion resistant. Seamless front.

Tychem® 2000 SFR Coverall

Chemical and secondary flame resistance in a lightweight garment. Provides an effective barrier against a range of chemicals, as well as secondary flame resistance. Protect against a multitude of inorganic acids and bases as well as a range of industrial cleaning formulations. In the case of a flash fire, the coveralls won't ignite, and won't contribute additional burn injury if appropriate FR apparel is worn beneath.

Floor Matting

The Power of Innovation and Partnership

The Wearwell Site-Survey Process — Providing Optimal Ergonomic Flooring Solutions

You can improve safety, performance and morale with the right surface solution!

What can you gain from a Site-Survey?

No matter if you are a safety or facility manager looking to improve safety and performance, or an operations manager interested in reducing costs and meeting regulations, a Site-Survey can offer opportunities to help meet your goals.

- ◇ Improve Safety Performance
- ◇ Prevent Lost Time
- ◇ Manage Risk and Compliance
- ◇ Reduce Down-Time
- ◇ Heighten Morale & Productivity

Safety

69% of occupational injuries are from slips, trips, falls and strains

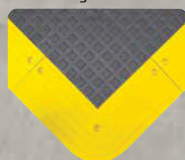

Costs

\$42,152 Average cost of a single floor related injury

Performance

3.7 The average number of missed work days due to occupational injuries

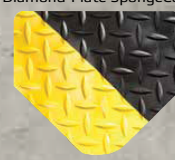

ErgoDeck®

Rejuvenator®

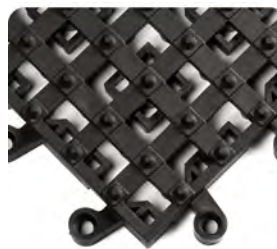

Diamond-Plate SpongeCote®

552- ErgoDeck® No-Slip Kit

ErgoDeck No-Slip Kit provides a cleated, solid-top surface design, so that particulates and debris do not fall through to the floor. Can be power washed or swept clean with a stiff broom. Ergonomic design effectively combats standing fatigue, while the No-Slip Cleats help prevent unwanted slips and falls. (1/case)

WEARWELL

347- H.T. Runner

Perfect solution for High Temperature and High Traffic areas where antifatigue isn't the primary objective. As a high temperature solution, the specially formulated rubber has an extraordinarily high melt point for demanding welding applications. As a high traffic solution the textured rubber surface assures solid footing and can be used for semipermanent installations with common mastics.

WEARWELL

370- Elevate AFR- Drainage Mat

Designed specifically to perform in the highly regulated food processing and preparation industries. It is made from a flexible animal fat resistant DINP plasticized PVC with Steritouch additives so it is resistant to animal fats and oils. The widely spaced grid design allows fluids and by-products to fall through while elevating employees above. Easy to install, clean, roll up and move.

WEARWELL

371- Elevate OR- Drainage Mat

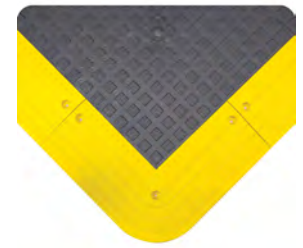

Elevate OR was designed specifically to provide traction and drainage in a wide range of manufacturing operations. The widely spaced grid design allows fluids and debris to pass freely while elevating employees above it. Elevate is up to 1/3 the weight of conventional rubber drainage mats so it is easy to install, clean, roll up and move.

WEARWELL

566- ErgoDeck® General Purpose Solid Kit

Provides a stable, solid, and resilient foundation underfoot. It features a raised textured design that provides sure footing while enhancing workplace aesthetics. Made with a softer compound for greater anti-fatigue benefit. Ideal for heavy foot and light cart traffic. The raised surface design delivers substantial traction and 6" wide borders on 3 sides prevents trips.

Floor Matting Cont.

410- Airug® 3/8"

Airug® showcases an improved embossed top surface that enhances the mat's slip resistance while providing increased worker fatigue relief. The PVC closed cell foam construction relieves leg and back discomfort while providing a barrier to cold floors. Airug® is intended for applications where basic anti-fatigue relief is required at a low cost.

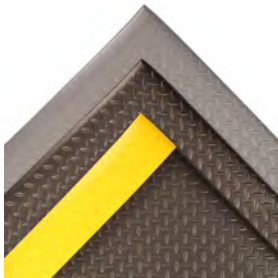

419- Diamond Sof-Tred™ with Dyna-Shield®

A durable anti-fatigue mat with a non-directional diamond deck plate top surface that allows for sure footing. Exclusive Dyna- Shield® PVC sponge is manufactured with a tough protective top layer that provides long lasting wear and tensile strength. Use in medium duty dry work areas such as labs, packaging stations, and shipping departments.

FULL BODY HARNESSSES

CHOOSING YOUR HARNESS

Look for quality in these features when selecting your harness.

1 DORSAL CONNECTION

The fall arrest point must be located on the back, positioned between the shoulder blades. Your harness must always include a dorsal attachment point.

2 WEBBING

Webbing is an important factor in the durability and safety of the harness. Ensure that the webbing is strong enough to endure rough use, exposure to sunlight and other elements without tearing or fraying. Specialty applications such as welding and electrical maintenance require the use of Nomex®/Kevlar® fibers or nylon that offers fire resistance or arc flash protection.

3 ADJUSTING POINTS

Whether you wear a harness 4 hours a day or 14, it needs to fit right for safety and comfort. Harnesses with adjusting points on the legs, waist (belt models), chest and torso allow a better fit.

4 LEG STRAPS

Depending on worker preference, leg strap fasteners may be available in different styles, including:

Tongue Buckle

Pass-Thru Buckle

Quick Connect Buckle

5 PELVIC SUPPORT

A sub-pelvic strap provides additional support, security and comfort for the user. Properly positioned, it better distributes forces during a fall.

EXOFIT™

The Industry's First Comfort Harnesses

ExoFit™ is the design that changed what workers expect from a harness.

It's our original comfort fit harness, with a single piece of material that wraps around you in the shape of an X. It does without tangling and provides comfortable security. ExoFit™ remembers your adjustments. Snap three buckles and you're ready to work. Shoulder, hip and leg padding is built-in so it can't slip. A breathable lining guarantees you'll stay dry and comfortable.

ULTRA-SOFT EDGING

Moves with you.
Doesn't rub or chafe.

TORSO BUCKLES

Hold straps firmly in place, adjust easily and complete the 5-point adjustment system.

CUSHIONED LEG AND HIP STRAPS

Comfortable and offer additional security during a fall.

QUICK CONNECT BUCKLES

Provide one-handed operation for fast, easy donning.

CUSHIONED SHOULDER PADS

Help minimize pressure on shoulders. Designed so they won't slip or slide off your shoulder.

BREATHABLE LINING

Immediately draws moisture away, keeping you dry and comfortable.

**420 LB.
CAPACITY**

EASY-GRIP END TABS

Something secure to hang on to when adjusting the straps.

ANTI-TEAR BALLISTIC NYLON

Abrasion-resistant for rugged strength and durability. Twice the endurance of standard nylon or polyester.

REFLECTIVE PIPING

Enhances visibility in low-light conditions.

BACK D-RING

Keeps you upright every time. 5,000 lb. minimum tensile strength.

EXOFIT NEX™

The Ultimate Full Body Comfort Harnesses

ExoFit NEX™ harnesses are the newest, most advanced harnesses in the industry. They're the culmination of our experience with ExoFit™ and ExoFit™ XP, ongoing research and the incorporation of new materials and innovative features. When you purchase an ExoFit NEX™ harness, you can be certain that you're purchasing the finest harness available today, from DBI-SALA® or anyone else.

COMFORT • True to our NEX mission, we manufacture these harnesses using materials that won't add unnecessary weight.

FUNCTION • When speed and efficiency are project requirements, ExoFit NEX™ will provide the freedom and confidence to function at your maximum potential.

DURABILITY • ExoFit NEX™ harnesses are designed using materials that last.

REVOLVER™ VERTICAL TORSO ADJUSTERS

Simple and fast adjustments that eliminate loose ends and lock into place, preventing slippage.

HYBRID COMFORT PADDING

Lightweight, moisture wicking and breathable padding won't move or slip, always keeping the wearer comfortable.

TECH-LITE™ ALUMINUM D-RINGS

Extremely lightweight alloy commonly used in military and aerospace offers a higher level of security and comfort.

INTEGRATED TRAUMA STRAPS

Provide an adjustable, continuous loop for post fall, minimizing suspension trauma.

DUO-LOK™ QUICK CONNECT BUCKLES

Lightweight one-handed use with memory-fit web-lock ensures fast, non-slipping connections.

ULTRA-SOFT EDGING

Moves with you. Doesn't rub or chafe.

**420 LB.
CAPACITY**

Model Shown 1113130

PROTECTIVE SHOULDER CAPS

Provide protection and comfort when carrying heavy materials.

MOLDED LANYARD KEEPERS

Easy holstered snap hooks break away to avoid trip hazard.

REFLECTIVE MATERIAL

For greater visibility in dark and dangerous environments, reflective material is integrated on legs, chest, shoulders and back.

BUILT-IN CARRYING POCKET

Conveniently holds and protects a cell phone, camera or other items.

REPEL TECHNOLOGY WEBBING

Water repellent to reduce attraction of mold and dirt—also has up to 5 times more abrasion resistance.

REVOLVER™ VERTICAL TORSO ADJUSTERS

STAND-UP DORSAL D-RING

Patented spring-loaded design automatically stands-up, ensuring fast, easy and safe connections to your fall arrest system.

SUPERIOR X-DESIGN

A single piece of material in the shape of an X wraps around the wearer for the ultimate in comfort, security and no-tangle donning.

Harnesses: DBI-SALA® ExoFit™ NEX™

3M™ DBI-SALA® ExoFit™ STRATA™ Full-Body Harness

The safety harness that won't weigh you down.

"Lighten up." It's what at-height workers have been trying to do for decades. That's why we created the 3M™ DBI-SALA® ExoFit™ STRATA™ Full-Body Harness. It features a first-of-its-kind load distribution system that literally takes the weight off workers' shoulders, resulting in a harness that is more comfortable, cooler and lighter to wear.

- 1** Tech-Lite™ Aluminum Side & Dorsal D-Rings
Secure your safety

Maximize reliability without adding extra weight.

- 2** EZ-Link™ Quick SRL Adapter
Gets you connected quickly

Simplifies connecting and disconnecting your personal self-retracting line.

- 3** LIFTech™ Load Distribution System
Frees your shoulders

Redistributes the weight of the harness to your center of gravity to dramatically reduce fatigue.

- 4** PolarMesh™ Padding
Keeps your back cool

Allows greater airflow to your back, providing superior breathability to keep you cool.

- 5** Revolver™ Vertical Torso Adjuster
Unleashes your mobility

Easily stores excess webbing, locking it in place and out of your way while maintaining the perfect fit.

- 6** Tri-Lock Revolver Connectors
Lock down loose ends

Store additional excess webbing and provide an extra layer of security around your legs.

Innovative, full body support for more than two decades.

New, improved Delta™ harnesses combine “industry-first” advancements with popular features that have made Delta™ the workhorse of the industry. Today’s Delta™ represents more than twenty years of design, research, manufacturing know-how and on-the-job performance.

Durable • Convenient • Comfortable

Delta™ harnesses are as tough as those who wear them. They have a shape of their own so you can don them quickly and easily. And Delta™ supports your back and hips while bearing heavy loads.

NO TANGLE DESIGN

Defining the Delta™ name, the patented triangular design creates a frame that allows the harness to fall into place when donned.

DELTA™ COMFORT HIP PAD

Improved ergonomic fit constructed with a soft, breathable, comfortable interior that supports your back and hips.

TECH-LITE™ QUICK CONNECT BUCKLES

Lightweight aluminum alloy buckles for fast and easy connections.

**420 LB.
CAPACITY**

Model Shown 1110575

• REPEL™ WEBBING

Water repellent to reduce attraction of mold and dirt—also has more abrasion resistance.

• LANYARD KEEPERS

Delta™ lanyard keepers hold your unused snap hooks and help reduce trip hazards.

• REVOLVER™ VERTICAL TORSO ADJUSTER

Simple and fast adjustment that eliminates loose ends and locks into place, preventing slippage.

STAND-UP DORSAL D-RING

Patented spring-loaded design automatically stands-up, ensuring fast, easy and safe connections to your fall arrest system.

• IMPACT INDICATOR

Provides visual alert that the harness has been involved in a fall and for safety inspections.

3M™ Inspection & Asset Management System

**Enhance compliance.
Save time.
Be proactive.**

With the 3M™ Inspection & Asset Management System, you're not just streamlining your safety and asset management process — you're giving yourself access to real-time data that can help you enhance worker protection. The advantages of having data at hand versus on file include:

- ▶ **Added compliance confidence**
Know at a glance the status of your workforce and equipment.
- ▶ **Data on demand**
Get a direct line of sight on selected compliance metrics in real time.
- ▶ **Pick your priorities**
Configure your workflow to meet different needs in different parts of your operation.
- ▶ **Account for your assets**
Gain improved traceability of high-value assets.
- ▶ **Sure and secure**
Put your trust in a high-security software platform with powerful encryption and multi-factor user authentication.
- ▶ **People, not paperwork**
Gain efficiency with everything entered and stored online, allowing you more time on the floor.

It's time for connected safety that's more personal.

3M™ Inspection & Asset Management System is the new way to stay compliant, audit-ready and data savvy.

1. Select

Choose the PPE and/or equipment to include in the Inspection & Asset Management System. The system will automatically load up-to-date documentation for most 3M PPE, but you can easily add details for non-3M PPE and equipment.

2. Tag

Attach the RFID tags to the PPE and/or equipment you want to enable. Barcodes or serial numbers can also be used.

3. Setup

Enter the maintenance and inspection checklists you currently do on paper.

4. Enter

Load the employees, PPE and/or equipment you want to include into the database.

5. Go

That's it. You're now ready to manage your PPE and equipment program digitally.

MSA 10191755	55.86	EA	6 ft	Snap hook		10191755

How to Calculate Fall Distance

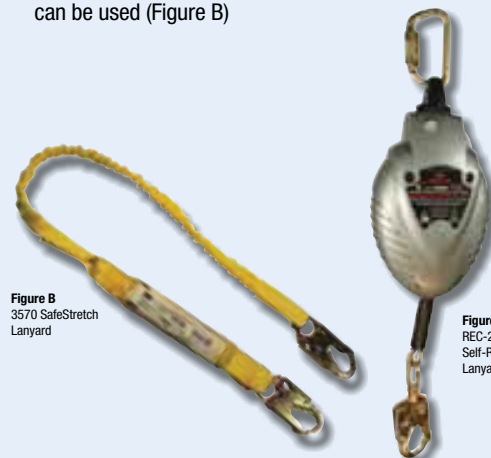

Fall distance must be calculated for each application where use of fall arrest systems are required.

Remember

LESS than 17 1/2 ft. of clearance, the use of a self-retracting lanyard is recommended (Figure A)

OVER 17 1/2 ft. of clearance, an energy absorbing lanyard or a self-retracting lanyard can be used (Figure B)

Self-Retracting Lanyards

NEW Self Retracting Lanyard 63011-00B

The V-TEC Mini PFL is the most compact and lightweight self retracting lanyard ever developed using radial energy-absorbing technology. The compact design eliminates the need for an exposed external energy-absorber outside of the housing, which improves wear and tear performance and decreases the replacement cycle, saving you money

Maintain safe fall distances for improved worker safety

Compact: Nano-Lok is ergonomically designed for ease-of-use and is ideal for direct connection to most harnesses. And at only 725 g, it's virtually unnoticeable on your back, stays out of the way and can be easily used as a lanyard replacement.

Versatile: Whether your application requires single or twin leg configurations, mounting to an overhead anchor or for connection directly to a harness, there are more than 10 models to choose from to suit almost any application.

Safe: Nano-Lok locks quickly - stopping a fall within inches - providing more protection at low heights. In addition, tension is always kept on the lifeline, which reduces dragging, snagging and trip falls. Both features are key safety improvements.

Honeywell

NEW Rescue Hook 24401-ES

The Salisbury rescue hook is packaged 1 each and meets ASTM F711 standards.

3M

DBI-SALA® Self-Rescue System

A flexible device that attaches to your current safety harness and allows you to lower yourself to safety in the event of a fall from height. This simple, fast and effective rescue plan minimizes risk for you, your coworkers and emergency response personnel. With DBI-SALA® Self-Rescue, you can work at height without worrying about being left suspended after an arrested fall event. Instead of wondering how long it will take to alert others or rescuers of your fall, you can simply avoid all that and free yourself.

FALL PROTECTION FOR TOOLS

Everything
you need to

stop the drop.

Fall Protection
for Tools

Tool Tethers & Wristbands

DBI-SALA® Fall Protection for Tools Quick Wrap Tape, 1" Wide

Made from a self-fusing silicone rubber, Quick Wrap Tape is capable of creating instant connection points for nearly any tool in a matter of seconds when used with a D-Ring or Tool Cinch Attachment Point. Quick Wrap Tape conforms to the shape of whatever it is applied to, making it ideal for even the most irregular shaped tools. Quick Wrap Tape has a temperature range of -65°F to 500°F (-54°C to 260°C).

DBI-SALA® Fall Protection for Tools D-Ring Attachment

Used with Quick Wrap Tape to create instant attachment points on tools. The D-Ring Attachment 0.5" x 2.25" can be used to create an attachment point on virtually any tool under 2 lb. (0.9 kg). (10/Pack)

Micro IV Single-gas Detector

The Micro IV is compact, robust and very easy to use. It is designed to be used in the harshest environments. The Micro IV includes a set of rubber boots to withstand hard knocks and drops. Most day-to-day functions are controlled with a single button, and calibration is fully automatic. The Micro IV delivers up to 3,000 hours of continuous operation from a single off the shelf AA alkaline battery.

The Micro IV carries a lifetime warranty on non-consumable components and two or more years of warranty on most sensors. Select sensors such as O₂, H₂S, and CO carry a full three year warranty.

Value Kit Configuration:

- All standard accessories
- Calibration adapter
- Calibration gas
- Fixed flow regulator
- ABS carrying case

Standard Accessories:

- Micro IV detector
- Specified sensor
- Alkaline battery
- Rubber boot
- Manual

Features:

- Highly configurable smart sensor design
- Full 3-year warranty on O₂, CO and H₂S sensors
- Event / Datalogging standard
- Programmable ceiling (3), STEL & TWA alarms
- AutoCal® automatic calibration

G450

Multi-gas Detector

The G450 Gas Detector offers exceptional performance for an extremely affordable price. The G450 four sensor multi-gas detector is compact, durable and very easy to use. The H₂S sensor offers 0.1 ppm resolution to comply with the latest TLV requirements. The G450 sensors are warranted for three full years, ensuring that the G450 has the lowest cost-of-ownership of any confined space gas detector on the market today. Replacement sensors carry the same three year warranty as the original sensors.

The G450 offers completely automatic calibration, one-button operation, top mounted display and interchangeable battery packs for up to 25 hours of continuous operation.

The optional motorized pump operates in diffusion and sample-draw modes, and can be easily attached or removed from the instrument when sampling needs change.

Standard Accessories:

- G450 detector
- Specified sensors
- Charger (if specified)
- Pump with 10 ft of tubing and probe (if specified)
- Calibration adapter
- Manual
- CD

Value Kit Configuration:

- All standard accessories
- Calibration gas
- Fixed flow regulator
- ABS carrying case
- Hand aspirated pump or motorized smart pump (if specified)

Features:

- MSHA Approved G450 and Smart Pump are available in all 3 configurations (alkaline, rechargeable and flashlight rechargeable)
- Compact and robust 1 to 4 sensor design
- Interchangeable battery packs for up to 25 hours of continuous operation
- Three color back light for easy identification of alarm conditions
- Standard event and datalogging
- Bright, flashing LED alarm lights visible from 360°
- Optional built-in "flash light" LEDs
- Full 3-year warranty on all sensors*
- Highly water resistant (IP 67)

G460 Multi-gas Detector

The G460 is a rugged, compact instrument for simultaneous detection of up to six gases. The concussion proof housing, along with the highly dust and water resistant housing protects the instrument in the harshest environments. The G460 features completely automatic calibration, one-button operation, top mounted display and interchangeable battery packs for up to 24 hours of continuous operation. The rechargeable NiMH battery pack can even be equipped with optional "flash light" LEDs.

The G460 has a highly configurable smart sensor design and data logging / event logging are standard. There are a wide range of additional sensors available.

Options include a detachable, self-powered pump for sampling confined spaces prior to entry. It allows operation of the instrument in diffusion or sample-draw mode.

A full 3-year warranty is provided on most commonly used sensors (O₂, combustible, CO, H₂S and CO₂), which reduces the cost of ownership over the lifetime of the instrument. There is an optional 6-year warranty available at the time of purchase.

Features:

- Exceptional HAZMAT and Confined Space performance
- Up to 6 channels of detection, including...
- PID sensor for direct reading of toxic VOCs
- Infrared (NDIR) sensors for CO₂ and combustible gas (0% LEL - 100% volume)

Standard Accessories:

- G460 detector
- Specified sensors
- Charger (if specified)
- Pump with 10 ft of tubing and probe (if specified)
- Calibration adapter
- Manual

Value Kit Configuration:

- All standard accessories

Honeywell

AreaRAE Pro Gas Detector

The Rae Systems by Honeywell AreaRae Pro is a wireless, transportable area monitor that can simultaneously detect toxic and combustible gases, volatile organic compounds, radiation and meteorological factors that affect speed, direction and behavior of gas - for enhanced situational awareness. It works with Honeywell's remote monitoring software, so you can see the real time threat readings, alarm status, location of each AreaRae Pro and much more - and make faster, more informed safety decisions.

Honeywell

AreaRAE Plus Gas Detector

The AreaRae Plus Systems by Honeywell is a transportable area monitor that can simultaneously detect toxic and combustible gases, volatile organic compounds, and meteorological factors that affect the speed and direction of the gas. Protect your community by monitoring a fence line, protect your employees during a maintenance turnaround, or protect your fire and hazmat teams during emergency response, the AreaRae Plus alerts you to threats with local audible and visual alarms. Plus it works with Honeywell's remote monitoring software to give you a real time view of threat readings from a safe location.

AreaRAE Pro RDK Detector Kit

The Rapid Deployment Kit (RDK) Detector Package includes 4 versatile GPS-enabled AreaRAE Pro monitors, each with up to 7 sensors and RAEMets. With The RDK, you have everything you need to create a perimeter and set up a command station up to two miles from the site. It all fits into a militarygrade protective case, which charges all the batteries during storage. The wireless network can scale up to 64 monitors, and the host controller can push the data in real time to any location via an Internet connection, for situational awareness in minutes.

Honeywell

MultiRAE Lite/Pro Pumped Portable Multi-gas Monitors

This multi-gas monitor provides versatile, customizable detection and monitoring of up to six gases, available in both pumped and diffused air models. With more than 25 sensors to choose from - the broadest selection in its class - it can test for VOCs, combustibles, and a range of toxic threats, as well as monitor sufficient oxygen levels, making it an excellent choice for personal protection and leak detection in a range of industries and applications. The wireless connection sends threat and alarm data in real time to a central command, providing superior awareness for fast incident response. And its replaceable sensors, alarm, and battery, large screen, and automated bump testing and calibration make it easy to use and maintain.

How to Select Your Blackline Safety Program

CHOOSE YOUR DEVICE

G7^c

Cellular-connected Monitoring

- ③ G7c uses 3G cellular networks to wirelessly connect teams to live monitoring personnel
- ③ Industry-first two-way speakerphone
- ③ Graphical display with user-friendly menu
- ③ Two-way text messaging
- ③ Intrinsically safe

G7^x

Satellite-connected Monitoring

- ③ G7x leverages G7 Bridge portable base station to connect with 3G and satellite networks
- ③ Seamless transition to satellite when cellular unavailable
- ③ Graphical display with user-friendly menu
- ③ Two-way text messaging
- ③ Intrinsically safe

CHOOSE YOUR CARTRIDGE

G7c Standard

- ③ Lone worker monitoring (No added gas detection)

G7c Single-gas

- ③ Choice of one gas sensor
- ③ H₂S, O₂, CO, NH₃, SO₂, Cl₂

G7c Quad-gas

- ③ Choice of two, three or four gas sensors
- ③ H₂S, LEL-IR, O₂, CO, NH₃, SO₂, Cl₂, LEL-Pellistor

CHOOSE YOUR SERVICE PLAN

Self-monitored

- ③ Your control room, supervisors or admin personnel monitor your team via Blackline Live web-based software (no installation)

Blackline-monitored

- ③ Full safety monitoring by Blackline's 24/7 Safety Operations Center
- ③ Blackline manages emergency response according to your custom response protocol

Two-way voice (G7c only)

- ③ When in alert, monitoring personnel can speak directly with the G7c user via industrial-strength speakerphone

ADD ACCESSORIES

Location Beacon

- ③ GPS signals alone are insufficient to accurately locate employees inside facilities
- ③ Beacons transmit positioning signals to ensure responders arrive at the correct location
- ③ Works with custom floor and site plans, loaded into Blackline Live software
- ③ Intrinsically safe

G7 Dock

- ③ Simple solution to calibrating, bump testing and charging G7 devices
- ③ Works with cloud-hosted Blackline Live web portal for device management and test data compliance tracking

blacklinesafety

Blackline Safety G7C / G7X Gas Detector

G7c with a standard cartridge functions as a connected personal safety and lone worker monitoring device, connecting workers to live monitoring personnel using 3G cellular networks. Connectivity is complemented by an industrial two-way speakerphone, text messaging and location tracking. Devices automatically watch over workers and call for help, even when the employee can't. G7c provides critical insights and situational awareness for optimized emergency responses. Should a fall be detected or a no-motion incident sensed, assisted-GPS capability guides responders directly to the effected worker's location. All safety incidents are communicated to Blackline's live monitoring teams who can mobilize responders to an employee's exact location or trigger scalable evacuations in real-time when required.

blacklinesafety

Blackline Safety G7X Gas Detector Bridge

Lone worker monitoring device that connects workers to real monitoring personnel using cellular and the Iridium satellite networks. Complemented by two-way text messaging, providing critical insights on G7x's brilliant LCD screen. Devices automatically watch over workers and call for help. Provides situational awareness enabling teams to respond with all the information necessary for optimized rescues in hazardous environments. Should a fall be detected or a no-motion incident sensed, assisted-GPS capability guides responders. All safety incidents are communicated to Blackline's live monitoring teams who can mobilize responders to an employee's exact location. G7x communicates with G7 Bridge via an industrial-quality 900 MHz radio link from up to 2 km away.

Gas Monitors

Honeywell

MicroRAE Wireless Multi-gas Monitors

The MicroRAE is a handheld wireless diffusion instrument that simultaneously monitors up to four gases, including Hydrogen Sulfide (H₂S), Carbon Monoxide (CO), Oxygen (O₂) and Combustibles (LEL). With its wireless connectivity options, the MicroRAE can deliver real-time instrument readings and alarm status to the Honeywell ConneXt Safety Ecosystem. This enables continuous, instant visibility of safety threats for faster, more informed decisions, to protect workers, facilities, and the environment, and to optimize operations.

Honeywell

RAE Systems ConneXt Pack Wireless Confined Space Entry Kit

Preconfigured wireless gas monitors report hazardous gas information and man down alarms to a remote host controller. Delivers lifesaving value to plant, industrial and first response operations. Data retrieved from wireless gas monitors can alert attendants and incident commanders instantly of toxic gas situations, allowing them to respond more quickly in emergency situations. Pelican case with precut foam insert (can contain up to 4 gas monitors, 1 EchoView Host and accessories). Gas monitor calibration adapters. QRAE 3 and EchoView Host Quick Start Guide.

Honeywell

MiniRAE 3000 Handheld VOC Monitors

The rugged MiniRAE 3000 is the most advanced pumped handheld volatile organic compound (VOC) monitor on the market. Its Photoionization Detector's (PID) extended range of 0 to 15,000 ppm makes it an ideal instrument for applications from industrial to HazMat / Homeland Security.

Order #	Price	Per	Sensor Configuration	Wireless	Std Range	Kit

Honeywell

QRAE3 Versatile Compact Personal Monitors

QRAE 3 is a versatile, rugged, one- to four-sensor pumped or diffusion gas monitor that provides continuous exposure monitoring of oxygen (O₂), combustibles, and toxic gases, including hydrogen sulfide (H₂S), carbon monoxide (CO), sulfur dioxide (SO₂) and hydrogen cyanide (HCN) for workers and responders in hazardous environments. The QRAE 3's wireless communications capability enables access to real-time instrument readings and alarm status (including man-down alarm) from any location for better visibility and faster response.

Honeywell

ppbRAE 3000 Wireless Handheld VOC Monitors

Trusted by many of the world's leaders in CBRNE, HazMat Response, Civil Defense, Oil & Gas, and other hazardous environments. Using a 3rd gen photoionization detector (PID) and built-in correction factors for more than 200 compounds. It measures the presence of VOCs from 1ppb-10,000ppm with a three-second response time. Optional built-in Mesh Radio enables real-time monitoring of instrument readings wirelessly. And a rugged housing, large display, and large keys that can be operated with three layers of gloves all make for a unit that's easy to use and maintain.

Order #	Price	Per	Sensor Configuration	Wireless	Confined Kit
059-C110-000	8057.00	EA	PID: 10.6 eV lamp	Non-Wireless	No

Honeywell

UltraRAE 3000 Portable VOC Monitors

The UltraRAE 3000 is the most advanced compound-specific monitor on the market and one of the few monitors that deliver accurate measurement of benzene from 50 ppb to 200 ppm and other VOCs up to 10,000 ppm. A 60-second response for a benzene measurement snapshot and a unique 15-minute benzene STEL measurement provide excellent versatility for entry pre-screening, marine spill response, and refinery downstream monitoring.

Gas Monitors Cont.

Honeywell

RAE Systems ToxiRAE Pro PID Personal Monitors For Volatile Organic Compounds (PGM-1800)

The world's smallest volatile organic compound (VOC) monitor. Featuring next-generation PID sensor, the ToxiRAE Pro PID can quickly detect and accurately monitor over 300 VOCs. Provides safety professionals wireless remote access to real-time instrument readings and alarm status for better visibility and faster incident response. With an onboard library of 190 correction factors, the ToxiRAE Pro PID can be programmed to automatically read in equivalent units of the specified compound. Calibration and test certificate. Warranty/registration card.

Gas Detection Tubes Cont.

Honeywell

RAE Systems Colorimetric Gas Detection Tubes

RAE Systems colorimetric gas detection tubes enable quick, on-the-spot measurement of a wide range of toxic and combustible gases and vapors. RAE Systems tubes are easy to read, and provide a sharp, clear color change directly corresponding to the concentration of gas present. RAE Systems tubes are compatible with the RAE Systems piston hand pump, a reliable way to draw samples of an exact volume required for the most accurate measurements. (10/pack)

AED's

ZOLL AED Plus • Features & Benefits

The ZOLL AED Plus is the only AED in the market today that:

- Helps rescuers through the entire resuscitation process with voice, visual, and text messages.
- Uses a unified electrode pad that guarantees accurate pad placement
- Supports CPR effectiveness by measuring compression and depth rate and prompts rescuer to push harder if necessary.
- Lowest total cost of ownership because CPR-D-Padz and batteries last 5 years, if not used.
- Rugged design that resists dust and direct water spray (IP55 Rating).
- Powered by 10 lithium batteries available from retail stores everywhere.

Pedi-Padz® II Infant/Child Electrodes

Pedi-padz® II - Pediatric Multi-Function Electrodes - Designed for use with the AED Plus. The AED recognizes when pedi-padz II are connected and automatically proceeds with a pediatric ECG and adjusts energy to pediatric levels. Designed for patients under the age of 8 or under 55 pounds. Twenty four month shelf-life. One pair.

SmartCompliance[®]

BY  **FIRST AID ONLY[®]**

SmartCompliance is the Smart Choice

SmartCompliance

The innovative SmartCompliance Program redefines business first aid. These powerful components work together to create the most comprehensive solution available today:

Innovative Cabinet Design

This unique cabinet design eliminates disorganized and missing supplies. Clearly labeled compartments create a cabinet that is easy to use and restock. With the expansion pocket, you can customize your cabinet to meet your specific needs.

SmartTab ezRefill System

This simple but effective system for reordering and restocking revolutionizes replenishment. It is quick, easy, and cost effective. As supplies are used, SmartTab ezRefill reminder tabs notify you when it is time to reorder supplies and puts reorder information at your fingertips.

Smart Compliance RetroFit Grid, ANSI B

91123

Smart Compliance RetroFit Grid, ANSI B

Make the smart move away from overstuffed First Aid Cabinets with our organized and easy to manage grid inserts. These grid inserts with individual refill boxes are easy to install into existing cabinets that are 15" wide, helping to eliminate cluttering. SmartTab re-order reminders make it easier to stay ANSI B compliant. Free SafetyHub phone App makes supply requisitions easy and allows you to control your costs. This product consists of 3 fully-stocked grids and extra supplies to make a cabinet ANSI B compliant, reducing First Aid costs by up to 50% over traditional van services.

OSHA Requirements for Workplace First Aid Kits

OSHA standards do not require specific first-aid-kit contents. This includes the Medical Services and First Aid standards in both general industry and construction, 1910.151 and 1926.50. However, since some employers may find it useful to refer to a list of basic first aid supplies, federal OSHA provided a reference for this type of information by adding non-mandatory Appendix A to the latter two standards. Appendix A references ANSI Z308.1, Minimum Requirements for Workplace First Aid Kits and Supplies. First-aid kits in compliance with this standard will provide a basic range of products to deal with most types of injuries encountered in the workplace and may be adequate for a small worksite. Since Appendix A was added, ANSI has updated Z308.1 many times. The most recent edition (ANSI/ISEA Z308.1-2015) was approved on June 17, 2015, with an effective date one year from that date.

The 2015 edition introduces two classes of first aid kits, based on the assortment and quantity of first aid supplies.

Class A kits are designed to deal with the most common workplace injuries, such as minor cuts, abrasions and sprains.

CLASS B

Class B kits include a broader range and quantity of supplies to deal with injuries in more complex or high-risk environments.

Employers should evaluate their own workplaces to determine whether additional supplies or kits are needed, based on the size and specific hazards of their workplaces.

Wipers Cont.

Kimtech Pure W5 Dry Wipers White

50% rayon/50% polyester spunlace blend. High water absorbency rate, plus excellent absorption efficiency and capacity. No binders or surfactants, resulting in low extractables. Clothlike feel. Double bagged with case liner. Recommended for ISO Class 5 or higher cleanroom environments. (100 wipers per bag)

Coventry™ 7348LE Cleanroom Chamois™ Microfiber Wipes

Coventry™ Poly-Wipes are made from 100% continuous filament polyester, minimizing particle generation. Made from a 50/50 nylon/polyester microfiber blend. The microfibers have a unique wedge shape, lifting contaminants from the surface more effectively. Laundered in our Class 10 (ISO Class 4) cleanroom. Available with our exclusive laser-edge sealing process (LE) or heat sealing process (HC). (50 wipes per bag)

BetaWipe™ Wipers

BetaWipe™ is a thick polypropylene and cellulose wiper thermally bonded in a unique composite construction. The cellulose contributes to the product's high sorption, while the polypropylene provides the wiper with resistance to strong acids. With its very soft surface texture, BetaWipe™ is ideal for cleaning sensitive surfaces. (100 wipes per bag)

TechniCloth® II Wipers

Fabricated from a hydroentangled, nonwoven blend of 55% cellulose and 45% polyester. This fabric blend combines the highly absorbent properties of a natural fiber with the cleanliness and strength of a synthetic wiper. TechniCloth® II features ITW Texwipe's proprietary ULP (ultralow particulate) treatment, giving it significantly lower particle generation than its predecessor, TechniCloth®. (300 wipes per bag)

VersaWipe® Wipers

Fabricated from a hydroentangled, nonwoven blend of 55% cellulose and 45% polyester. This fabric blend combines the highly absorbent properties of a natural fiber with the cleanliness and strength of a synthetic wiper. With its low particle counts, low extractable levels and solvent compatibility, VersaWipe® is ideal for general wiping and spill control in controlled environments. (300 wipes per bag)

Texwipe® Wipers

TexWipe® is a strong, double-sided twill pattern cotton wiper woven in a cross section of 118 x 60 threads per square inch. The product is manufactured with long staple cotton yarn to eliminate free-floating fibers on fabric surface. (300 wipes per bag)

Wipers Cont.

AlphaSorb® HC Wipers

Cleanroom laundered, two-ply, 100% polyester wiper constructed from continuous-filament polyester knitted in a double-knit interlock pattern. Developed specifically for the pharmaceutical industry and other critical environments. Offers high sorbency capacity coupled with low particle and extractable levels. (100 wipes per bag)

Order #	Price	Per	Size	Color
TX2412	81.81	BG	12 in x 12 in	White

TechniSat®

TechniSat® incorporates a pre-wetted fabric blend of nonwoven hydroentangled 55% cellulose and 45% polyester. Combines the highly absorbent properties of a natural fiber with the cleanliness and strength of a synthetic fiber. It offers low particle counts, low extractable levels and solvent compatibility. (50 wipers per bag)

Order #	Price	Per	Size	Color
TX1065	22.16	BG	9 in x 11 in	White

Polynit Z 150Wipes/Bag

Laundered and packaged in a ISO Class 4 cleanroom. Low in both particles and extractables. Polyester fabric with unidirectional conductive pattern. Good sorbency with solvents. Ideal for general purpose cleaning and wiping exterior surfaces of products. (75 wipes per bag)

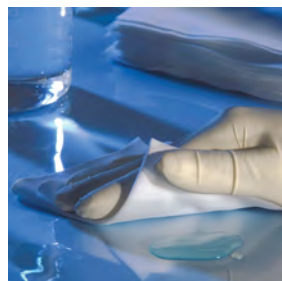

Order #	Price	Per	Size	Color
LWZS0001	58.06	BG	9 in x 9 in	White

Polynit Heatseal, Textured 100% Polyester No-Run Knit Wipes

Constructed of 100% textured knitted polyester. The wipe is laser-cut, which seals the edges of the fabric. The result is a very clean wipe, with a nonabrasive edge that allows complete utilization of the wipe's surface. Suitable for all ultra-critical applications, the fabric has also been specially processed to provide excellent sorbency while maintaining extremely low levels of particles, fibers, and residue. (50 wipes per bag)

Mop Covers

AlphaWipe® Wipers Synthetic Mop Covers

Constructed from 100% continuous-filament polyester in a double-knit, no-run interlock pattern. Cleanroom laundered and packaged. Ultraclean and highly sorbent wiper ideal for critical environments. It exhibits lower particle and fiber levels than competitive hot-cut or laser-cut products. 100% synthetic fiber. (25 wipers per bag)

Vertiklean® Max™ Microfiber Mop Head

For unmatched absorbency, mop head features a single layer of hydrophilic polyurethane foam laminated to polyester fabric backed by a semi-rigid thermoformed plate that easily snaps onto a VertiKlean mop head frame. VertiKlean MAX has a slimmer profile for cleaning in tighter spaces. Ideal for general cleaning of ceilings, walls, and floors. (4 wipes per bag)

Tacky Mats

Clean Room Mats

The multi-layered mat removes dirt and dust from foot traffic and equipment wheels prior to their entry into a clean or controlled environment. Each numbered layer is fully coated with a particle grabbing adhesive. Once the top layer is saturated, a quick and easy removal of that layer exposes the next layer and returns the mat to maximum efficiency.

Contamination Control Mats

Superior Quality, recommended for all controlled environments. Numbered tabs, adhesive coating, multi-layered construction (0.05mm per layer).

FLAMMABLE LIQUID STORAGE

*Cans
Cabinets*

*257
259*

Cans

General Industry Codes & Typical Industry Convention

OSHA 29 CFR 1910.106 (a)(29):

Safety can shall mean an *approved container*, of not more than 5 gallons capacity, having a spring-closing lid and spout cover and so designed that it will safely relieve internal pressure when subjected to fire exposure.

OSHA 29 CFR 1923.152:

Only approved containers and portable tanks shall be used for storage and handling of flammable and combustible liquids. Approved metal safety cans shall be used for handling and use of flammable liquids in quantities greater than one gallon. For quantities of one gallon or less, only the original container or approved metal safety cans shall be used for storage, use and handling of flammable liquids.

RED FOR GASOLINE

BLUE FOR KEROSENE

YELLOW FOR DIESEL

GREEN FOR OIL

*OSHA requires flammables with a flash point below 80°F be in a red can with a yellow band.

Type I Safety Can

Type I Safety Cans meet OSHA and NFPA Code 30 requirements and are UL listed and FM approved for safe handling and storage of gasoline and other flammable liquids. They are lead free and constructed with 24-gauge hot dipped galvanized steel not lead coated terne steel like other manufacturers.

Type I Safety Can W/F-15 Funnel

Cans are constructed of 24-gauge hot dipped galvanized steel, are deep drawn seamless, have a double interlock no-weld bottom seam, a baked on powder coat finish with a trilingual label, have a spring closing lid with neoprene gasket that vents at 5 psi internal pressure, have a nonsparking flame arrestor and pour spout.

048441-00468	80.63	EA	11 1/4 in x 10 in	Blue	2.5 gal

Type II Safety Can - Flex Spout

Cans are constructed of 24-gauge hot dipped galvanized steel, are the only deep drawn seamless can made, have a double interlock no-weld bottom seam, a baked on powder coat finish with a trilingual label and 100 percent made in the USA. Red for safe handling and storage of gasoline and other flammable liquids(U211S).

Type II Safety Can

Type II Galvanized Steel Safety Cans feature two openings. One with a pressure-relief spring closing lid for filling and one with an actuated pour valve with a flexible metal spout for safer controlled dispensing. These cans meet OSHA and NFPA Code 30 requirements and are UL listed and FM approved.

048441-22152	128.80	EA	11 1/4 in x 15 7/8 in	Red	5 gal

Poly Waste Can

Poly Oily Waste Cans offer fire safe temporary storage of solvent, waste rags, shavings and other materials subject to spontaneous combustion. Won't rust or dent and are resistant to most chemical compounds. 's cans feature self closing lid with foot lever.

Plunger Can

FM Approved safety plunger cans are ideal for cleaning with flammable or volatile fluids. Brass flame arrestor dasher screens and pump assemblies comply with OSHA standards. When dasher plate is pushed down the safety can dispenses a small amount of liquid to easily moisten sponges or rags without spills.

Cans Cont.

Type 1 Steel Safety Can

Designed with a single spout for filling and pouring, the sealed lid features automatic positive-pressure relief that vents between 3 and 5 psig to guard against rupture/explosion. Made from high-grade coated steel. Each safety can is equipped with a stainless steel flame arrester which dissipates heat to stop flashback ignition.

Type 2 AccuFlow Steel Safety Can

Patented manifold and proportional flow-control Safe-Squeeze® trigger provides you the means to regulate the flow rate when handling flammable liquids. Fill port with ergonomic lift lever makes filling easy. Flexible 9" (229-mm) long metal hose spout helps control the pour into small openings.

Type 1 Steel Safety Cans with Funnel

High performance, chemical resistant stainless steel flame arrester that stops flashback ignition. The extra long precision mesh screen is a full 3-1/2" (88 mm) to ensure safe insertion of gas nozzle. Self-closing lid controls vapors and spills. Leakproof, positive pressure relief cap automatically vents to guard against rupture or explosion.

Plunger Dispensing Can

Made of chemically resistant Rytan® and brass, the pump base is designed to leave less liquid in the bottom before having to refill. Pushing down on the pump assembly fills the upper pan with liquid. Surplus liquid drains safely back into reservoir. The perforated upper pan serves as a flame arrester.

JUSTRITE 10308	80.83	CN	10 1/2 in x 7 1/4 in	Red	1 gal

Oil Waste Can

Essential whenever solvent soaked cloths and wiping rags are used. The specially designed lid opens no more than 60 degrees and stay closed when not in use, isolating contents from fire sources and limiting oxygen so spontaneous combustion risk is virtually eliminated. Compact foot pedal leaves hand free. FM Approved and UL Listed.

Dip Tank

Use for cleaning parts and subassemblies where the volume of work does not warrant a larger rinse tank. Portable size accommodates changing production requirements. Dip tank covers stay open for convenient access; self-closing mechanism and fusible link melts at 165°F (74°C) to snap the cover shut in case of fire.

Red Steel Rinse Tank

Use benchtop style rinse tanks for easy point-of-use access on workbenches or counters. Lift-and-latch style cover includes a fusible link that melts at 165°F (74°C) to automatically close the cover under fire conditions.

CeaseFire Cigarette Butt Receptacle

Made of flame-retardant and sturdy polyethylene, this low maintenance smoker's friend won't rust, dent or crack. Innovative self-extinguishing design safely collects unsightly cigarette litter and reduces the risk of fire. Tie-down notches offer security and greater stability. Units include a galvanized steel bucket that collects thousands of butts.

Chem-Cor Lined Hazardous Material Safety Cabinet

Featuring the same quality features found in flammable cabinets — including double-wall, 18-gauge (1mm) welded steel construction, 2" (51mm) liquidtight containment sump, dual vents, adjustable shelves, three-point stainless steel bullet self-latching doors with U-Loc™ padlockable handle and Haz-Alert™ reflective warning labels. An all epoxy baked-on powder-coat finish, inside and out, provides increased chemical resistance. ChemCor® thermoplastic coating on all interior surfaces provides superior protection against corrosion from drips and off-gassing from harsh chemicals. Seam-free surface eliminates the need for rivets or fasteners which risk corrosion from seep-through chemicals. Non-porous surface resists staining and cleans up easily. Self-close door(s) shuts and latches automatically when a fusible link melts at 165°F (74°C) under fire conditions. Unique, concealed selfclosing mechanism offers obstruction-free access to contents. Cabinets comply with NFPA 1, NFPA 400 Hazardous Material Code, and the International Fire Code. Cabinets are FM approved and come with a ten-year warranty.

Hazardous Material Safety Cabinet

Blue steel safety cabinets for corrosives have the same quality safety features as the cabinets for flammables. All models come with double-wall construction, dual vents, grounding wire connections, adjustable shelves, leakproof sills, threepoint self-latching doors and leveling feet. Self-close door(s) shuts and latches automatically when a fusible link melts at 165°F (74°C) under fire conditions. Unique, concealed self-closing mechanism offers obstruction-free access to contents. Additionally, they include polyethylene trays attached to galvanized steel shelves and a separate polyethylene liner for the bottom sump resist aggressive chemicals. Easily remove the liner for quick cleaning of drips and leaks. An all epoxy baked-on powder-coat finish, inside and out, provides increased chemical resistance.

EXCLUSIVE BENEFITS

- **Self-Closing Doors**
Required on all Hazardous Material Cabinets, the enclosed self-close mechanism provides obstruction-free access to top shelf space. Self-indexing doors close in sequence to ensure a tight closure from top to bottom.
- **U-Loc™ Door Handle**
Flush-mount Sure-Grip® handle comes with installed cylinder lock and key set. Accepts optional padlocks for added security.
- **Haz-Alert™ Reflective Labeling**
Firefighter friendly warning labels reflect with high visibility when illuminated with a flashlight. As required by code, cabinet must be labeled "Hazardous - Keep Fire Away".
- **Application Specific Labels**
Choose from a packet of 10 chemical specific labels, and apply to indicate contents of the cabinet.

SPC ENV Oil Only Sorbent Pads and Rolls

Made with MAXX® Technology for superior absorbency and greater strength. They weigh less - which means lower disposal costs! Highly economical, contractor grade oil only meltblown polypropylene for oil clean-up on land or water. Absorbs petroleum-based liquids and repels water. Floats indefinitely even when saturated with oil. (100 pads/bale)

BASIC™ Oil Only Pads 15"x17"

Our value-priced oil only absorbent. Oil only meltblown polypropylene. Absorbs petroleum-based liquids and repels water. Floats indefinitely even when saturated with oil. Economical single-ply construction. Perforated to help you reduce waste by using only what you need, dimpled for added durability and reduced linting. (100 pads/bale)

Control Devices & Diverters

SPC Storm Drain Guard

Keeps oil, sediment, and other contaminants from entering the water system. Made from non-woven polypropylene, holds up to 40lbs of sediment. Flow rate is 500gpm and 700gpm bypass. Include four handling straps.

SPC Slikstopper

Seals drains tightly to prevent spills from spreading. Made from chemical resistant, flexible PVC. Resists water, oil and most aggressive fluids. Available in four sizes. Easy application and soap and water cleanup for re-use. 1/Case.

Lockout/Tagout

Lockout is more than just meeting compliance.

For over 100 years, we have been trusted by clients to help solve some of their biggest safety challenges. Our comprehensive lockout programs are customized in partnership with you to meet your requirements, keep your employees safe and ensure your compliance.

Personal Lockout Kit with Padlocks

Our personal padlock pouch gives each worker the locks, tags and hasps they'll need for their next lockout situation. Kit components include: 2-Brady® Safety Padlocks, 2-Heavy Duty Lockout Tags (66520), 1-1" Lockout Hasp (65375), 1-1.5" Lockout Hasp (65276).

3003Y Economy Lockout Center

Metal Lock Box

Holds 13 padlocks. Lock boxes require fewer locks and are lighter than hasps on delicate energy isolating devices like circuit breakers. Made of heavy-duty steel and is powder coated for extra rust resistance.

Economy Aluminum Hasps

Non-sparking, aluminum small hasps are a great addition to your tool box. Hasps are very lightweight - only 1 1/2 ounces. With 5/8" holes for up to 6 padlocks with a maximum of 3/8" shackle diameter.

S3100 Sign and Label Printer

Benchtop Printer

Walk-up-and-print for ultimate ease of use.

Just walk up and print. Literally. The best choice for facility, safety and Lean / 5S labeling

- Intuitive, simple to learn, very approachable. Ideal for multi-user situations, events and centrally located print stations.
- 20-second supply changeover with no waste, calibration or trial and error setup
- Standalone use or PC-Connect use all in one printer
- Automatic label setup with no calibration. The printer "reads" information from your cartridges, automatically setting up the label

Easy to load. Drop-in supplies.

Color your way to an improved workplace.

The BBP35 and BBP37 label printers give you the power to make signs and labels in the colors and shapes you need to make an impact – right when you need them.

• Multiple print colors

Color is more memorable, more effective and is the differentiator you need to effectively improve workplace safety and productivity

• Shape cutting with the built-in XY plotter cutter (BBP37 only)

Cut out shapes and text, or cut around your message to create labels that look and fit how you want them to

• Label making made easy

Incredibly easy and intuitive interface makes it ideal for multiple users, centralized locations and lean / 5S events

• Automatic label setup

Printer reads critical information from the supplies and then automatically sets up the label attributes in the printer so you can start printing immediately

• Time saving

20-second changeovers with drop in ribbon and label supplies

Unprecedented capabilities set the standard in safety and facility ID

There's big and bold. Then there's big and bold from Brady.

The BBP85 Sign and Label Printer allows you to create extra-large 10 inch labels in multiple colors, and it has an easier-than-ever interface that anyone on your team can use. No more complex, tedious design steps. Now you can just walk up and print – anyone can do it.

Big Output. Little Fuss.

Create custom signs and labels right now. This printer has our fastest, easiest operating system, so anyone on your team can design visuals with little to no training. The ideal printer for multi-user lean / 5S and kaizen labeling events.

Unmistakably large visuals up to 10 in. wide.

Just walk up and print – it really is that easy.

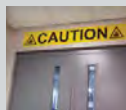

Simple touchscreen interface for standalone use, including label design apps to quickly create safety signs, pipe markers, GHS, arc flash, right-to-know labels and more.

Connect to your PC to print labels created through Brady Workstation apps.

USB port for importing files, fonts and graphics.

Big, bold and better than ever

High-resolution, high-speed full-color label creation.

Get the impactful color labels you need to create a safer, more efficient workplace. The BradyJet J5000 Color Label Printer is an on-demand, inkjet solution for creating photo-quality color labels for indoor use in a single pass, while reducing your inventory of labeling supplies and material waste.

- 4,800 dpi print resolution for high-resolution clarity and fine detail.
- Full-color photo reproduction and wide tonal range allows for labels with photos, graphics, illustrations, text, linear and 2D bar codes.

- More than 16 million color possibilities with only 4 ink cartridges.
- Large ink cartridges that reduce the amount of changeovers or replacements.
- Fast print speeds up to 6 inches per second.
- Print up to 5,000 high resolution labels per day, using only the ink and label materials needed to keep waste and inventory down.
- Variety of label options with 2 to 8 inch wide continuous and die-cut materials.

High-resolution and full-color identification throughout your facility

Custom Signs

Safety Sign Headers (OSHA 1910.145 and ANSI Z535)

Messages such as "Warning" and "Caution" may seem synonymous, but they actually deliver very different messages. ANSI and OSHA specify that safety signs must indicate and define specific hazards that, without identification, may lead to accidental injury to workers, customers or the general public. The standard headers and definitions are listed below.

Custom Signs Cont.

What is Proposition 65?

According to California's Proposition Warnings website, "Proposition 65 requires businesses to provide warnings to Californians about significant exposures to chemicals that cause cancer, birth defects or other reproductive harm." Ultimately, it's intended to help California residents make informed decisions about their exposure to these chemicals.

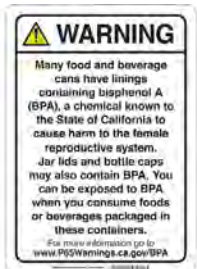

Why use Brady labels for the Prop 65 requirement?

Brady is the top trusted provider of labels and product identification needs. With the Proposition 65 regulation, it becomes more important for the labels that are placed on the products to hold up to the tough conditions in order to warn the end user of potential health concerns.

For more details on Proposition 65, please visit www.p65warnings.ca.gov.

SAFETY AND HAZARD COMMUNICATION BARRIERS

Limit confusion and increase productivity and safety at your job site.

Wall Mount Magnetic Retractable Belt Barrier

The magnetic wall mount barrier allows for quick closure of docking doors, elevators, escalators, bathrooms, wide aisles, corridors, lock out/tag out of down equipment, electrical rooms creating an Arc Flash Boundary, and many other uses. Secure to more surfaces than any other similar product in the market with the use of powerful magnets or integrated suction cups.

Channel Protectors

Guard Dog® Cable Protector 3 Channel General Purpose

Hinged lid protects valuable electrical cables and hose lines from damage while providing a safer crossing for vehicle and pedestrian traffic. Modular interlocking design is ideal for various applications. Load capacity is 14,120lb./tire. 28,420lb./axle. Max load tested to 70degrees fahrenheit. Protects cables and hoses up to 2.25inches outside diameter.

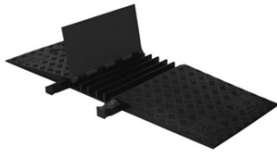

Order #	Price	Per	Length	Color	Material

Cutting Tools & Safety Cutters

10503 Box Cutter

A new level with an ergonomic, protective J-hook handle and our patent-pending safety blades. Avoid injuries with a retractable box cutter that prevents you from accidentally leaving the blade exposed. Keep your fingers safe with our protective handle. This safety box cutter uses 100 percent zirconium oxide blades that are non-sparking, non-magnetic, chemically inert, safe up to 1600 degrees Celsius, and never rust.

Order #	Price	Per
895142-10503	18.99	EA

10554 Auto-Retractable Utility Knife

Auto-retractable utility knife responds to customer demand for a long blade to cut through thick materials, including triple-walled corrugated. When your cut is finished, the ceramic safety utility knife blade pulls back to keep you safe. Rotate the blade edge quickly and without tools to adjust for right or left-handed use.

Order #	Price	Per
895142-10554	21.84	EA

Cutting Tools & Safety Cutters Cont.

10560 Utility Knife

Auto-Retractable Industrial Knife features our longest blade yet. Specially designed for cutting thick foam in industrial settings, the exposed blade is approximately three inches (7.5 centimeters) long, allowing the user to tackle thicker materials. Safety features include automatic blade retraction. The 10560's slider is grooved and textured for user comfort and a better grip.

Order #	Price	Per
895142-10560	23.74	EA

10512 Pen Cutter

Offers an alternative handle profile to Slice's safety box cutter. Its slimmer cylindrical shape is ideal for hard-to-reach areas and it uses the same box cutter blades, offering the same great features. These include Slice's proprietary finger-friendly edge that reduces injuries. Our pen cutter design limits the amount of exposed blade. The blade retracts into its housing when the user releases the rubberized slider button.

Order #	Price	Per
895142-10512	12.34	EA

10514 Box Cutter

Works well as a safety box cutter, a pocket knife, or a kitchen multi-tool. Its auto-retractable blade stays out of harm's way when you're not using the knife, and the built-in magnet keeps it handy. This small cutter ships with a replaceable 10404 rounded-tip safety blade. Left-handed users need only move the blade into the opposite slot in order to get cutting.

Order #	Price	Per
895142-10514	9.49	EA

10562 Utility Knife

Folding Utility Knife combines the familiarity of a folding pocket knife handle with the innovation of our finger-friendly® blades. Keep your knife handy by slipping it into a pocket or using the included belt clip. When you're ready to cut, press the quick-release lock button and unfold a safe, effective utility blade. The featured finger loop provides a secure gripping option.

Storage Bins & Organizers

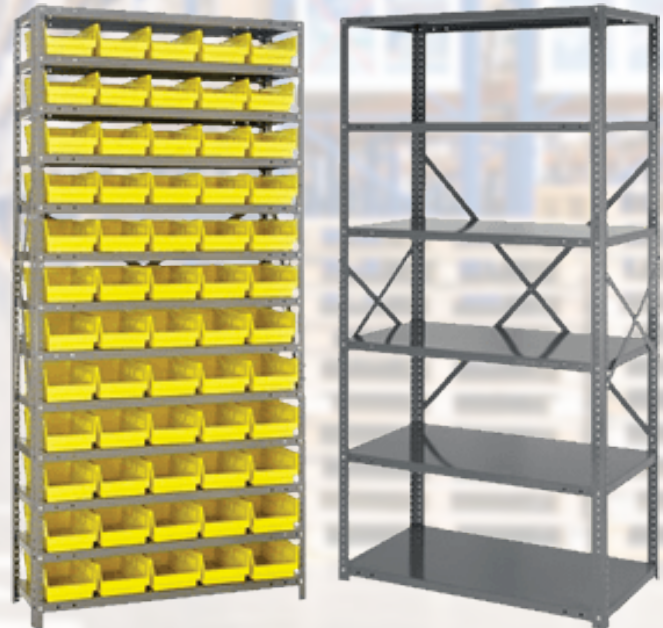

INDUSTRIAL PLASTIC BINS & WAREHOUSE BIN STORAGE SYSTEMS.

From rugged and strong stackable storage bins to tough, durable nesting shelf bins for the industrial, material handling and consumer markets. Our Industrial totes and containers, injection molded bins, and complete bin systems offer a storage solution in any environment. Suitable for any type of application, Quantum's bins are large and tough enough for the storage of heavy power tools and yet optimal enough to keep your smallest items safely contained and organized.

Efficient, Permanent, and Economical.

With brand names of Ultra, MAGNUM, HULK, Store-More, and Quick Pick, Quantum's bins are known quality, strength, and versatility. Let Quantum's Industrial bins and warehouse bin systems be your workable storage solution by increasing production efficiency, reducing and controlling inventories, shortening assembly times, and minimizing parts handling.
