

3M™ PELTOR™ CH-5 High Attenuation Headset
Helps create a high signal-to-noise ratio that enables critical communication in noisy environments.

Dear 3M Safety Distributor,

3M is proud to introduce the 3M™ PELTOR™ CH-5 High Attenuation Headset product line, which features 3 NEW Headsets to serve the protective communication needs of our Industrial and Defense customers.

When used near workplace noise hazards, such as in proximity to generators or turbines, the 3M™ PELTOR™ CH-5 High Attenuation Headset provides professional occupational hearing protection while helping you monitor external radio communication sources. The Flex connector offers the flexibility to connect the headset to a wide range of available radios on the market using radio-specific cables. The high visibility color on the Industrial versions provide increased safety in exposed environments. With its ruggedized Kevlar® reinforced cables, the Defense version of the CH-5 headset is built to last under especially harsh conditions. (NATO wired connection fits select military-specified adapters.)

These Headsets Feature:

- High Attenuation – Deep hearing protection cups allow for one of the highest NRRs on the market.*
- Dependable Connectivity – Flex Connectors allow for connection to select Industrial radios. Defense version connects to select Military radios via standard 3M™ PELTOR™ PTT Adapters.
- Smart Communication Mic - Advanced noise cancelling boom microphone for communicating in extreme noise.
- Serviceability – Selection of replacement parts and accessories for proper maintenance and repairs.

3M ID	Part Number	Description	UPC Code	MSRP (ea.)	Unit of Measure
UU008027557	MT73H450A-77 GB	3M™ PELTOR™ CH-5 High Attenuation Headset - Flex Connector - Headband - 31dB NRR*	7 31864 006705 9	\$325.00	1 ea.
UU008027573	MT73H450P3E-77 GB	3M™ PELTOR™ CH-5 High Attenuation Headset - Flex Connector - Hard Hat Attached - 29dB NRR*	7 31864 006707 3	\$325.00	1 ea.
UU008027565	MT73H450A-86	3M™ PELTOR™ CH-5 High Attenuation Headset - NATO Wired - Headband - 31dB NRR*	7 31864 006706 6	\$350.00	1 ea.

**See Launch Information for Replacement Parts and Accessories.

*WARNING! 3M™ strongly recommends individual fit testing of hearing protectors. If the NRR is used to estimate typical workplace protection, 3M recommends that the noise reduction value be reduced by 50% or in accordance with applicable regulations.

If you have any questions, please let me know.

Sincerely,

Doug Moses
